Alma Mater

*Music by Raymond Mech
Lyrics by Andrew Mech, PhD, Professor of Mechanical Engineering*

Here in central Indiana
is the school we know is best.
Rose-Hulman, Yes, our Alma Mater
far surpasses all the rest.
Sing her glories and her praises
in every way she does excel.
Rose-Hulman, you're our Alma Mater
our Alma Mater loved so well.

Rose did more than set foundations
for the work that was to come.
The people here became as family;
Rose became another home.
Though we live at quite a distance
and time has passed since our farewell,
Rose-Hulman you have grown yet dearer
our Alma Mater loved so well.

Dear Old Rose The School Fight Song

Words and Music by Malcolm C. Scott, Class of 1922

Dear Old Rose
The sweetest flower that grows
Here's to your colors rose and white
Here's to the ones who've kept them bright.
Colors true for those who honor you
Here's to everything you've done,
Here's to every fight you've won.
Dear Old Rose.

COMMENCEMENT SPEAKER

The Honorable Robert L. Wilkins

Judge, United States Court of Appeals
for the District of Columbia Circuit

A bachelor's degree in chemical engineering (cum laude) from Rose-Hulman Institute of Technology set Robert L. Wilkins on a steady upward legal career pathway. Along the way he has defended the public, including juvenile cases, and practiced white collar criminal defense, intellectual property and complex commercial litigation.

Wilkins earned a law degree from the prestigious Harvard Law School, where he was an executive editor of the Harvard Civil Rights-Civil Liberties Law Review. After graduating, he clerked in southern California for U.S. District Court, and then returned to practice law in Indiana before becoming a staff attorney with the Public Defender Service in Washington, D.C. During his 10 years with PDS, Wilkins became lead counsel for juvenile matters and then for such serious offenses as murder and armed robbery. He also argued cases before the District of Columbia Court of Appeals and was named chief of special litigation.

In 2002, Wilkins became a partner in Venable LLP in the nation's capital. He practiced white collar criminal defense as well as intellectual property and complex commercial litigation, representing companies in patent and other disputes. He became a U.S. district court judge in 2010. In that capacity he presided over hundreds of civil and criminal cases.

Wilkins was appointed to the United States Court of Appeals for the District of Columbia Circuit on January 15, 2014, following nomination by President Barack Obama.

Throughout his career, Wilkins has played an important role in the national and D.C. legal

communities, and is a recognized expert in racial discrimination and sentencing laws.

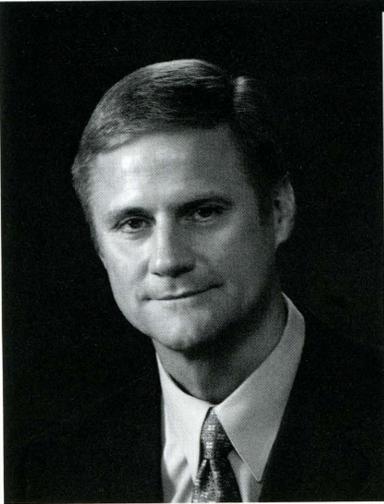

Wilkins found himself as a plaintiff in a significant 1993 case challenging racial profiling by the Maryland State Police, when a state trooper stopped him and his family as they drove back from his grandfather's funeral in Chicago. The police conducted a drug-sniffing dog search without justification. He became the lead plaintiff and co-counsel in *Wilkins, et al. v. State of Maryland*, whose eventual settlement required statistical tracking of police stops, improved training of officers and new police policies to combat racial discrimination.

At Venable, Wilkins performed over 1,000 pro bono hours to clients in civil rights, child custody, asylum, social security benefits and other cases. He was named Pro Bono Attorney of the Year in 2001 by the American Civil Liberties Union of Maryland, one of the 40 most successful litigators under 40 by the National Law Journal and one of the 90 Greatest Washington Lawyers of the Last 30 Years in 2008 by *Legal Times*.

A native of Muncie, Indiana, Wilkins played a key role in the establishment of the Smithsonian National Museum of African American History and Culture, serving as the chairman of the site and building committee of the Presidential Commission that planned the museum.

Wilkins' professional achievements and service to Rose-Hulman earned him an honorary doctorate degree in 2014 and the Alumni Association's Honor Alumnus Award in 2005.

A resident of D.C., Wilkins and his wife, Amina, are enjoying experiencing life with their sons, Bakari and Alim.

THE HEMINWAY GOLD MEDAL

This award, established by the late Mrs. Sarah A. Heminway, is awarded to the graduating undergraduate student with the highest grade point average. In the event of a tie duplicate awards are given.

THE JOHN T. ROYSE AWARD

The John Tuller Royse Award was inaugurated at Rose-Hulman to honor Mr. Royse in perpetuity for his many years of service to the college as a member of our board. The Royse tradition on the board continues today as John N. Royse still is an active member.

The award consists of a bronze medal and cash honorarium to be made at commencement each year to the graduating senior who, in the opinion of the faculty and administrative staff, is considered to be our most outstanding graduate based on academic achievement, student leadership, participation in co-curricular activities and general campus citizenship. The recipient must be nominated by a classmate, a member of the faculty or administrative staff.

THE MOENCH COMMENDATION

Herman A. Moench graduated from our school in 1929. He served as associate vice president and professor of electrical engineering for more than five decades. Moench helped shape the Rose-Hulman values that we all cherish today, including putting the student first, remaining humble while striving for excellence and encouraging close student-teacher relationships.

In 1980, the first Moench Commendation was awarded. This is a person who is "not just a good student in the upper half of their class, but also has demonstrated exemplary character in the eyes of their peers and teachers; a person who has been influential in making Rose-Hulman a better place." The recipient is selected by a vote of faculty and administrative staff.

FIFTY-YEAR COMMEMORATIVE DEGREES

For more than 130 years, Rose-Hulman alumni have been making positive contributions to society as scientists, engineers and mathematicians. Success has not been limited to their career areas. They serve their local communities through civic organizations, youth activities and churches. Much of the recognition Rose-Hulman enjoys today is because of our alumni. Rose-Hulman graduates make an impact. Their achievements as scientists, engineers, mathematicians and concerned citizens translate into a reputation of quality for their alma mater.

Today, we recognize the contributions of the Class of 1967 by presenting commemorative degrees to those who have been alumni for 50 years. The diplomas they receive today honor their dedication of time and talent to their careers, society and Rose-Hulman.

A BRIEF HISTORY OF ROSE-HULMAN

With the unveiling this year of the renovated Hulman Memorial Student Union, Rose-Hulman Institute of Technology adds yet another highlight to its inspiring history. The \$25-million project is just the latest in a nearly continuous record of development and innovation that started on the edge of downtown Terre Haute in the closing quarter of the 19th century.

Chauncey Rose, an entrepreneur and philanthropist, along with a handful of his friends, laid the legal groundwork in 1874 for the Terre Haute School of Industrial Science—soon renamed Rose Polytechnic Institute. In 1883, the inaugural class of 25 students entered the new school established “for the intellectual and practical education of young men.” Under the leadership of its first president, Dr. Charles O. Thompson, academic rigor became firmly cemented into the school’s culture and enrollment reached 200 by the turn of the century.

By World War I, under the inspired leadership of President Dr. Carl Leo Mees, enrollment advanced by another fifty percent and it became clear the school was outgrowing its small urban campus. In 1922, work started on a new campus, east of Terre Haute on a 123-acre farm donated by the Hulman family. In this new setting, especially during a remarkable growth spurt after centenary celebrations in 1974, the Institute added residence

halls, new classrooms, labs and recreation facilities while enrollment continued to increase, reaching 1,000 in 1969 under President John Logan.

In 1971, in appreciation for an \$11-million gift (\$66 million in 2017 dollars) from the Hulman family, the institute was renamed Rose-Hulman Institute of Technology. Twenty years later, spurred by President Sam Hulbert, faculty and many of its own members, the Institute’s Board of Managers voted to admit female students beginning in 1995. Eighty women comprised 17 percent of the first coed freshman class.

This century, Rose-Hulman has continued to build on the strong foundation laid by generations of visionary leaders, dedicated educators and hard-working students. With a string of No. 1 rankings from *U.S. News & World Report* and other recognitions, the Institute, now with an enrollment of more than 2,000 undergraduates and graduate students, has firmly established itself among the leading science, engineering and math colleges anywhere in the world.

Today, Rose-Hulman remains committed to the values that have guided it since those first students enrolled in 1883, ensuring continued success and progress for at least another 140 years.
