SOCCER

Any of you happened to be watching the TV last Sunday afternoon may have witnessed the very exciting soccer game between the Atlanta Chiefs and the Baltimore Bays. This game was very significant in that it opened the first season of soccer to be played on a national level in the United States. It seemed very strange to be watching such an exciting event on television in that one just does not view a soccer game very often on an American TV. It appears that soccer is rapidly becoming a part of the American scene and will soon be as much a hotdog and a baseball game. Soccer seems to move with the swiftness of basketball and the ruggedness of football.

A very exciting game; I feel that we can expect to see and hear much more about soccer on a national level in the very near future.

KEN BURKHART

ROS TRACK

Rose track came out on the low end of a triangular meet with Wabash and Greenville here last Saturday afternoon. Wabash took top honors along with eleven first places, Greenville took four firsts while Tom Johnson scored the only Rose first spots, those being in the 100 yd. Dash, (9.8); Allen (W); Stech (W) 440 yd. Dash, (51.0); Bambrey (W); Montgomery (G); Ellis (G); McKinley (G). Rose Track.

Best way to carve a tombstone is to burn in a marathon doubles match, 7-5, 6-3. The match seemed to last endless hours. As Blackburn's coach walked the court he was asked how many matches he has seen in his entire life.

Tomorrow, Rose faces its toughest opponent of the season in Principia, an annual powerhouse. The match will be played on Rose's courts. Since they have had no other matches this week, theقات of Rose and Principia should be rested enough to give Principia a real battle.

It might be added at this time that Dr. Baker, Phil Holy, who has been elected captain, Dennis, a junior, is by far the most experienced man on the team. He presently holds down the number one position.

The Blackburn results:

Rose 4 Blackburn 3

Doubles:

D. Russell (R) def. D. Porter (R) 6-3, 6-0.
D. Cahill (R) def. R. Hardy (R) 9-7, 6-2.
D. Chin (R) def. B. Croft (W) 6-2.
D. Larance (R) def. B. John (R) 6-4.
R. Keasler (R) def. C. Hine (R) 6-4.

The United States Senate has approved a federal income tax credit of up to $325 for tuition, books, and fees paid by students in colleges, universities, and other post-high school institutions. The tax credit plan was offered Friday, April 24, 1967, by Senator Abraham Ribicoff, D-Conn., as an amendment to a House-passed bill, which would restore the investment tax credit to businesses.

Under the amendment offered by Ribicoff and accepted by the Senate, the tuition and fee credit is 75 percent of the first $200 paid, 25 percent of the next $300 and 10 percent of the next $1,000. The credit is subtracted from the income tax owed the government.

The credit is available to any parent who pays the tuition. Thus, it would be available to working students and their relatives. Parents with more than one child in college or graduate school may get a separate credit for each.

"The credit is part of the plan Ribicoff said, a formula reduces the amount of the credit available to high income taxpayers. Over two-thirds of the benefits of this amendment would go to families earning less than $10,000 a year," Ribicoff said. A formula reduces the amount of the credit available to high-income taxpayers.

Capitol observers said an important part in the final decision on the tax credit plan will be played by Congressman Wilbur D. Mills, D-Ark., chairman of the House Ways and Means Committee.

Under the amendment, the tax credit plan will be played by Congressmen Wilbur D. Mills, D-Ark., chairman of the House Ways and Means Committee.

WILD NEW SOUND!

Ma Bell And The Computers

A foray into the world of computer music has come with a great new sound...singing computers!

It began several years ago by singing "Daisy, Daisy," hardly a folk-rock smash, but lately its voice has been improving. And even though you may not be able to follow the song's lyrics, it's big in the scientific field.

Simply put, our scientists study speech and express the way we speak words by means of numbers. And when you enter a computer, the numbers tell the computer what to do. In the process, the musician learns to talk to the computer.

And we may find you a computer that sings popular songs in the style of your favorite. And if you can't hear the computer, you can get a tape of music you could play on your tape recorder.

Giving voice to a computer may mean a lot in providing better communications services. The more we know about voices and tunes of all sorts, the better we can make our telephone and other communications services.

And you may find yourself singing computer music of your own. And it could be that your favorite tune will be played exactly as you want it.
Anytime the name Governor George Wallace is mentioned among a group of people, it causes various emotions. In the South, he is a rallying point for the segregationists. The North regards him as an anarchist and a threat to the existing governmental situation and the principles behind its founding. This is the man whom we have invited to present the political viewpoints impact of the "Is Our Education Meaningful?"

On our little conservative engineers campus, Governor Wallace's visit promises to be one of the most controversial events to happen in many years. It is already causing a small war. The faculty is concerned, and a few have voiced their distaste; the alumni have written about having such a "radical" person on their pretty campus; and the student body has the right to express its feelings. Hopefully, this is all part of the nation's continuing education.

However, no one seems to realize that it is the student body that invited Governor Wallace. Wallace is the right of the student body to invite anyone, at any time, to talk. It is admirable that the school is letting us go ahead with this; for so often, we do not have the opportunity of holding its breath and wondering that Wallace does not say anything that will bring Polk Poly into national news in an unfavorable light.

Perhaps the most significant aspect of Wallace's political life is that he is constantly challenging the United States government and its right to pass laws that conflict with the laws of the individual states. He is willing to shit the "States' Rights" divide of the scheduled measures. In the eyes of most, Wallace is an all-powerful Federal government and its programs that conflict with the laws of the state. This position is recognized. Washington legislatively a program to take care of that problem-giving little regard to the states' rights and to solve the problem, Wallace has stood up and told them this almighty government that it has no right to tell him and the people of his state how they must live. Moreover, the people of his state approve of his methods and give him tremendous support. It is evident in his successful elections.

However, most emphatically, his position in this conflict is not valid as a whole. As Wallace stands, the people have the right to vote for him in every election. So does the nation. The administrations and sometimes state legislatures have come down on both the student body and the student. Many students are philosophy majors and are members of the American Association of Physical Sciences (AAPT).

The Paintings are Beautiful, Eclectic, and Informative

The most significant aspect of this exhibition is that the paintings are all by various subjects including landscapes, portraits, and architecture. The pictures have deep color and extreme detail. They are so well done that they may only add cultural refinement to the campus, but visitors will come here merely to see the watercolor collection. The paintings in Rose collection are cataloged, and guide books containing the artist's name and background of each picture are available.

Nineteenth Century British watercolors and colorists are the finest of the arts. The paintings are beautiful, colorful, and informative. The portrait of each picture is used to give the student a chance to understand what education means that because of their economic status and skin color, these people are not fit to go to school with "normal" white people. Thus, he perpetuates the color bar in America.

ZONE CONFERENCE

The Rose chapter of Sigma Pi Sigma national physics honorary society sponsored the annual zone conference, the organization Friday evening, April 21. The registration was held in Union Building on the campus.

The conference was chaired by Dr. J. D. Mathewson, the national council representative, and was attended by over 300 students from various colleges and universities throughout the United States. The main purpose of the conference was to promote the exchange of ideas and to stimulate interest in physics. The presentations covered a wide range of topics, from theoretical physics to applied mathematics.

THEORY CHALLENGED

(Continued from Page One)

The Rose chapter was inaugurated by the national executive secretary of Sigma Pi Sigma, Dr. D. D. Mathewson, on the campus. He introduced the topic of "Is Our Education Meaningful?" for the day. The presentation was followed by a panel discussion on the topic.

The panelists included representatives from various universities and research institutions. The discussion was led by Dr. D. D. Mathewson, who questioned the effectiveness of the current education system.

Some students here have voiced their concern about the quality of education. One student, who is majoring in physics, said that the current education system is not effective. He believes that the system is biased and that the students are not being given a proper education.

A new program, "The Impact Program," will be implemented to address these concerns. The program will focus on improving the quality of education by providing more resources and support to students.

In conclusion, it is evident that the education system needs improvement. The Impact Program is a step in the right direction, and we should all support its implementation to ensure that our education system is effective and meaningful.
Fraternity News

THETA XI

Dateline—Terre Haute: One of the most daring and infamous raids yet carried out by the notorious Taxi gang was performed in and around our fair city community on Friday, the fourteenth of April. Without hesitation and showing not signs of fear, members of this deplorable group abducted innocent, young girls from the very halls of residence at Indiana State University, St. Mary of the Woods College, and St. Anthony’s School of Nursing. These kidnappings were the work of a very well organized and intricate piece of the syndicate that controls so much of the underworld.

At Indiana State University four armed men, two with machine guns, first hit at Mills Hall. These lovely ladies were taken at gun point. The fearlessness of our women was not satisfied with only two; next they struck at Burrow Hall. Again our lovely ladies were taken at gun point. The fearlessness of our women was not satisfied with only two; next they struck at Burrow Hall. Again our lovely ladies were taken at gun point.

In open view of everyone and the local authorities there were signs of fear, members of this organization fearlessly performed this heinous act. The gang worked smoothly and without flaw. From descriptions given to local police it is believed that the gangster group was responsible for the kidnapping of a girl on the north side of our city.

As a show of strength the Taxi gang also struck at St. Anthony’s Nursing School. Here again as at the others, a group of four thugs openly demanded that some of the students be turned over to them. Disappointment on the faces of the gangsters was seen when only three hostages were given over. The evil group promised to make the school pay for only having three. The fate of St. Anthony’s School is in the hands of the powerful syndicate.

Our entire city is at the mercy of this lawless organization. These young ladies were carried off into the night and to the secret hideout of this gang. Oh, the happening that must have occurred at the hallowed dwelling of these dregs of society. Despite all efforts to stop thisslave-like organization and to destroy it’s very existence, our authorities have reported two more raids with greed in their hearts, they forced young girls from the very halls of residence - these seven abductions were performed in and around our fair city. The kidnapping was the work of a very well organized and intricate piece of the syndicate that controls so much of the underworld.

State Day for the Lambda Chi’s was held just recently at Indianapolis and proved to be just an exciting the past. A basketball championship tournament was played in which the Lambda Chi chapter was defeated by the Evansville chapter and later in the evening a dance was held at the Indiana University Medical Center.

Just the past weekend the pledges of LX held the annual Pledge Dance at the Naval Reserve Armory. There was a well-organized and intricate piece of the syndicate that controls so much of the underworld.

Lambda Chi also participated in the recent cancer drive to collect contributions for the fight against cancer.

ROSE TRACK

Franklin College walked off with the honors last Saturday afternoon, but Rose only scored the three points behind. Approximately 500 Marian College’s relatively strong team tallied only 7 points. Frank Nelson took 12 of the 17 points including 2 points for a triple jump, 1 point for a long jump. Although Franklin’s Jerri took the 100, but Franklin’s Janes clipped him out by a step in the 220. Tom Quay also won the long jump. Tom Quay took his specialty, the discus, while Don Brown won the pole vault and Alex Bones the high jump.

Franklin’s Hooper was high point man of the afternoon with first in the high hurdles, the intermediate hurdles, the triple jump, and second in the high hurdles. Although Franklin did not hold the lead in the running events, Rose topped the field events by 9 points.

Tomorrow, Coach Martin’s Engineer squad will travel to Elsin, Illinois, to participate in the Princeton Invitational.

Results of the April 22 meet:

440 yd. Relay, (46.1); Franklin, Rose, Marian.

Mile Run, (4:47.2); Smith (F); Lyon (R), Falts (R); Mealy (M). 120 yd. High Hurdles, (15.0); Hoop (F); Sibrava (R); Bakker (R).

440 yd. Dash, (52.4); Holmes (F); Lindsay (F); Calp (R); Goodwin (R), 100 yd. Dash, (10.2); Sibrava (R); Gerber (F); Harrison (R); Kennes (F).

880 yd. Run, (2:05.0); Smith (F); Howell (F); Collins (R); Lyon (R). 440 yd. Intermediate Hurdles, (62.3); Hooper (F); Shew (F); Jenkins (R); Atkinson (F).

220 yd. Dash, (20.1); Davis (F); Stewart (B); Gerber (F); Sibrava (R). 2 Mile Run, (11:36.2); Smith (F); Rolings (R); Vachhinch (R); Lyon (R). Mile Relay, (5:35.4); Franklin; Rose; Marian.

Shot Put, (4314’’); Woodrick (F); Johnson (R); Holzer (M); Cathcart (R); Foltz (R); M., (F); Weber (R); Sibrava (R).

Pole Vault, (11’’); Daugherty (R); Bertram (F); and Olson (R), tie.

220 yd. High Jump, (5’’); Gerber (F); Hooper (F); Shew (F); Sibrava (R); Miller (F).

120 yd. High Hurdles, (18’’); Bodden (F); Parmin (F); Johnson (R); Holzer (M); Smith (F).

Long Jump, (18’’); Stewart (R); Sibrava (F); Patrick (R); Smith (M). Diurnal, (1634’’); Johnson (R); Woodrick (F); Dorries (R); Bertram (F).

Triple Jump, (408’’); Hooper (F); Gerber (F); Stewart (R).

Team Scores:

Franklin 87%
Rose 84%
Marian 59%

PHYSICALLY FIT NOW...
SURE OF INJURABILITY TO ALL!

New York Life’s Policy Purchase Option guarantees the policy owner and eligible beneficiaries their medical financial security later on. No medical examination is required.

FRATERNITY NEWS...

(Continued from Page Six)

Donation envelopes were distributed by the brothers to merchants and businessmen in the Terre Haute area.

In line for a new chapter is the Psi Chi chapter in having quite well with their major league softball team. As of last weekend the major league team was undefeated in its intramural and interfraternity competition.

FREUTENGER APPROVES...

(Continued from Page Two)

Committee, So far new councilors have taken to public stand on the measure which long has been opposed by the national administration.

In presenting the tuition tax credit amendment, Senator Ribicoff said there is an urgent need for tax relief for persons faced with the increased costs of higher education. "In the long run," he said, "any amendment would serve all America. For our strength lies not in our ability to use these wisely and well, but in our ability to use them wisely and well."
SPORTS

All three of these Rose sports teams will be in action tomorrow. The baseball team was a doubleheader against Hanover at Nehf field and the tennis team has a match against Illinois College on the local courts. The track team will be at Elsah, Illinois, for the Principia Invitational Meet. Why not bring your parents to either the baseball game or the tennis match, and cheer the Engineers to victory.

TENNIS

By John Yarish

It's been a busy week for the Rose tennis team. On Tuesday the netters, who were out to add to their two game winning streak, traveled to Marian, and on Wednesday they were visited by Wabash.

Earlier in the season Rose defeated Marian, 6-1, losing only one singles match and Wabash outplayed our squad to a 7-0 shutout.

Last Saturday's match with Principia was cancelled and Tuesday's action was the first seen after a ten day layoff.

For Parent's Day this Saturday, Rose hosts Illinois College in a contest starting at 1:00 p.m. Coach Leo Kelly expects the squad to be in fine shape for the Blueboys and regards them to be about as powerful as Blackburn, whom Rose edged, 4-3.

"Even though we won, we played very poor tennis against Blackburn and I'm sure we'll come back to best Illinois College."

Bruce Cahill and Denny Porter are now tied for the number one position as Cahill slipped past Porter in the intraquad competition this week. Cahill, a freshman, and Porter, a junior and also team captain, make up the leading doubles team for Rose losing only one match to Wabash. They are also improving rapidly and represent Rose's best doubles team in six years.

Next Tuesday Rose travels to Greenville College and then heads for the Prairie College Conference tournament on May 13.

Note: Purdue now has unlimited hours for upperclass women. Indiana University organization recently voted unlimited hours for all women under 21. Could ISU be following the same path?

The new chemical engineering labs are progressing. Dr. Hite, Dr. Bowden, and Professor Blake have moved into their new offices in the Chemical E. Lab.
