The Cover

Hulman Memorial Union is reflected in the larger campus lake as two Rose-Hulman students get some sun from the carpeted raft constructed by "Operation Catapult" students a few summers ago. Rose-Hulman is relatively quiet in the summer, as depicted by this photograph.

Alumni Directory

Rose-Hulman Institute of Technology

Terre Haute, Indiana

Summer 1975

This issue of **Echoes** reports the "who, what, and where" of alumni of Rose-Hulman Institute of Technology — one of the most requested services of the RoseTech alumni office.

Since Rose men have always been known as "men on the move," approximately one-fourth of our alumni report a change in position, address, additional degrees or professional engineering certification each year. Thus, it is impossible to ever print a directory of alumni which is up-to-the-minute.

As of mid-May, the lead time required for this type of publication, the information contained in this issue was the latest on file in the alumni office. Those who find the information is out-of-date or in error are requested to send such changes to the alumni office. We'll pay the postage if you use the return cards bound in the back of the publication.

Thanks to your conscientious effort in keeping Rose-Hulman informed as to your whereabouts, the Institute has an enviable record of the percentage of alumni it contacts each year.

Colleagues of sister institutions tell us we should be content with fewer than 200 "lost alumni" out of a total number of over 4,000. We're not content, and enlist your support in helping the alumni office find these "lost alumni." As you scan your class list, please send us a note with any help you can lend.

The alumni office's primary purpose is to be of service to alumni. If you need information about Rose-Hulman or any of its programs, or have a suggestion for RoseTech Club activities, or want a set of address labels for members of your class, please do not hesitate to contact the alumni office.

Impact of Larger Classes Begins To Show Up in Employment Survey

Each year — even in periods of economic gloom — corporations, agencies, consulting firms and others seeking to employ conscientious and hard-working men of engineering and science converge on Rose-Hulman Institute of Technology. It remains as one of the best places in the land to recruit a good man.

This reputation was not built in a day. Much of the success of placement at Rose-Hulman is a spinoff, if you will, of the success of graduates of 10, 20, and 30 or more years ago.

A recent survey reveals that 75 percent of the alumni work for corporations, a vast majority of them in key managerial or engineering posts. While the survey revealed what most expected, the impact of the larger classes graduated since 1960 is beginning to appear to both the level of job held by alumni of this era and the number of companies which currently employ 20 or more alumni.

Although the trend has been for greater diversification among companies, the two corporate generals—General Motors and General Electric—continue to lead in the number of Rose graduates on their payrolls with 145 and 124 employees respectively.

The impact of larger numbers and a greater diversification can only lead to Rose-Hulman becoming better known. Entry into a wide variety of fields also was noted in the survey. A growing number of those in corporate management now have law degrees and the number of those in medicine has more than doubled in the last five years. Graduates currently in medical school will more than double this figure within the next five years.

With the exception of the 6.7 percent of the alumni body employed by the government (approximately 250 persons), no other category attracts more than a five-percent block of graduates.

The survey compilations were made from data received from alumni in the request for information for publication of the directory of alumni which follows in this magazine.

According to the survey, there are 3,427 with what the alumni office termed "a job of record," 297 who did not include their job title, 188 "lost" alumni (those alumni which the alumni office does not have a mailing address), and 266 retired alumni.

It should be noted that the 215 men who were graduated with the Class of 1975 are not included in the percentages.

Welcome, Class of '75

Although the alumni office has only a handful of permanent addresses and job titles for members of the Class of 1975, **Echoes** felt that it was only fitting to list the class in this directory.

Rose-Hulman conferred 223 baccalaureate degrees on 215 men during the May 23 commencement. Two others received masters and four men — alumni John A. Wagner '18, H. Loren Thompson '34 and Dr. Fujio Matsuda Jan. '49, and Dean Ralph M. Ross — received honorary doctorates during the exercises.

So, "for the record," here's the Class of 1975:
