## THE COVER

Moench Hall, the main academic building for Rose-Hulman since moving to the present campus in 1922, will undergo a major renovation beginning in the summer of 1983.

*Echoes* is published quarterly by Rose-Hulman Institute of Technology at Terre Haute, Indiana 47803. Publication number 470700. Second class postage paid at Terre Haute, Ind.

It is the policy of Rose-Hulman Institute of Technology to admit students on the basis of their academic ability. Rose-Hulman does not discriminate with regard to race, color, creed or national origin.

The Institute does not discriminate on the basis of handicap in admission, or access to, or treatment, or employment in its program and activities.

# RHIT Alumni Cited for Sustained Support

A few years ago when Rose-Hulman made an assessment of its overall communication to its alumni one point was abundantly clear — the alumni of this school made lasting friendships during their college days and continue to have a keen interest in their alma mater, the engineering profession in general and the contributions of Rose graduates in a wide variety of settings.

It was this interest that prompted Rose-Hulman to return to an annual printing of the alumni directory rather than the once-in-five years or once-every-decade approach of most colleges and universities. One possible benefit, we believe, is that Rose-Hulman in some small way is a closer family as a result.

The loyalty of Rose-Hulman alumni, which has been a hallmark since the establishment of an alumni association in the spring of 1887 when the alumni body numbered an enthusiastic 26 graduates, achieved national recognition from the Council for the Advancement and Support of Education (CASE) this summer. Rose-Hulman received the 1981 CASE/U.S. Steel Alumni Giving Incentive Award in the sustained performance category.

Other noteworthy support included ready acceptance by alumni volunteers to work on Rose-Hulman's "Blueprint for Excellence" development program announced in the last issue of *Echoes*.

The CASE/U.S. Steel recognition reflects loyalty over

the long pull — a factor which is doubly impressive when one considers that half of Rose-Hulman's 5,589 living alumni have been graduated since 1968. Rose has conferred 6,961 baccalaureate degrees since the first commencement in 1885.

Although still a small college with a 15-1 student faculty ratio, Rose-Hulman is emerging as one of this nation's better known engineering colleges in terms of product — the graduate. No college or university we know can report two recruiters per graduating senior.

There is a good reason for this interest by business, industry, government agencies and the country's best graduate schools. Rose-Hulman knows its mission and fulfills it well.

Please help Rose-Hulman's alumni office in the important mission of communicating both within the Rose family and the community and professions. Each time you move or have job change information, please keep the alumni office informed by use of the reply mechanism provided in the back of this publication or by letter.

*Echoes'* primary emphasis is to keep alumni and friends informed about the events and developments at Rose-Hulman. But equally important is reporting on alumni. Please send *Echoes* information on important news such as marriages, births, achievements, hobbies — in short, any information you feel would be of interest to the alumni and friends of Rose-Hulman.
