Rose Loses the Second Game to State Normal

Rose Poly lost the second game of the season to State Normal at the K. of C. hall by a score of 40 to 12. The sued by most big schools. 125 can-score would not indicate the fight put didates turned out at Princeton last up by the Rose five. The game was clean from start to finish and but lit- Michigan. tle roughness cropped out, due to the efficient handling of the whistle by Referee Averman.

Coach Wischmeyer started an entirely new five from that which had represented the Rose, and White, O. Conover, with Pittman as running Conover, with Pittman as running mate, held down the forward jobs. Al Standau was at his regular post at center while Bogardus and Walker handled the defensive side. This five showed remarkable ability at working the ball down the floor, but missed the basket repeatedly. For five minutes after the initial whistle, neither team was able to count. Winters then started a Normal rush with a foul goal. With the score 11 to 0, Rose scored on a foul throw by Pitt-Rose scored on a foul throw by Pittman. This gave the Engineers a decided brace and with snappy team work that broke through the Normal defense, they worked the ball down the floor. Pittman counted twice the floor. Pittman counted twice from the field and Conover once. Normal pulled together at this point and halted the Rose rush. With a series ana, Purdue, O of long shots, Normal boosted its count until at the half way mark the lowa University score stood 22 to 7, Normal.

half while the Engineers registered but twice. A spirited offensive was assumed by Coach Wischmeye's protegees, but they could but twice. A spirited offensive was assumed by Coach Wischmeye's protegees, but they could not count on the long shots. Score at the final

whistle, 40 to 17, Normal.

Winters led in the scoring, making seventeen points for Normal. Standau played a hard game for Rose, but was unable to get clear. Line-up

There are a number of students at Rose who think the Technic is a dead paper but how many of these have ever contributed to it or have done anything to help improve it? The anything to help improve it? The Technic has always been too much of a one or two-man job. Too many have taken the attitude of "let George do it" and too few have gone out of their way to contribute. This is true

The Ruse Technic to some extent of the members of the staff itself. We are not making excuses for the Technic, we are asking you not to criticise but to offer suggestions for the improvement of the paper. Criticism, especially criticism behind our back, does not improve matters, but helpful suggestions for its proved the paper. Criticism, especially criticism behind our back, does not improve matters, but helpful suggestions of the Epsilon for its proved the paper. Criticism behind our back, does not improve matters, but helpful suggestions for its provided by cladity received. Our attention of the members of the staff itself. We are not making excuses for the Technic, we are asking you not to criticise but to offer suggestions for the improvement of the members of the staff itself. Signal is it is thought will be suggestions for the improvement of the paper. Criticism, especially criticism behind our back, does not improve matters, but helpful suggestions for its provided by the criticism behind our back, does not improve matters, but helpful suggestions for its provided by the criticism behind our back, does not improve matters. would be gladly received. Our attention was recently called to the fact that several students had objected to paying their Student Fund, giving as their reason that the Technic was not worth reading, and that it was run by one fraternity. It appears to us that this is a very poor attitude to take. In the first place the Technic is not run by one fraternity. If this were so, it would be difficult to tell which fraternity it was by reading the names of the men on the staff. In the second place the Technic receives a very small part—twelve per cent to be ex-act—of the Student Fund, the greater part of it going to the support of athletics. Even if the Technic were not worth reading it would surely not of the Student Fund considering the small percentage which the Technic receives. If those who do not like the Technic would go to some member of the staff and tell him what he thinks is the matter with it and show will-ingness to help better conditions, it would be far better than taking the complaint to the faculty who have lit-tle or nothing to do with the actual editing of the paper.

ATHLETICS AT ROSE

The athletic teams representing Rose have not met with much success in the last two years. What is the trouble and how it can be corrected are two questions which have been are two questions which have been asked time after time but have not They built a church at his very dooryet been answered. At the beginning of each season prospects have always seemed bright, there has been a quantity of good material on hand and everything has pointed to a winning team but something goes wrong in the middle of the season and all our is a difficult matter to place the blame for this condition. The student body comes in for its share but a part of it undoubtedly falls on the faculty. undoubtedly falls on the faculty. An athlete at Rose gets no more consideration than any other student. He goes to classes from eight until four, practices until six and goes to bed at ten thirty if he observes training rules. Yet as much is expected of He was in it. him in class as of the man who is free at four o'clock. Why not let the members of the Varsity squad off at three o'clock so that they may have an extra hour of practice. The time lost would not amount to much and the team should be greatly improved. How can we expect to compete with other colleges of our size whose athletes are given every possible advantage unless we give ours at least a little consideration?

-By MISCHIEF.

SHOULD A MAN'S PAY EQUAL THE VALUE OF HIS PRODUCTION?

(By Francis W. Shaw.)

Is it fair that a man should consume or reserve for his own use all fact that some people are unable to produce by reason of incapability of some kind—I do not see how this gen-tleman's suggestions or recommendations are going to put an end to strife

highly successful dinner and theatre party. Those present were Dr. White, Errol Fox, Rymond Cooke, George Defel, William Merry, Homer Clark, Russell Stockmaster, Richard Voges, Russell Corban, Russell Snyder and the honor guests, Herbert Corban and Garnet Phillips. After the excellent dinner at the home of Russell Corban, all went to the Grand where the last performance of "Way Down East" was enjoyed by all.

The chapter plans to institute a man of inventive ability, so improves a process that one man in a lifetime can do the work of a hundred working under the old conditions. Then Smith, having saved the labor of nine-ty-nine men out of one hundred, is entitled to 99 per cent of the products of all the machines that are put in operation. Many Smiths have passed, many Smiths are living and many Smiths are to come. Indeed, had no such Smith ever lived, people would be a process that one man in a lifetime can do the work of a hundred working under the old conditions. Then Smith, having saved the labor of nine-ty-nine men out of one hundred, is entitled to 99 per cent of the products of all the machines that are put in operation. Many Smiths have passed, many Smiths are living and many Smiths are living and many Smiths are viving and many Smiths are living and many Smiths are living and many Smiths are living and many Smiths are viving and many Smiths are living and many Smiths are viving and many Smiths was enjoyed by all.

The chapter plans to institute a series of professional meetings in the near future, bringing in speakers from the outside. All members will be expected at these meetings, which will be entitled to accumulate more than ever did the Smiths of the past. I fancy that most of those who hold positions of responsibility would be entitled, according to this theory, to quit their work and live out their lives on the value of the labor they have saved others.

Is it not reasonable to suppose, after all, that every man who does his best is entitled to share equally with the others in the category of "best-doers!" What, really, is the measure of value of output in these days of the fine sub-division of labor? There are certain classes of undesirable and unpleasant work at which should consider one hour spent—if had to spend it there—worth as much as twenty hours of ordinary work, such as at a lathe; and I am duly thankful that the Lord has endowed me with sufficient talents to enable me to rise above such menial

What is wanted is a means of measuring a man's output in relation to his material gifts, his opportunities, his environment. When regard is had to the sort of start some poor devils get in life, it is not what they don't do that should surprise us, but rather what they do. If these unfortunates are going to receive just what they produce, God help them, as it would not suffice for a bare existence.— American Machinist.

MALVERD A. HOWE, C. E., Prof. Emeritus of Civil and Architectural Engineering.

JOHN B. PEDDLE, M. S., M. E., Professor of Machine Design.

FRANK C. WAGNER, M. A., Professor of Mechanical Engineering and Associate in Electrical Design.

EDWIN S. JOHONNOTT, M. S. Ph. D., Professor of Physics.

ROBERT L. McCORMICK, M. S., C. E., Professor of Mechanics and Structural Engineering and Associate in Civil Engineering.

HAROLD A. THOMAS, C. E., Professor of Hydraulics and Associate in Civil Engineering.

CLARENCE C. KNIPMEYER, B. S., Professor of Electrical Engineering.

ALBERT A. FAUROT, M. A., Professor of Romance Languages.

CLARENCE P. SOUSLEY, Ph. D., Professor of Mathematics.

LIEUT. HARRY A. MONTGOMERY, C. of E., Professor of Military Science and Tac-tics.

CARL WISCHMEYER, M. S., Associate Professor of Machine Design and Elementary Mechanics. ORION L. STOCK, M. S., Associate Professor of Drawing and Architectural

Design,
ALFRED T. CHILD, M. A., Associate Professor of Applied Chemistry.
GEORGE W. GREENLEAF, Assistant Professor of Shop Management and

Fractice.

ERROL L. FOX, B. S., Instructor in Chemistry.

ARTHUR W. BROWN, A. B., Instructor in English and Economics.

HAROLD C. EXLINE, B. S., Instructor of Mathematics and Civil Engineering.

FRANK M. STONE, B. S., Instructor in Physics and Electrical Engineering

BENJ. H. PINE, Business Agent. MARY GILBERT, Registrar,
ALBERT A. FAUROT, Librarian.
ETHEL McCULLOUGH, Assistant Librarian.
GEORGE W GREENLEAF, Shop Superintenden
HAZEL M. HUFFMAN, Secy. to the President.

EXCHANGE NOTES

The Indiana Student Volunteer Convention was held at Franklin, Feb. 12, and was attended by about 250 representatives, at least one from practically every higher institution in the state.

A student branch of the A. S. C. E. has recently been organized at the California Institute of Technology.

Paul Draper, representing Butler College, in three eastern meets, with an average of 1,000 athletes, entered in each meet, took fourth place in two meets, and ninth in the other. Butler is fast climbing in the athletic scale, and with the reported addition of Paul Hinkle, who graduates this spring from Chicago University, to the already splendid coaching which has marked Pat Paige's sojourn, Butbids fair to clamor for Middle

A number of colleges have this winter taken somewhat to dramatics, and as a result many successful plays to buy gold bricks if they could pay have been given. Among these are "The Passing of the Third Floor Back," produced at Butler; "The Follies of '22," by the students of Carnegie Tech.; and a "Minstrel," to be given at Brocklyn Tech.

Why the groceries don't stay of Thursday afternoons. given at Brooklyn Tech.

Pins, Rings and Medals

The Juniors at Rolla School of Mines are to give the farce, "A Pair of Sixes," as part of the St. Pat's day

Lloyd Comfort, Garfield High athlete, won his "C" in football at Carnegie Tech this fall. He is also representing Tech in the heavyweight division of their boxing program. His first bout was for three rounds and was awarded his opponent, a mid-ice" on the new bulletin board. shipman at Annapolis.

BAHIA is divided into an Upper and a Lower City. One section is on the top of a cliff—the other extends between the foot of the cliff and the waterfront.

Four Otis Electric Elevators in two large vertical towers and the Otis Incline Railway pictured here, carry the people and freight up and down the cliff. The Incline Railway is built at an angle of 40 degrees; there are two cars working alternately, each with a capacity of 20 people and 1500 pounds freight and the trip is made in 90 seconds.

Otis engineering has successfully linked these two parts of Bahia. This achievement, big as it is, is but one significant detail of the world-wide service given by Otis.

Most of the famous structures of the world are equipped with Olis Elevators. OTIS ELEVATOR COMPANY

Differentials &

The Last Rose-Normal Mess. The score doesn't tell it all. Our Dixie had a rather quiet eve-

The Rose line-up, as Jack Grose sees it: Forward, failing; forward, R. Failing; center, Bob Failing; guards, Failing and Failing; substitutions, Failing for Failing.

Someone remarked that the goal-backing of Normal's two star for

shooting of Normal's two star forwards didn't hurt anyone. Well, it didn't hurt Rose, anyway.

Wonder what kept the Normal crowd away—they even had only one

cheer leader.

The referee didn't see a thing wrong-But the umpire called the foul On a Normal guy who went so strong That he couldn't put up a howl.

Then Standau shook the umpire's hand And patted him on the back, But the latter didn't seem to under-

He was probably expecting a crack. Frankie Glenn should get an auto horn to use when the opposing team is shooting a foul goal. He could make more noise that way than by simply clapping his hands. The Conovers all played a nice game

even if they were sorta divided against themselves.

Coming Through With the Rye. When a brother meets a brother, When a brother's dry,

Then each brother greets the other With a Prohi sigh. Then they both drink ice cream sode

For there is no rye—'Sahelluva way to treat a brother When a brother's dry.

He Needed It.

McCormick—Got a comb?
Scott—No, but I saw a rooster out
there strutting around with one.
Mc.—Aw, now you're getty cocky.

Speaking of Guts.
Child—For what purpose is the largest tonnage of rosin used? Goodman-Violin strings, I think.

Walker (in accounting)-Suppose the cashier skipped with about 10,000 bucks-how would you enter that transaction?

Krausbek (earnestly)-Credit expenses of traveling men.

More Light.

Whitlock wanted to know if throwing images on that screen was what made all the holes in it.

Which is about as loco as Williams asking Prof. Child if all coals contain the same amount of ash.

Magician—I will now pass through this bookcase full of books instantly. Rose Sophomore—Shucks! That's nothing. Doc Sousley can go through a whole library in no time at all.

A couple from Sophomore English

Brown—There is no such word as 'pants'—you should say "trousers." Hardin-Well then, would you say, The dog trousers"?
Brown—Is the tile in your bathroom

Dix-No, it's oilcloth.

She Knew Him.

Liza had just opened the letter from her soldier-husband. It was headed: "Somewhere in France." She had that figured—"I knowed that durned the figured—"I knowed that figured—"I knowed that durned the figured—"I knowed that durned the figured—"I knowed that figured—"I knowe nigger'd git hisse'f lost ovah there."

"Willie," said his mother, "I insist that you stop shooting craps—those poor little things have as much right to live as you have."—Gargoyle.

"Help! Help!" cried an Italian la-borer near the mud flats of the river. "What's the matter there?" came a voice from the construction shanty. "Queek! Bringa da shovel! Bringa da peek! Giovanna stuck in da mud!"

"How far in?"

"Up to his knees."

"Oh, let him walk out."

"No, no! He no canna walk! He wronga end up."

VOLUME II.

All Contributions Cheerfully Received

Light in the Dark.

The Junior Light class last Friday morning rivaled the Journal Review class. Dr. Edwin S. Johonnott in order to give some practical illustra-tions ordered that the room be darkened. The shades were pulled down and the doors closed. This proved too forty-five minutes the game broke up much for some of the members of the class and they soon dozed off into sound slumber. Some of them continued to sleep even after the shades were lifted but not for long because Dr. Johonnott thoroughly wakened them by loudly proclaiming, "Only the wise men in the class will understand this point after I explain it." So Whitlock and several others went back to gloop again knowing full wall to be several of the Juniors, made "Babe" Ruth look like a piker. Everyone declared that the afternoon's sport was well worth the double absence they received for being A. W. O. L. back to sleep again knowing full well that there was no chance for them to grasp the point. In this connection it might be added that several of the students do not yet see the light.

There was almost a full attendance at the general assembly last Thursday morning. This may have been due to the fact that Dr. White threatened to call the roll at the previous

Careless Lad.

dream he leaned back too far in his chair and fell over, waking up the rest of the students as well as Robert Cash who was sitting near him. Mr. Dronberger was not awakened, how-ever, and continued to sleep peacefully on the floor.

Society Notes.

"Stutz" Lentz, Civil Engineer and Assistant Football Manager, has been confined to his home for the past two weeks due to illness brought on by exposure and overwork while taking down the goal posts on the football

Mr. Alfred J. Suttie of Clay County, a member of the Bachelor's Club of long standing, has been asked to resign from that organization. Mr. Suttie had a date last Tuesday night at the Dental-Rose basket ball game. It is thought that the date was not wholly successful, as young Suttie was home at 10:30 P. M.

Baseball Game.

There is still considerable hard feeling between the Senior Mechanicals and Senior Electricals over a ball game which was to have been played about two weeks ago. Mechan-icals were on the field at the appoint-Terre Haute, Indiana ed hour, needless to say without the permission of Prof. Wagner, but Knippy locked the doors and windows of the Electric Lab. so the ampere chas-

ers could not keep their appointment. It seemed for a while that the game would have to be forfeited but the Junior Electricals kindly consented to substitute for their superiors so the game was started with the Juniors at without the Seniors getting to bat.
"Rupe" Sewell, left-fielder for the
Senior Mechanicals, handled fifteen chances without an error. Danner, of the Juniors, made "Babe" Ruth look

General Assembly.

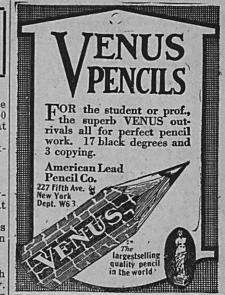

ened to call the roll at the previous meeting. However, it is believed that the chief reason for the increased at-Hal H. Dronberger, 22, caused quite a commotion in the meeting of the Rose Tech Civil Club last week. While in the middle of a pleasant drawn he leaved here the chief reason for the increased attendance was that the Civils had a lecture in the assembly hall the hour before and most of them slept right through, undisturbed by the bustle and confusion of the other students.

Echo of Rose-Dental Game.

Those Dentals sure had an eye to usiness. Look what they did to "Dutch" Krausbek!
