July, 1963

Wood Named President of Association

Howard D. Wood of Indianapolis was named president of the Rose Parents' Association of Rose Polytechnic Institute at the annual Parents' Day program May 11 attended by more than 275 parents from Indiana, Ohio, Illinois, Michigan, Pennsylvania and Kansas.

Assistant principal of the Clyde T. Fulton Junior High School, he had been serving as president to complete the unexpired term of Mr. Lester Hunt.

Mr. Wood presided at the third annual meeting of the Association and at the mid-morning convocation which preceded.

Dr. John A. Logan, Rose president, spoke briefly about the development program of the Institute which anticipates an increase in enrollment to 1,000 students in the next decade, or a doubling of the present student body.

(Continued on page 3)

COMPREHENSIVE DEVELOPMENT PLANS FOR CAMPUS TO BE PREPARED

Board of Managers of Rose Polytechnic Institute has engaged the services of the architectural and engineering firm of Perkins & Will of Chicago for preparation of plans for the comprehensive development of the Rose Polytechnic Institute campus.

Miss Juliet Peddle, well-known local architect, will work with the college in the initial phases of the project.

Dr. John A. Logan, Rose president, said the agreement between the nationally-known firm and the college has been signed and that this marks the second step in the long-range development program.

"What we are doing now," Dr. Logan emphasized, "is planning a campus for many years to come; we intend to retain the natural beauty of the site and at the same time build an educational

community that will further our ultimate goal — excellence in engineering and science education."

Mr. George A. Hutchinson, Jr., and Mr. Paul Nelson, who are in charge of the Rose project, have begun preliminary conversations with Rose administration and faculty in order to make a complete analysis of the entire institute in every detail of its operation.

In this way, the educational process at Rose, the desires and the future needs of the overall educational program in engineering and the sciences can be assessed.

They will then develop a system of priorities and schedule for new construction, remodeling and building removal, and prepare a preliminary generalized future land use and building location plan. The third phase will be the preparation of campus development plans based on this approved preliminary land use and building location plan.

The Perkins & Will partnership was founded in Chicago in 1935 by Lawrence E. Perkins and Philip Will, Jr. The partnership now leads a team of 200 experienced men and women with offices in Chicago, White Plains, N.Y., and Washington, D.C., and offers total architectural and engineering service.

College and university projects which the partnership has either completed or has under construction include the long range plan for the Yale-New Haven Medical Center, New Haven, Conn.; master plan and buildings for the new downtown campus for Chicago State Teachers College; laboratory school for high school students for the University of Chicago; engineering, library and administrative buildings for Cornell University at Ithaca, N.Y.; campus plan studies for the University of Denver at Denver, Colo.; long range plan for a medical center at

Mrs. William S. Speed of Louisville, Ky., talks with James L. Brown of Memphis, Ind., junior student at Rose, following the dedication of the William S. Speed Hall, third dormitory on the campus and named in honor of her husband, the late Dr. Speed, an alumnus of the class of 1895 at Rose. At the right is Dr. John A. Logan, inaugurated as 10th president of the college during the 85th commencement exercises which preceded the dedication.

COMMENCEMENT HIGHLIGHTS

"This inheritance from the past increases both our obligation and our responsibility to the future," Dr. John A. Logan said after receiving the certificate of his office from Dr. Richard F. Bergmann, right, chairman of the Board of Managers.

"Rose must continue to stress its unique role in education and research in science and engineering—and must perform this role superbly . . . Rose must continue to be to engineering and

The seniors prepare for the culmination of all their work and effort during the past four years as they don their caps and gowns for the Commencement exercises in the field house.

science what Haverford and Amherst are to the field of liberal arts . . . In developing a program of liberal education in science and engineering as expressed in our philosophy, we have a program fully worthy of your understanding and support . . . I am optimistic about the future and am looking forward with all of you in making our Credo a reality."

Richard B. Esker of Teutopolis, Ill., receives the much-coveted Heminway Gold Medal, the highest honor the college can bestow on a senior, for attaining the highest cumulative scholastic average during the past four years. Prof. John L. Bloxsome, right, Vice President for Development, made the presentation.

Student Financial Aid Reaches New High

Prof. Ralph M. Ross, Dean of Students, reports a new high was reached in financial assistance for students for the school year 1962-63.

Two hundred twenty-one students shared in \$141,469.31 through scholarships, loans and student on-campus work. Of this total, 133 scholarships amounting to \$63,095 were awarded, 102 loans were made totaling \$58,505 and 169 students earned \$19,869.31 through part-time jobs provided by the various departments of the school.

The total assistance for the 1962-63 year represents 27.8% of the total tuition charges for last year's students. It is hoped that through gifts of industry and business, foundations and friends of Rose, in cooperation with the school endowed and appropriated scholarship and loan program, the 1963-64 school year may show continued improvement in students' financial assistance.

Parents' Association

(Continued from page 1)

Prof. Paul B. Headdy, Director of Admissions and Placement, met with Mr. John O. Teegarden, new chairman of the recruitment committee and committee members. The committee received pocket packets containing pertinent information about Rose which would be of interest to prospective students and their parents. William R. Brown, admissions counsellor, designed and supervised the printing of the packets which may be obtained upon request from Prof. Headdy's office.

The communications committee and Mr. John Valle, chairman, met with Mrs. Gladys M. Seltzer, Director of Information Services who prepares *Rose Echoes*. Mrs. Seltzer emphasized again the importance of the parents sending to her any clippings about Rose in their local papers.

The cooperation of these two committees, only recently organized, already has been of great help to both offices.

A complete roster of the officers for the coming year is listed on page two.

ROSE BUDS

Class officers and Student Council representatives elected in May were as follows:

Senior class: President, **STEVE HOFFMAN**, Ft. Wayne, Ind.; vice president, **LINDLEY RUDDICK**, Seymour, Ind.; secretary-treasurer, **PETER CANALIA**, Chicago, Ill.; Student Council representatives: **JOHN STINEMAN**, Cincinnati, Ohio; **EDWARD K. DOWNEY**, Rosiclare, Ill.; **MICHAEL THOMAS**, Brazil, Ind.

Junior class: President, **EVAN JOHNSON**, Hutsonville, Ill.; vice president, **WILLIAM SIMS**, Mattoon, Ill.; secretary-treasurer, **JOHN DIEFENBAUGH**, Elkhart, Ind.; Council representatives: **JAMES DOOLITTLE**, Lakewood, Ohio; **ROBERT KEVORKIAN**, Wakefield, Mass.; **NORMAN SCHULD**, Cleveland, Ohio.

Sophomore class: President, **JEFFREY BRUGOS**, Hobart, Ind.; vice president, **JOHN HOWLETT**, Normal, Ill.; secretary-treasurer, **MICHAEL REDMAN**, Olney, Ill.; Council representatives: **STEVE CHITWOOD**, Columbus, Ind.; **RICHARD FOLTZ**, Indianapolis; **EDWIN JIROUSEK**, Cleveland, Ohio.

* * *

New Tau Beta Pi officers are **CURTIS JONES**, Anderson, Ind., president; **JOHN ROHR**, Hinsdale, Ill., vice president; **STEVE HOFFMAN**, Ft. Wayne, Ind., recording secretary; **JAMES WATKINS**, Nabb, Ind., corresponding secretary; **BRYCE DRAKE**, Martinsville, Ill., treasurer, and **WILLIAM TEEGUARDEN**, Indianapolis, cataloger. **JONES** won the spring pledge essay contest for his essay entitled "The Mark of a Professional Engineer."

* * *

JOHN ROHR, Hinsdale, Ill., has been presenting his tape recordings of events at Rose over WPFR-FM and is hoping to build a tape library file of the various convocation programs and other highlights of the Rose year.

* * *

Newcomers to the campus this spring were a pair of mallards who built a nest in the grass beside the sidewalk at the north entrance at Deming Hall. When the baby ducks hatched, the photographers came with their cameras for some

Parents Contribute to Piano Fund

The spontaneous response by Rose parents to the recent letter from Mr. Ervin J. Hahn and Mr. David Y. Rice, at the time chairman and co-chairman, respectively, of the development committee of the Association, was called "most gratifying" by Prof. John L. Bloxsome, Vice President for Development, and Dean Ralph M. Ross.

The committee and administrative officers of the college had been approached by a number of parents who wanted to contribute to a fund for purchase of a grand piano. As a result, only one letter was sent and the fund, as of the end of June, stands at \$780.

Contributions are still being received, any gifts received before Aug. 31, 1963, will be credited to the 1962-63 fiscal report.

* * *

fine nature shots. The students at Deming enjoyed their new family for several weeks. The ducks were brought here from a science project in Indianapolis by Prof. and Mrs. Ross.

Outstanding players on the Rose athletic teams were feted at a dinner in May when Dr. Greg Bell, a graduate of Garfield High School in Terre Haute and Indiana University and member of the 1956 U.S. Olympic Team, spoke to the group of R-Men, as did Dr. Logan.

PETE PETROWSKY, Terre Haute, was named for outstanding play on the football team.

ED DOWNEY, Rosiclare, Ill., was cited as outstanding basketball player and a leading scorer this season.

DENNIS LAWSON, Princeton, Ind., took top honors in baseball.

BOB SANDBERG, Terre Haute, took track honors and made a new school record in the half-mile run.

The students' names will be inscribed on the recently established Gary Anderson Memorial Trophy in the Field House. The trophy honors Anderson, a graduate of 1960 who was killed in an automobile accident that summer. An excellent student and member of Tau Beta Pi, he played on the undefeated '58 football team.

National Merit Winners in Freshman Class

Two National Merit Scholarship winners will be among the members of the 1963 Freshman class at Rose, with 17 states and three foreign countries being represented in the group.

The merit scholarship holders are Raymond N. Virostko of Rosedale, Ind., and Leonard A. Duszynski, Jr., of Hammond, Ind. Foreign students will come from Hongkong, Thailand, and Milan, Italy, respectively. The student from Milan is an American citizen.

Some 30 to 35 members of the class will attend a summer institute at Rose Aug. 5 to 30. The institute, under the direction of Prof. Ralph M. Ross, Dean of Students, offers transition courses bridging any gaps that may exist between the student's high school preparation and his freshman college courses. Prof. Alfred R. Schmidt will teach mathematics; Prof. Gordon K. Haist, English, and Mr. Larry Logue, physics. Classes will be scheduled on an 80-minute divided period and instruction will be completed in the morning hours, with study and recreation occupying the afternoon and evening periods.

All freshmen will report on Sept. 8 for a four-day orientation program which includes sectioning, testing, and orientation lectures acquainting the students with their campus and their opportunities and responsibilities as Rose men.

The college faculty and the Rose Parents' Association are planning a two-day orientation program for freshman parents on Sept. 8 and 9. Further details will be sent later in the summer by Dean Ross.

New Faculty, Staff Members Named

The following new faculty and staff appointments have been announced recently by Dr. John A. Logan:

Harry C. Gilbert, as assistant to Prof. Carson W. Bennett, director of the library. A graduate of Murray State College, Murray, Ky., he expects to receive both the M.A. degree in history from Miami University and the M.A. degree in librarianship from the University of Denver this summer.

Assistant Prof. John Ying, to the humanities and social studies department. A graduate of Taiwan University, he received the Master of Arts degree from the University of Minnesota and expected to receive the Doctor of Philosophy degree from this university in June.

Merritt M. Goff, who received the Bachelor of Science degree from Purdue University and the Master's degree from North Carolina State College, as assistant professor in the mathematics department.

Dr. Elwin E. Harris, a graduate of Hamline University and the University of Minnesota where he received the Doctor of Philosophy degree, to the chemistry department faculty.

Duncan Murdoch, a graduate of Hanover College, Hanover, Ind., and admissions counsellor there for two years, as an admissions counsellor. Mr. Murdoch expects to begin work on a master's degree this summer at Indiana University.

John A. Heetderks, graduate of Wheaton College, Wheaton, Ill., and Indiana University where he received the Master of Science degree in Education, as guidance counsellor. Faculty advisors, dormi-

Reports on Senior Placement

Of the 75 members of the 1963 senior class, 61 took positions with 37 different companies, 13 went to graduate school and one to the service, according to a report on the senior placement picture by Prof. Paul B. Headdy, Director of Admissions and Placement.

Those attending graduate school, either part-time or full time, will have fellowships or some form of aid from the companies employing them.

The average monthly salary over-all, and not including fringe benefits, was \$585.50 for the seniors. The average salary for chemical engineers was \$604.50; civil engineering, \$563.37; electrical engineering, \$584.30; mechanical engineering, \$585.75; mathematics, \$575; and physics, \$584.

Prof. Headdy noted that ten seniors took positions with General Electric Company; six with E.I. DuPont de Nemours, and five with Pratt & Whitney.

tory directors and student counsellors will work in cooperation with Mr. Heetderks in carrying out the total counselling program.

John Mutchner, graduate of Earlham College and Indiana University, as instructor in the athletics and recreation department, who will be head basketball and baseball coach and assist with football.

Prof. James H. Carr, for 16 years varsity basketball and baseball coach, was given a new assignment at his own request and will be director of intramural sports and coach for the varsity cross-country, tennis and golf teams.

Give First Honorary Master's Degree

In recognition of the contributions of a former Rose Polytechnic Institute student to America's space effort, the college conferred on him the first honorary Master of Engineering degree in the history of the Institute at a special convocation Oct. 17.

At this time, Byron G. MacNabb, a native of Gary, Ind., now director of test engineering for General Dynamics/Astronautics, was the recipient of this degree, established by the board of managers of Rose.

MacNabb, born Aug. 14, 1910, was one of the members of General Dynamics/Astronautics team at Cape Canaveral who were responsible for the actual launching of Lt. Col. John Glenn, Jr., when he made his historic flight into space on Feb. 20, 1962.

(Continued on page 2)

BASIC TEN-YEAR PLAN ACCEPTED AT OCTOBER BOARD MEETING

At what may well be termed one of the historic meetings of the Board of Managers of Rose Polytechnic Institute on Oct. 18, the master plan for the ten-year development of the Rose campus was accepted in principle, according to the announcement by the college administration.

This plan, prepared by Perkins & Will, Chicago architectural and engineering firm, includes an educational unit which Dr. John A. Logan, Rose president, envisions as outstanding and one of the few of its kind in the country.

The focal point of the plan is the Learning Center, which would adjoin the present administration and classroom building. This Center represents the total Rose educational philosophy: efficiency of operation while keeping the original Rose concept of individual instruction and personal contact between student and teacher, from the freshman year through the graduate level.

The Center would give opportunity for use of the latest teaching devices—electronic aids, audio-visual material, and closed circuit television. The library would be included in this area, as well as space for individual study. At the same time the cultural development of science and engineering students would be provided in a setting for imaginative growth for the arts. These arts will be integrated in the architecture and use of spaces to give wholeness to the basic inclusive concept of knowledge for service to mankind. In line with this philosophy, the proposed chapel rising from the lake site offers a visual symbol of this concept.

The immediate needs are for more dormitory space and greater dining facilities, Dr. Logan said. Deming Hall will be altered and extended to provide a college union center which would offer central dining facilities.

He emphasized that the master plan is a directional, dynamic plan which allows for change of focus if required.

This is the essence of any master plan, that it be not defined rigidly. At the same time, the immediate steps in the plan are related to the long-range objective in its entirety.

Athletic and recreational facilities will be consolidated and expanded to accommodate more intervarsity tournaments; with greater convenience and accessibility of such facilities, more events of this nature can be brought to the campus.

To accomplish these aims, the maximum use has been made of the natural terrain and beauty of the campus and, Dr. Logan emphasized, road relocation will be necessary, as well as changing

(Continued on page 2)

Byron G. MacNabb, former Rose student, receives the first honorary Master of Engineering degree granted by the Institute from Dr. John A. Logan, left, Rose president and Dr. Richard F. Bergmann, chairman of the Rose Board of Managers.

Freshman Parents Welcomed to Rose

The program for the third annual freshman parents' orientation this September, planned by the Rose Parents' Association in cooperation with college faculty and administration, was most successful in every way.

Dean Ralph M. Ross said that some 250 parents attended, the largest attendance to date, and he was particularly grateful to the Association Officers and the committee chairmen who gave their time for the two-day program. Except for Mr. Royce A. Hill of Coral Gables, Fla., whose business commitments prevented his coming, all officers and chairmen were present.

A high point of the program was the presentation to the Institute of the new concert grand piano which was initiated by Mrs. Richard H. F. Pao, wife of Dr. Pao, head of the civil engineering department. Mrs. Pao gave a superb recital of music by Bach, Beethoven, and Brahms, as a part of the evening program.

The Parents' Fund for purchase of the piano has reached \$895.00. The Institute received a special educational discount on the original purchase price, and the cost of the piano to Rose is \$4,400, arranged through a customary three-year contract. Contributions will still be welcomed. Dr. John A. Logan, Rose president, and other administration officers, expressed their great appreciation to the Association for this interest and financial support.

Dean Ross said the college will be glad to have any suggestions from the parents as to improvements and new ideas for the next freshman parents' orientation program in 1964.

In a general summary of the school year to date, Dean Ross called the Summer Institute this Aug. "very successful" and said it is anticipated that such a program will be given this next summer. Parents of students who attended have expressed their satisfaction with the results of the four weeks of study and preparation, he said.

The present freshman class, by and large, have assumed their responsibilities as Rose men, Dean Ross continued, although it is too early in the term to quote official grade scores.

Faculty advisors have indicated that our students generally have faced the beginning of a new college year with spirit and enthusiasm for their work, Dean Ross pointed out.

Applications Noted

Applications for the 1964 Freshman class are coming in earlier and more rapidly than in previous years, Professor Paul B. Headdy, Director of Admissions and Placement, said.

He suggested that parents who need additional referral cards for high school students interested in Rose send for them and return this information to him as quickly as possible.

In this way, Professor Headdy pointed out, members of the admissions staff will have these names and will be able to schedule appointments with these students when members of the staff visit a particular area.

Basic Ten-Year Plan

(Continued from page 1)

the course of the north portion of Lost Creek.

The progress of this program will be published in *Rose Echoes* as the details are worked out.

Honorary Master's

(Continued from page 1)

MacNabb, who also attended New York Military Academy at Cornwall, N.Y., and Illinois Institute of Technology in Chicago, was advanced to his present post this July, having have been the company's director of operations at the Atlantic Missile Range for nearly eight years.

In his new post, MacNabb is responsible for all space vehicle ground and flight testing. He will integrate the company's activities at the Atlantic Missile Range, the Pacific Missile Range, and at the company's rocket test facilities at Point Loma and Sycamore Canyon in San Diego, Calif. He will also be in charge of engineering testing at General Dynamics/Astronautics' San Diego facilities.

From his headquarters at Cape Canaveral, MacNabb directed the company's activities in 107 Atlas launches for the Air Force and the National Aeronautics and Space Administration. These included the Project Score talking satellite which broadcast President Eisenhower's 1958 Christmas message to the world, the orbital launches of Project Mercury astronauts, the three 9,000 mile ICBM launches, the Ranger IV to the moon, and the Mariner II launch to Venus.

The varsity rifle team has won one and lost one postal match played thus far this season. The team travels to the Mississippi Valley Rifle Championship Matches in St. Louis, Mo., Nov. 1 through Nov. 3.

Wendell E. Carroll

New Board Member

Wendell E. Carroll, native Terre Hautean and president and founder of Regent Controls, Inc., electronics firm in Stamford, Conn., was elected to the board of managers of Rose Polytechnic Institute at the Fall meeting of the board on Oct. 18.

A Rose alumnus of 1938, he fills the vacancy created on the board by the death April 2 of Fred Kingery of Louisville, Ky.

Carroll has been active in the alumni affairs of the college, and as an undergraduate participated in a variety of extra-curricular affairs. He served in the U.S. Navy for four years during World War II and was squadron commander of two PT boat squadrons. He and his wife and five children make their home in Wilton, Conn., where he is active in civic, charitable, and church activities.

HONOR FRATERNITIES NAME PLEDGES, PRIZES FOR SCHOLARSHIPS GIVEN

Tapping of Tau Beta Pi and Blue Key honor fraternity pledges and awarding of other prizes took place at the second honors day convocation last month.

The first honors convocation was devoted to academic affairs and at this time Dr. Logan spoke, and class honor students were recognized. Space does not permit reprinting of these names, but it is hoped that the releases sent to hometown papers about honor students were used.

Tau Beta Pi pledges, recognized for outstanding character and scholarship, are David E. Morgan, Terre Haute; Morris A. Bechtel, Winslow, Ind.; Charles T. Terry, Kewanee, Ill.; George T. Holmes, III, Bridgeville, Penna., and Richard T. King, Birmingham, Mich.

Blue Key pledges, cited particularly for service to the school in extra-curricular activities, are William Allard, Pickford, Mich.; Andrew O. Breece, Olivette, Mo.; George Wagner, Kokomo, Ind.; John F. Stineman, Cincinnati, Ohio; Harry W. Templin, Danville, Ind.; Wilford P. Stratten, Dyer, Ind.; Larry G. Morgan, Findlay, Ohio; James W. Schulz, Indianapolis; Richard T. King, Birmingham, Mich.; Paul Goss, Indianapolis, and Gerald Zinnegrabe, Evergreen Park, Ill.

The Tau Beta Pi award given the sophomore who made the greatest improvement in his cumulative index during the second semester of his freshman year was given to David Woodward of Indianapolis who raised his scholastic index to a 3.05 out of a possible four points.

Departmental awards for excellence in scholarship were as follows: to Charles T. Terry, Civil Engineering Department prize for highest average in that department during his sophomore and junior year; to Richard T. King, "Handbook of Physics and Chemistry", courtesy of the Chemical Rubber Co., for the best grade in sophomore physics; to Robert J. Keeler, Indianapolis, best grade in the freshman advanced course in mathematics, a copy of Hardy's "Pure Mathematics"; for highest grades in freshman chemistry class for last year, Jeffrey Brugos, Hobart, Ind.; Ronald Buckner, Marshall, Ill.; Jerry M. Davis, Owaneco, Ill.; Richard W. Johansen, East Gary, Ind.; Wilfred S. Otaguro, Honolulu, Hawaii, and Larry Sachs, Indianapolis.

Also, Richard T. King, best grade in sophomore chemistry; and Curt Jones, Anderson, Ind., best grades in the physical chemistry junior course, both awards through courtesy of the S. A. Johnson Foundation.

Also, chemistry achievement handbook to Kenneth Rich, Wood River, Ill., for work in the advanced course, and Ameri-

can Chemistry Society membership award from the Wabash Valley section to Alfred Ratz of Indianapolis.

Also, mathematics award to freshmen in the regular course, to Dwight S. Garbe, Mattoon, Ill., and Jerry R. Thomas, Terre Haute; they will each receive the "Handbook of Mathematics."

As a token of their appreciation for the "excellent education" at Rose and the opportunities offered their son, Jerry, June '63, graduate, through the Placement Service, Mr. and Mrs. James A. Nickerson of Cincinnati, Ohio, have forwarded a contribution to the Rose Parents' Association and one to the civil engineering department for a student award. A cash award was presented Jack Cox, Terre Haute senior, for academic achievement and extra-curricular activities, and to Allen Stanley, Jr., of Rockville, for outstanding scholarship in his sophomore year.

ROSE BUDS

BOB VALLE, Terre Haute, is chairman for a newly-sponsored Blue Key project called Rose Reels, a series of movies to be shown as fine examples of cinema art for Rose students, faculty, staff, and guests, in the auditorium on the campus. First selection is "The Captain's Paradise", an English film on Oct. 30. "Arsenic and Old Lace" will be shown on Nov. 13 and "I'm All Right, Jack," another British film, on Nov. 24. Admission is \$1.50 for a series ticket of six films, or 40 cents per single admission, payable at the door. The movies begin at 7:15 o'clock in the evening.

* * *

NORMAN SCHULD, Cleveland, Ohio, is president of the Student Council. Other officers are JEFFREY F. BRUGOS, Hobart, Ind., vice president; STEPHEN P. CHITWOOD, Columbus, Ind., recording-secretary, and R. TOBEY KING, Birmingham, Mich., financial secretary. BRUGOS was also elected vice president of Sigma Nu fraternity to fill the unexpired term of the former incumbent.

* * *

STEPHEN J. HOFFMAN, Ft. Wayne, Ind., has been named a member of the board of directors of Robins Awards of America. These awards annually honor eight prominent men and women for their inspiration to the youth of the nation. Hoffman is one of a 15-member board which will preside over the program involving balloting on more than 200 college campuses.

Wilfred S. Otaguro of Honolulu receives the coveted Heminway Bronze Medal for his attaining the highest average, a straight A, during his freshman year, from Prof. Ralph M. Ross, Dean of Students.

James Kuzmanovich, Osceola, Ind., receives the Paul N. Bogart Prize for attaining the highest average for his freshman and sophomore years from Dean Ross.

Alumni Institute Homecoming Event

Homecoming this year was marked by the first Alumni Institute, a series of lectures offered as a service to returning alumni to present recent developments in the expanding fields of science and engineering. All reports indicate that it was most successful.

Two authorities in their respective disciplines each presented four lectures. Charles J. Bashe, Rose '47, for the past eight months acting vice president for development in International Business Machine Corporation's general products division, gave a program on computers and data processing, and Prof. Frederic C. Barnett of the Rose faculty on statistics.

Richard A. Hahn, assistant to the vice president for development, coordinated the arrangements and reports that while 86 persons registered, others attending who did not register brought the record close to 100 persons.

Other activities attended by more than 300 alumni included the reunion dinners, traditional banquet and dance and the annual Alumni Association meeting. Although the football team lost their game to Elmhurst, Illinois, the cross-country team won over the visiting Hanover harriers. The freshmen built a fine structure for the bonfire, but the lack of rain made conditions so hazardous that it was not lighted.

The Rose Faculty Wives Club sold their supply of delightful stuffed Rosie elephants which they have been making during the past months. Proceeds will go to the Rose Tech Art Project.

Swope Gallery Lends Paintings

As a feature of Homecoming this year at Rose Polytechnic Institute, the committee for the Rose Tech Art Project received a loan of more than 30 paintings from the permanent collection of the Sheldon Swope Art Gallery in Terre Haute.

Frank W. Bilodeau, gallery director, said the loan exhibit comprised paintings which cannot be exhibited at the gallery at this time for want of adequate exhibition space.

The group which has been lent for the exhibit at Rose includes a number of fine works by many well-known local and area artists, Bilodeau said.

Paintings by the early Brown County artists, J. Ottis Adams and T. C. Steele, are included, as well as a number of canvasses by the late Terre Haute painters, Palmer Holmes and William T. Turman. Mr. Turman, a former president of the board of managers of the gallery, was for many years head of the art department at Indiana State College.

In making the selection with members of the Rose Art Project committee, the attempt was made, Bilodeau said, to achieve in this exhibit a representative selection of paintings—landscapes, seascapes, still life subjects, flower pieces, portraits and Terre Haute scenes.

The works range in date from the late 19th century to the present day, and the following pictures are included in the show: **After the Storm** by T. C. Steele; **Meditation** by Walter Ufer; **Waterfront Nocturne** by David Blower; **Paul Ellerbe** by Wilford Conrow; **Morning** by C. Curry Bohm, and **Quiet Mood** by A. J. Shelton.

Engineers Score Football Victories

After two defeats, the Rose Engineers football team won their game on Oct. 5 with Eureka College at Eureka, Ill., with a score of 25 to 7, and with Concordia College, River Forest, Ill., 7 to 6.

Although the team lost 26 to 0 to Wilmington College, Wilmington, Ohio, and 13 to 7 to Illinois College, Jacksonville, Ill., Rocky Herakovich, coach and director of athletics and recreation, is encouraged by the over-all performance of his team this Fall, particularly in comparison with scores of last year.

For the first time in the history of Rose, a cross-country team has been organized and under the direction of James Carr of the athletic staff, and has participated in two meets, as of Oct. 9. The team placed second in a triangular meet with Milliken University and Greenville college. One member of the Rose team, John Lynn, Bicknell, Ind., placed first in the meet. He ran four miles in 23 minutes, 11 seconds.

New this year in the department is a training room and added to the athletic staff is the trainer, Til Panaranto, a former minor league baseball player in the Yankee chain for five years. The storage room has been renovated and repainted and is now the training room.

Continuing interest is being shown in intramural sports, according to Carr, which include archery, tennis, golf, weight lifting, horse shoes, touch football and volley ball.

Under Coach John Mutchner who is in charge of basketball, the practice season will begin the latter part of this month. He is looking forward to his first year at Rose.
