MAY 5, 1967

GREEK DAY

Tomorrow, the inter-fraternity council is sponsoring a full slate of activities for the members of the five fraternities at Rose. Greek Day will start at 11:00 a.m. with a tricycle roll in the fieldhouse. Each fraternity active chapter and each pledge class will enter a ten man team. Each man will ride a half lap on the indoor track. The active and pledge races will be separate, and the winner of each will receive an award.

Next will be a water balloon tossing contest on the north intramural field. Each fraternity will enter four men. All the entrants will stand inside a circular area and the dates of those present will throw the water balloons. The last person hit wins the contest.

At 12:00 a pie eating relay will be held on the football field. Each fraternity team will consist of three men. The first man must finish his pie before the second man can start, etc. The first team to finish wins.

The inter-fraternity council will serve soft drinks at the observatory at 12:30. The council urges all couples to bring a picnic lunch, but the student center will be open for those who don't.

An egg tossing contest will be held at the observatory at 1:30. Each Greek will start facing his date and a raw egg will be tossed between them. After each successful catch, the man will take a step backward.

The biggest event of the games - the canoe race will be held at 2:15 on the lake. Each fraternity will enter 8 actives and 8 pledges. Five teams in each division will be chosen randomly from the entrants. Each team will be divided into four man groups. No two men in any four man group may be fraternity brothers. The first group of each team will complete a lap around the lake course, and then the second group will take over and complete a second lap. The top two teams of the active and pledge heats will meet for the championship.

Ex-Governor of Alabama, George C. Wallace speaking at the Impact Program last Saturday.

Photo by Raque

Impact and Parents' Day

After many weeks of planning, the Impact program and Parents Day last weekend were declared a great success. Phase One of Impact started at 1:30 last Friday when Howard J. Samuels, Vice President of Mobil Oil, gave the keynote address. According to Mr. Samuels, "Education is one of the most important topics in the free world." Other ideas presented by Mr. Samuels in his speech include "Our failure to advance our gross national product as much as possible is due more to a lack of mental capital than to a lack of monetary capital. Education is the best investment business can make - the returns are 14-16%. It is a proven fact that a country cannot be ignorant and free."

In the second portion of his speech, Mr. Samuels called for a "War on ignorance," just in the United States and then in the world. He outlined a very large program to win this war.

Next, group discussions led by Mr. Samuels and Professors Russell Compton and Paul Thomas of DePauw University were held at 3:30. The people attending the sessions reconvened in the auditorium for a panel discussion by these three men.

Military Review

Twenty Rose Poly students were honored Saturday, April 29, during the ROTC President's Military Review from 11:15 a.m. until noon.

Dr. John A. Logan, president of Rose, presented the Department of the Army Superior Cadet Ribbon Awards to Cadet Maj. Roger Hybeck of Lyndhurst, Ohio, a senior; Cadet Lt. Kenneth Rogers of Cincinnati, Ohio, a junior; Cadet Sgt. John Grauel of Findlay, Ohio, a sophomore, and to Cadet Pvt. Bruce Williams of Boonville, Ind.

Selection of award winners was based on military and academic grades and military and academic leadership.

Milton H. Elzufon of Newark, N.Y. presented the Society of American Engineer Medal to his son, Cadet SFC John Elzufon, a junior at Rose. The award was based on the student's overall grade point average, his class standing, and his campus, military and college activities.

Governor C. Wallace, former governor of Alabama, presented the Association of the United States Army Medal to Cadet MSG Robert Johnson, a junior from Homewood, Ill. The award is given to the junior who has contributed the most, through leadership, toward advancing the ROTC unit and the military department. He must also be in the upper 10% of his ROTC class.

Major Carl G. Forsyth of Terre Haute presented the Reserve Officers Association Medal to Cadet Col. Jimmy Caughran, a senior from Vincennes, Indiana, and Certificates of Achievement to Cadet MSG John Shambach of Shelbyville, Ind., a junior; Cadet Sgt. Michael Blackburn of Indianapolis, a sophomore, and Cadet Pvt. Charles Boesenberg of Mount Prospect, Ill., a freshman.

Maj. Arthur Goldman of the Terre Haute National Guard unit presented the National Guard Association of Indiana Award to Cadet S/Sgt. Timothy Sullivan of Fairfield, Ill. The award is given to the cadet who has demon-

Letter To The Editor

I am certain that I speak for many Rose students in congratulating Dr. Logan, Chuck Morgan, John Elzufon, and the many other people too numerous to mention all of whom did such a fine job in preparing and executing project IMPACT.

The two day affair was both stimulating and thought provoking, and I think similar programs in the future will be received with even greater enthusiasm now that the value of such programs has been demonstrated.

Sincerely,
John Andis

Dear Editor:

The Rose Riots was scheduled for May 2 and had to be canceled because of lack of student interest. I sincerely hope it was just an unawareness of what Rose Riots is and not another sign of the growing apathy among students. This is the apathy, which manifests itself in the lack of participation in all school functions, for example the convocations. I sincerely hope it was not this. Therefore, going on the assumption that Rose students don't mind giving a little of their time for something meanful and fun, I will explain what Rose Riots has been and what it is for.

Rose Riots has been traditionally one time of the year when we, the students, can criticize or poke fun at, in a good natured sort of way, the faculty, the administration, or any other group connected with Rose. It

(Continued on Page Five)

shook hands and talked to many of those in attendance.

Most parents then visited their son's room as both the dormitories and the fraternity houses were open. Many attended either the tennis match with Illinois college or the baseball double-header with Hanover. Also a good crowd attended the performance of "The Chalk Garden", in the auditorium Saturday evening.

EDITORIAL

The staff of the Institute Inklings would like to congratulate the student government on a very fine job of planning, publicizing, and staging the Impact Program. The large attendance of both parents and students shows that it is possible to get the Rose student body to support and even having parents to an educational program.

Although there were many unfavorable comments by students when the idea was first presented, Chuck Morgan and John Elzufon, continued to work toward a successful program. To these two, we would like to pay special tribute for their service to Rose.

We hope that the idea of Impact will be carried on next year with a different topic and name nationally known speakers. We hope that planning will begin now for an even bigger and better program. We, of the Institute Inklings, challenge you, John Elzufon and the student government, to do a better job next year.

D.D.F.

IMPACT AND PARENTS DAY

(Continued from Page One)

The most spectacular part of Impact was the speech by former Governor George Wallace, Saturday morning in the fieldhouse. Some mistake in timing was made, and Wallace missed the press conference that was to have been held before his speech. By 10:00 a.m., forty or fifty student demonstrators had gathered in front of the fieldhouse. Nearly all these demonstrators were from other schools, and several particularly well dressed ones attracted almost as much spectator interest as Governor Wallace. The state and country police kept the demonstrators on the front steps of the fieldhouse, while the crowd of 1500 to 2000 listened to Governor Wallace's speech inside.

Wallace stayed on the topic of education for the first few minutes and then he strayed into politics. Governor Wallace did tell how Alabama has greatly improved its educational system in the last four years (his term of office.) The system of trade schools and junior colleges he helped estab-

lish may soon be copied by other states. He also emphasized that he thought the best school systems are run by the local and state governments, not the federal government. He added that Alabama applies one of, if not the largest percentage of state revenue to education. The rest of Governor Wallace's speech was reportedly the same as that he had delivered in Syracuse, Pittsburgh, and Cleveland and dealt with politics.

Governor Wallace held a press conference after the Military Review on the football field. He also ate lunch in the Hulman Memorial Union, and

Fraternity News

SIGMA NU

The Spring quarter is now officially half completed as mid-term grade reports were issued this week. The quarter has thus far proved a fruitful one for the brothers in all respects. In major league softball competition, Coach Cahill's men won a hard fought inter-fraternity contest with Theta XI, while later in the week they bowed to the faculty in a tough one-run decision, thus bringing the season record to 1 win against 1 loss in inter-fraternity action. The minor league crew has been having a frustrating season thus far, as the men chalked up their third rainout in the past three games.

The recent Parents Day Program proved to be a great success for the

brothers of Sigma Nu as a high percentage of parents were able to attend the festivities. Brother Chuck Morgan, who devoted a good deal of time to the Impact Program had the privilege of escorting the controversial Governor Wallace about the campus during his visit last Saturday. The brothers are also very proud of pledges Bieman, Duncan, and Bosenberg, who received awards at the President's Review. Pledges Duncan and Bieman were cited for outstanding marksmanship in the freshman class and Pledge Bosenberg was awarded a Reserve Officers Association Certificate. Congratulations are in order to Brother Bradburn for the fine planning of the meal and other events which took place at the fraternity house last weekend.

The pledge class has put forth a fine effort, earning \$420 toward their goal of \$600 to be used for the annual pledge dance which is scheduled for May 13th this year. The men of Sigma Nu are anxiously awaiting the upcoming Greek Weekend ceremonies. Several of the fraternity's top tricycle riders have been entered in the competition and Brother John Greve was a unanimous choice for the pie-eating contest. The chapter has been diligently practicing for the Saturday evening song contest, under the excellent direction of Brother Joe Cull, and stands to make a very good showing.

BLUE KEY

Ken Rogers, a junior electrical, has been elected president of Rose Poly

chapter of the Blue Key, national honor fraternity. Dennis Fritz, was elected vice president; Bill Dodge, secretary-treasurer, and Terry Joyce, corresponding secretary.

Also named were Carl Bauer as alumni secretary; Jerry Wones, publicity director, and David Yeager, pledge trainer.

Blue Key is a service organization which is responsible for many of the activities serving the school. Requirements for membership include personality, character and scholarship. Members are in the junior and senior classes.

HULMAN UNION ACTIVITIES

The Grace and Anton Hulman Memorial Student Union has brought a necessary and much needed addition to the Rose campus. Through the work of Mr. Bill Brown, Director of the Union and his wife, Mrs. Brown, the Social Director of the Union, the new student center is beginning to realize new and better services.

One of the newest additions is the new art collection. British water colors have been placed in the Chauncey Rose wing of the new Union. About eighty paintings will be hanged, all together, including the most famous, a Rowlandson. The paintings are a beautiful and cultural addition to the campus.

Recently, a Union Plaque Tourney has been established. The tourney is to be an annual event in which competition in 14-1 billiards, table tennis (singles and doubles), bridge, euchre, pinochle, hearts, and chess will be held. The Tourney is of the double elimination type where a person must lose twice before being eliminated and the winners' names will be placed on plaques in the Pool Room.

Until the construction of the student center, the Rose campus had no truly nice place where social events could be held. Since its addition, the Union has been used for several fraternity and IDC dances, banquets, and meetings. The public and faculty have also found it to be a wonderful addition to the campus and community.

Also, Mr. Brown has announced the formation of a Union Chess Club. All interested faculty and students are to meet in the Union's main lobby at 4:00 on May 10.

ALPHA PHI OMEGA MEETING

The Alpha Phi Omega fraternity held a preliminary meeting at Hulman Memorial Union on Tuesday, April 18, to discuss the possibility to establish-

ALPHA PHI OMEGA

(Continued from Page Three)

ing a chapter at Rose. Larry Mickelson, President of the Beta Lambda at ISU, addressed the group of sixteen interested Rose men.

Alpha Phi Omega is a national service fraternity associated with the Boy Scouts of America. Since its founding in 1925 by Frank Reid Horton, an ensign in the U.S. Navy, Alpha Phi Omega has grown from 14 charter members to a membership of 92,000 with 400 chapters. This makes Alpha Phi Omega the largest fraternity of all types.

Prospective faculty advisors for the Alpha Phi Omega chapter at Rose include Professor John Barnsted of the Electrical Engineering Department and Mr. Terry Barton of the Admissions office.

When asked what were the prospects of establishing a chapter at Rose, Mickelson replied, "You have a small number, but with a lot of sweat, tears, and a lot of luck, I am sure Rose Poly can produce a good chapter."

Rich Kirkman, acting chairman of the organizational chapter, elaborated further on the fraternity's future at Rose when he said, "We'd like to plan another meeting. We also have several service programs planned. At this next meeting, I would like to have the election of officers. We have a social function planned and a service program upcoming this weekend."

"THE CHALK GARDEN"

"The Chalk Garden" was presented on Parent's Day.

This performance of "The Chalk Garden" was produced by the Saint Mary-of-the-Woods College Speech and Drama Department, under the direction of Sister Mary Olive, S.P., and the technical supervision of Charles M. Watson.

This was the second time that Sister Mary Olive had directed the play, as she presented "The Chalk Garden" two years ago, with the same male cast members. The play was also presented at Ladywood High School in Indianapolis on April 22 by Sister Mary Olive and troupe. They were invited to Rose's Parent's Day not only to provide entertainment for the evening, but also so the members of the Drama Club could gain experience in working with Sister Mary Olive, as she is the director of the spring production of "Skin of Our Teeth."

This spring play marks the beginning of a "new image" for the Rose

Drama Club, which is growing in membership and technical ability. The new officers of the Drama Club are John Leonard, president; Felda Handyman, vice-president, Don Grove, secretary; and Jim Hull, treasurer.

A NOTE OF THANKS

Thanks to the United States Army Reserve we have a stable bridge across the creek down by Nehf Baseball Field. The other two bridges are waiting to collapse under the feet of an unsuspecting Rose student.

MILITARY REVIEW

(Continued from Page One)

strated outstanding military proficiency and contributed to the morale of his service organization.

Professor of Military Science Awards, sponsored by the Chicago Tribune, were given to four students by the Rose Honorary Cadet Colonel Linda Andrews, an Indiana State University student. Seniors honored were Cadet LTC Larry Sprouse of Cleveland Heights, Ohio, and Cadet LTC Thomas Curry of Indianapolis. Juniors who received the awards were Cadet SFC David Beaman of Cayuga, Ind.,

and Cadet MSG Kenneth Culp of Martinsville, Ind.

Cadet Capt. Harry D. Blaker, a senior from Brazil, Ind., was awarded the American Legion Pistol Award by Victor L. Liddil of the Wayne Newton Legion Post. The award is made to the member of the ROTC rifle team who has excelled in marksmanship.

Freshman Marksmanship Awards were presented to three students by Capt. John Ratcliffe, assistant professor of military science. The first-place trophy has been earned by Cadet Keith Sappenfield of Kensington, Md.; the second-place trophy by Cadet Richard Bieman of Elma, N.Y., and third-place trophy by Cadet William Duncan of Louisville, Ky.

FRIDAY

INDIANA

LETTER TO THE EDITOR

(Continued from Page Two)
has been one of the highlights of each school year. Anyone can participate, be it an individual or a group. Fraternity, club or a class, i.e., the junior EE, all are cordially invited to participate. Blue Key also extends an invitation to the faculty to give skits satirizing the students. It is my feeling that this type of activity promoted the familiarity between faculty and student which makes Rose what it is.

Blue Key will reschedule Rose Riots if there is any interest shown at all. Submit your skit by campus mail in the next two weeks. We will post new date and time for the Riots. Therefore if you do not want a good tradition

to die, get busy. Gentlemen, it is up to you.

—Kenneth F. Rogers,
Blue Key Pres.-Elect

Dear Editor:

What's happening at Rose? Are this year's freshmen too smart to believe in having a little fun?

I have to say that the funniest stage production at Rose in recent years, has been the Rose Riots. It offered a chance for groups of peasants (usually Frosh) to get back (safely) at the ruling class always professors, doctors, dictators, etc.), but some how this year, I feel like Rose is missing out on one of the better events of her social calender.

I hope that the response or should I say lack of response to this years production of the Rose Riots is by no means a measuring devise of the questionable potential of this supposedly great class of 1970.

Who knows, maybe you haven't learned to laugh yet.

—Roger Evans

A NEW FACE

If you have visited the bioengineering department, you probably have noticed the laboratory facilities are not the only new additions. Prof. Frank B. Freedman has joined the Rose faculty as a member of the bioengineering department this quarter.

Prof. Freedman received his B.S. in electrical engineering from Drexel Institute of Technology in Philadelphia. From there he did his graduate work at the University of Minnesota and will receive his Ph.D. this June in physiology.

Prof. Freedman is currently teaching D.E.I. and physical engineering systems. Later he will teach biophysical science and medical engineering. He will also make use of the new laboratory facilities to begin research work on the effects of hyperbaric oxygen on living organisms and on certain aspects of systems analysis. Prof. Freedman originally did his research work on "Equilibrium and Kinetic Analysis of Evans Blue-Albumin system." This was an investigation of the binding characteristics between Evans Blue, a dye, and albumin, the main plasma protein.

Prof. Freedman is married and has

one child. His hobbies are bowling, camping, and tennis. However, his main interest is to "help bridge the gap of biology and engineering." He hopes to generate interest in bioengineering for the engineering and science student with no background in biology.

At this time we would like to welcome Prof. Freedman as a needed addition to the new and growing Rose bioengineering department.

A major decision has to be made each time a Rose student reaches the Brown Avenue—Ohio Street intersection on his way out to school. It is a question on being quickly shaken apart by the ridges on Brown or slowly pounded to pieces by the washboard on Ohio—some choice!

FOR CAMPUS BEAUTIFICATION: A more tasteful design is needed for the rock garden on the hill near the observatory. Such things of beauty should enhance the landscape rather than detract from it.

The personnel management class of Prof. Haist has divided up into five groups and selected management projects to be completed by the end of the year.

GREEK DAY

(Continued from Page One)

The morning events allow each fraternity to cheer for its own team, while the afternoon events try to promote the inter-fraternity spirit.

The events of tomorrow evening center around the annual inter-fraternity dance to be held in the Union. The annual song contest will be held at 8:00 with the dance scheduled to start at 9:00. The awards for the Greek Day contests and the song contest trophy will be presented about 10:00 p.m.

SPORTS

BASEBALL

After losing their last game of more than two weeks ago, the Engineer baseball team came back to put on a good show for the parents last Saturday at Nehf field. In the game of Tuesday, April 18th, Greenville solidly trounced Rose 12-0. Barry Raff was assigned the mound duties for the day, but needed help in the third when he was relieved by Tom Vettters. Jack Mehok took over for Vettters in the seventh.

Rose had a chance to spoil the shut-out in the sixth. Lead-off man Russ Sparks walked, Vettters hit a long double, and Ed McDivitt hit a ground single to load the bases. All this came with none out, but the next three Engineers went down consecutively to end the rally.

The game scheduled with Principia for Saturday, April 22, was postponed due to wet grounds. The game has not yet been rescheduled.

Before a large Parent's Day crowd last Saturday, Rose displayed good power to sweep a twinbill with Hanover. In the first game, Doug Roof let loose with a two run homer in the fifth to tie the game at 2-2. The next inning Rose scored four runs to clinch the victory. The final score was 6-4.

In the nightcap, played through a light rain, Rod Smith led the Engineers with a homer and two singles. Smith picked up three RBI's with his homer as Rose was enroute to a 5-4 victory. The twin wins brought Rose's season record to seven wins, four losses.

Rose's next action at home comes tomorrow in a doubleheader against Franklin. — Rick Brandt

GOLF

The golf team has been following a busy schedule for the past two weeks. Sid Stone and Tom Thuerback of Rose were the only sub-80 shooters of the meet with Marion College last Tuesday, April 25, Stone finishing with a two-over-par 74 and Thuerback posting a 79. After winning a 13-5 decision from Marion College on Rea Park's course, the Rose golf team traveled to Decatur, Illinois, for a double-header at Millikin University on Friday, April 28. The linksmen were victorious over Illinois College winning a 10-5 decision but ran into difficulty with Millikin University, losing a 12-6 decision. Tom Szabo of Rose tied for medalist

ROSE TRACK

Last Saturday the Rose track squad traveled to Elsay, Ill., where they participated in the first annual Principia Invitational. The Rose squad tallied enough points for fourth place in the 8 team field which included all 5 members of the PCC. Those teams participating were Blackburn College, Central Methodist, Greenville College, Illinois College, Lincoln Christian College, MacMurray, Principia College and Rose.

Principia took top honors at their own event, ousting second place Greenville by 5½ points. MacMurray dominated the third spot while Rose was only one point ahead of fifth place Central Methodist. Blackburn, Illinois College, and Lincoln Christian finished out the last three places.

The day was heavily overcast, and about half way through the meet, it began to rain; the steady down pour lasted throughout the completion of the meet, leaving water up to 2 inches deep on parts of the new rubber-asphalt track.

Since this was the first in a series of annual meets, all first place performances stand as meet records. Thus, Jim Stewart's first place in the 100 yard dash, and Alan Boner's winning high jump place Rose on the record book. Tom Johnson was edged out to second place in the discus, while Rose also took four third places, three fourth spots, and a single fifth. Principia and Greenville each managed to put five first-place performances on the record book.

Last Tuesday, Coach Martin took part of his squad to Crawfordsville to participate in the Little State meet held at Wabash. At time of printing, no results were available.

Results of the First Annual Principia Invitational, April 29, 1967:

High Jump, (6'0"); 1. Boner, (Rose); 2. (MacM); 3. (Gr.); 4. and 5. Sibrava, (Rose) and (Bl.), tie.

honors for the day with a 74.

Following their match with Marion College Tuesday, the Rose linksmen will again be on the road traveling to Franklin for a match with Franklin College today. The team's record for the year now stands at 5-2, not including the results of the match with Marion.

440 yard Relay, (43.7); 1. MacMurray; 2. Greenville; 3. Rose Poly; 4. Principia; 5. Blackburn.
