About the Cover

Rose-Hulman's curricula have always demanded competency in the laboratory as an integral part of the education process. Some of the institute's most experienced teachers run the laboratories and work one-to-one with students. The addition of Olin Hall and the planned renovation of Moench Hall will bring Rose-Hulman's already laboratory-intensive program to new heights.

Echoes **is published quarterly by Rose-Hulman Institute of Technology at Terre Haute, Indiana 47803. Publication number 470700. Second class postage paid at Terre Haute, Ind.**

It is the policy of Rose-Hulman Institute of Technology to admit students on the basis of their academic ability. Rose-Hulman does not discriminate with regard to race, color, creed or national origin.

The Institute does not discriminate on the basis of handicap in admission, or access to, or treatment, or employment in its program and activities.

Half of Alumni Body Graduated Since 1970

'Boot Camp' Builds Alumni Closeness

Which college or university has the closest knit alumni body? If Rose-Hulman Institute of Technology doesn't, it certainly is near the top.

Much of the reason for this *esprit de corps* lies in the fact that the Rose experience has been likened to "four years of boot camp" and this, in itself, tends to build cameraderie. While Rose-Hulman is a demanding institution, the experience is tempered by more than the normal amount of tradition and many lighter moments. As Senior Vice President Herman A. Moench '29 so aptly states it, "We're very serious about what we do here, but hopefully we learn not to take ourselves too seriously."

While Rose-Hulman, which has its first centenarian in Dudley D. Wright '05, retired industrial engineer for Central Illinois Public Service Company, and a very active group of graduates who have observed 50 or more years since their graduation from Rose, the alumni body is very young for a school which has been in existence for over 100 years.

Rose-Hulman has conferred degrees on 7,467 men since the first commencement in 1885. There currently are 6,022 living alumni. Eight hundred ninety-four are retired, but a closer look at their varied activities and public service indicates this "retiree" status may be a misnomer.

If one were to look at the "middle man" or average Rose-Hulman alumnus (if there is such a person), we find that this alumnus was graduated in 1970. He is either an electrical or mechanical engineer (we're leaning to mechanical engineering since nearly 400 more M.E. degrees have been granted through the years) and his last name begins with the letter "M." He currently is working for his second employer since graduation and resides somewhere between Indianapolis and Cincinnati (a slight shift to the southeast in demographics is noted).

Rose-Hulman alumni reside in 49 states, the District of Columbia and Puerto Rico, as well as 28 foreign countries. Despite this geographic distribution, most alumni get back to the campus with some regularity. William Sisson, director of placement and corporate relations, estimates 100 alumni return to the campus annually to serve as recruiters for companies which they are employed.

The publication of an alumni directory on an annual basis is intended to help Rose-Hulman graduates keep track of classmates and friends and to make new friends among the Rose-Hulman family. Why not attend the next RoseTech Club meeting in your area? When the call comes to serve as a RoseTech regional officer, alumni student recruitment leader or any number of other assignments, please invest a few hours of time for your Alma Mater. Those who have done so in the past find they enjoy the association and, more often than not, take on additional responsibilities such as becoming a member of one of the operating committees of the RoseTech Alumni Association or serving as a member of Rose-Hulman's National Board of Advisers. More than 75 graduates have served as a member of the Board of Managers through the years.

NEW 'GATEWAY' TO ROSE-HULMAN — Olin Hall (left foreground) and Hadley Hall (immediately behind the new brick circular drive) are linked to Moench Hall (right), providing Rose-Hulman a new focal point to the campus. Vehicular traffic has been removed from the area bounded by Olin, Hadley, Moench, Crapo halls and Logan Library, allowing the creation of a new area similar to a "quad."
