Two Teenagers Caught By Alert Fire at Firing

Tuesday evening about 10:45, the freshman appointed two Terre Haute high school students into the hall on the scene of the bonfire. A mob of over 100 fresh paraded their captives to the third floor of Baur Hall, presumably in proof of shaving their heads. Three counselors took custody of the boys and removed the bloodthirsty mob from the dormitory.

Their first attempt was the fraternity at Purdue, which they had pledged to get railroad tie from the bonfire. After several conversations with the president of the given frat-er, they, confessed coming in. The president of the given frat-er, they, confessed coming in. The president of the given frat-er, they, confessed coming in. The president of the given frat-er, they, confessed coming in.

Outstanding Rose Men Are Honored

Blue Key president Joe Grumme congratulates pledge Lynn Roberts for having the initiation fee. Other new pledges of the honor society (T. Greg Bolt, John Rohr, Paul Richardson, Darcie Rice, Marie Rice, Bob Lovell.

The second convocation of the school year was the Fall honors convocation. Recipient college honors for mathmatics achievement. The much prized Remsear Bronze Medal, given to the sopho-more having the highest cumulative index for the freshman year, was presented to Grant R. Wall.

Another prize for scholarship was given to the Paul N. Borgen Medal. Recipient was James L. Casper, of the 1959 class. Dean Ross established that the scholarship was awarded to the best student in the freshman college.

Charles T. Terry, a junior, rec- ived the award given by the civil engineering department.

Chemistry awards for superior work in freshman chemistry were given to Thomas A. Evans, Frank W. Bier, and Grant R. Wallace. Carl M. Bokelman, who graduated from the University of Illinois in 1938, is now a professor of chemistry at the University of Illinois.

In addition to these awards, the fraternity homecoming dis- cussions this year promise to be the best in years so far, due to the forecast of a good year for the Terre Haute.

The Blue Key Fraternity will sponsor a Homecoming Festival, opening with a Pep Rally in the Wabash Field House. This will be followed by a Bonfire at Lost Creek Stadium. The Blue Key Fraternity will then present a new rally in the field house. There will be a pep band and the cheerleaders will be from St. Mary's, Apple cider and doughnuts will be served before the rally starts. Following the rally, the band might play.

With a chance to prove their much-vaunted "Rose Spirit" and to shed their garters, the freshmen men are working to complete the annual festival of activities. Several of these will be held on Saturday, October 12. Among these will be a Smorgasbord, a Buffet Lunch at 11:30, and a Dorm Open House from 10:00 to 12:00, both in Baur Hall. In the evening, the Theta Mu Band will play in the Wabash Field House. The Le Fer Alumni will take over the dormitories and work for rice hulls, a once -wasted milling byproduct.

Is Rush Really Handled Properly?

Fraternity Rush. Those two words are heard countless times during the fall. They can be heard in the hall or in the dorm, by the fireplace or under the stars in the fresh. And why? Because open rushing is forbidden until that week, usually at the end of February (tentatively planned for the weekend of 23rd year), designated as Rush weekend by the Inter-Fraternity Council.

During the exceedingly short time that the rusher spends at each house he's heard about everything that this particular fraternity was about to do and what he should do. He is told why he should join, what the fraternity system stands for, how he can develop both academically and socially, and so forth. This is all well and good, but why in only two days? After the men are asked to designate their choices they are weighing the pros and cons, for the most part, on the outcome of one weekend.

After a man pledges an organization, it's going to change his entire life for the next 3½ years. So it is quite obvious that if he doesn't make the decision he has got 3½ difficult years ahead of him. No matter how any of the fraternities or members try to deny it, there are always "mistakes".

And it seems strange that this difficulty should continue. Lack of knowledge is the only thing which causes a man to pledge the wrong group, or for the fraternity to get a member who is not fitted. What is the reason Rose is one of the most respected establishments?

As a matter of fact, all of these men may not wish a w r o n g choice, or who think that they did, may eventually drop out, flunk out, lower grades, become an introvert or even develop a dislike for life.

And it seems strange that this difficulty should continue. Lack of knowledge is the only thing which causes a man to pledge the wrong group, or for the fraternity to get a member who is not fitted. What is the reason Rose is one of the most respected establishments?

The Terre Haute House is booked solid for about the next seven months. Rescheduling the Military Ball is out of the question. Athletic events are determined by contracts previously arranged with student clubs, and so the third and third, in the tradition you have set.

In a Western town there's a new automatic ice plant with a number of slots that take coins of different sizes for ice of assorted sizes and kinds. Instructions are printed over each slot, but in the center is the boldest sign of all: "When all else fails, try reading directions."

The modern trend has placed such a premium on the accomplishments of the individual that achievements of organizations in most instances are overlooked or completely overshadowed. They are credited with the individual who works for the organization.

It has been stressed that the individual will reap the rewards of his efforts. In this atmosphere it is difficult for the student to understand that there are always "mistakes".

Hi There:

As I have traveled thus far, many Scottish people have been in their own way exchange. I'm learning about their homes here in Scotland. I've been in Scotland for one semester. I've had a delightful time to- day and torn my pants. The people all around were laughing at me. The negative statement is "It's nay bad." When I cook we eat a meal that is prepared. Another occupation I had was milking cows, repaired machinery, clipped sheep, made hay and other common aspects of an ID. Rosie threatened to collapse in a pile of firewood at every movement. A. E. Kreiger '93; Vic Hommel '02 and Pfingst '92 had built the old man, crossing into the Terre Haute law enforcement officers. At the early class reunions (and other celebrations) Vic Hommel's father supplied the champagne — from his own cellar. I'm doing. Dear means extensive. Although women are expensive in the U.S., we don't buy and sell them. Rosie is thought to have started "a wee bitte better." I'm doing. My boss is interested in that as well.

ROSIE HAD A HUMBLE BEGINNING

As told to Marvin Barnes
by Dean A. Maclean '79, A. E. Kreiger '93

The freshman who never had a driven car, shook in his booths as he piloted the old Reo frame along the highway toward Rose Poly back in 1925. Herman Moench has watched this frame, under Rosie's voluptuous figure, circle Rose's football field every since she was a freshman helped build a new Rosie. The old cumbersome wooden Rosie, mounted on a wooden farm wagon with solid wooden wheels, had disappeared, a victim of a neighboring college's midnight safari.

"I ENJOY PLAYING"

Benplay, Grange

Hi There:

I've just had a good American greeting to keep in practice. I'm learning a lot of Scottish words with communication with the people of Scotland. They speak faster and have a set of words of their own. As I have traveled thus far, many Scottish people tell me they sometimes have difficulty understanding Scottish of another area. Here are some plain examples of my experiences with the "Bruid Scotch." I jumped a fence and tore my pants. It wasn't three days after we arrived. According to them, you must graduate from an Army or Farm before you can enter a college in Leavenworth, Kansas, and if you have a college degree in this area, you must get an invitation from the Citadel in Charleston, South Carolina. He is licensed in engineering techniques in Texas and Oklahoma.

Since Homecoming Time Last Year:

The pit was enlarged for student parking. Rail in foreground is for faculty parking.

Dr. Logan, the tenth president, is rapidly becoming accepted as a leader who has great capabilities and a human method of applying them.

The Glee Club had a highly successful three day concert tour last spring. Mr. Holler, Prac. Bill Nicewanger, Bus. Mgr. Larry Shafter, Tour Mgr. Merle Rice were helped in arrangements by Muncie and Ft. Wayne Rose Tech Clubs, Miss Mayle and Prof. Palmer. Jeff Griggs is laying plans for another trip this year.

Nancy, Dennis, Janie, Juanita, Guzzy and Peggy Teamspirit helpers.

While the Frosh slept Rosie was painted for the second time.
PROF. MacLEAN IS HONORED

by News Bureau

Colleagues and former students of Professor Edward A. MacLean, for 25 years head of the Civil Engineering Department at Rose Polytechnic Institute, paid tribute to him as an engineer and educator at a banquet last week at Tucker's Steak House.

Professor Irvin B. Hooper, chairman of the Mechanical Engineering Department and faculty secretary, spoke for the faculty and presented Professor MacLean with a framed scroll bearing the signatures of the faculty members and the pen with which the scroll was signed.

Dr. Richard H. F. Fao, acting head of the Civil Engineering Department, also spoke of the fine tradition of Professor MacLean's teaching.

On behalf of the faculty wives, Mrs. Gurnie Randolf spoke of the contributions of Mrs. MacLean, who was in charge of the dormitory cafeteria for some years, and presented her with a silver bowl.

Professor Thomas Direccoli served as master of ceremonies for the affair.

Herman A. Moench, dean of the faculty, pointed out the highlights of Professor MacLean's distinguished career in civil engineering and his many civic contributions to the cultural life of Terre Haute.

Professor MacLean joined the Rose faculty in 1937 as head of the department. A graduate of the University of Maine, where he received the bachelor of science degree, he completed his master's degree at the University of Illinois. He served as bridge engineer for the highway department of Maine, maintaining a summer home at New Augusta and working during the summer on highway bridge design.

As chairman for many years of the convocations committee at Rose, Dean Moench pointed out, Professor MacLean brought fine cultural programs to the campus not only for Rose students but for the community as well. He was for a number of years an active member of the board of the Wabash Valley Civic Music Association and served as president from 1955 to 1956. He is now a member of the board of the Terre Haute Symphony.

A high point of the evening was the presentation to him of a bound volume of letters which had been written to him for the occasion by 150 of his former students. In their tributes to him, the Rose men praised not only his ability as an engineering educator but also as a teacher and counselor who taught his students the value of integrity and fine principles.

The MacLeans will live in Terre Haute but return to Maine for the Summer as has been their custom in the past.

Bolivar Shagnasty, a new tradition at Rose, has joined the EXPLORER staff. Mr. Lynch, the Student Center employees and students have little use for the rail in S. C. But Bolivar uses it to solve the enlarged parking problem. He hitches his . . . donkey there.

WHAT KIND OF MAN HANDLES A BUSINESS VENTURE BEST?

A midwestern college audience recently heard this answer in a talk by A.T. & T. Board Chairman, Frederick R. Kappel

"To us this is an important question because we hire nearly 3000 college graduates yearly. To get an answer we went to our own files and examined the records of nearly 17,000 people. We checked each man's comparative success against what he achieved in college.

"As a group, the scholars won handily. Of the men who stood among the top third in salary for their level of experience, more than half were also in the top third of their college class. Only a quarter were in the bottom third.

"And contrary to age-old beliefs, extracurricular activities proved a lesser indicator unless the individual had an outstanding achievement. Mere 'joining' was not enough.

"The study indicates, at least as far as the Bell System goes, that there's little opportunity for college students who practice 'diplomaship'—the belief that a diploma automatically leads to job success. Such thinking will not make telephone service what we know it can be.

"The men we want are men with intelligence plus those other attributes that give you the feel, the sense that they will make things move and move well—men who want to excel and are determined to work at it.

"Nothing short of excellence will do."

FREDERICK R. KAPPEL, Chairman of the Board
American Telephone and Telegraph Company

Bell Telephone Companies
The national officers of Theta Xi and Kappa Sigma Fraternities signed a merger agreement on August 20, 1962, after Kappa Sigma Kappa House of Virginia unanimously approved the agreement at their convention in Detroit. The chapters of Theta Xi had earlier authorized their membership to enter into the agreement.

The newly combined Fraternity will be known as Theta Xi Fraternity, which was founded in 1868 at Rensselaer Polytechnic Institute in Troy, New York. The Theta Xi name, together with that of the Kappa Sigma Kappa, which was founded at the Virginia Military Institute in 1907 and reorganized at the University of Missouri in 1915,

"The merger of our group with Kappa Sigma Kappa is a significant step forward, both for our combined fraternity, this chapter, and for the fraternity system at Rose Poly," said Jerry Oxley, chapter president. "We're proud to be affiliated with the other 67 chapters of Theta Xi Fraternity."

The combined staffs will serve the Fraternity's 68 chapters. Theta Xi will boost ground floor space, used as a study area, and gain significant staff resources.

The first step was a big one for Bollivar Shagnac, who described the lack of lighting at the rear fire escape to Deming Hall. He didn't think much more about it after all.

"Slam" Leads Frosh Grid Prospects
Viceroy Giving $900 to Any Poly Students
Card Shacks Develop Play
By L. Thomas
The first round of qualifications for the Rose Poly Gridiron Grid Team was held Wednesday, October 10. There will be another test on Tuesday, October 16 in which the following six men came out behind.

The teams entered for the championship are: John Busby and Don Daniel, Jim Harmon and Don Durham, and Ron Anderson and Bob Brown. Larry Hall and John Webster finished the latter part of the 19th century. Interact should see Captain Kelly.

Campus Improvements
The Office of Environmental Design is at present engaged in a three phase program of renovation. The first phase of which was completed this past year.

The testing Lab is now located entirely in the east section and the equipment has been enclosed on the west side. A single office that formerly served two in order to give each teacher a more comfortable space.

The second phase, now under consideration, would consist of a basement addition 2000 square feet under the west side of the lab. This new area would contain a 50 to 60 student seminar room with projection facilities, a control room, a control room, a control room, a control room, a control room.

The third phase would be the addition of a small computer laboratory into the east basement area.

Another improvement to the campus is the use of the extended phone service. A new rewired telephone system has been installed. The capacity of the old key board has been augmented with twenty additional phones and facilities for about ten more. The old key board will be replaced when necessary.

The materials testing lab is now ready to be used. The department can reen as well as around campus.

There will be a total of four contests to be played for the championship. The contests are sponsored by the Brown & Williamson Tobacco Corporation, manufacturers of Virginia cigarettes.

By L. Thomas
The first round of qualifications for the Rose Poly Gridiron Grid Team was held Wednesday, October 10. There will be another test on Tuesday, October 16 in which the following six men came out behind.

The teams entered for the championship are: John Busby and Don Daniel, Jim Harmon and Don Durham, and Ron Anderson and Bob Brown. Larry Hall and John Webster finished the latter part of the 19th century. Interact should see Captain Kelly.

Campus Improvements
The Office of Environmental Design is at present engaged in a three phase program of renovation. The first phase of which was completed this past year.

The testing Lab is now located entirely in the east section and the equipment has been enclosed on the west side. A single office that formerly served two in order to give each teacher a more comfortable space.

The second phase, now under consideration, would consist of a basement addition 2000 square feet under the west side of the lab. This new area would contain a 50 to 60 student seminar room with projection facilities, a control room, a control room, a control room, a control room.

The third phase would be the addition of a small computer laboratory into the east basement area.

Another improvement to the campus is the use of the extended phone service. A new rewired telephone system has been installed. The capacity of the old key board has been augmented with twenty additional phones and facilities for about ten more. The old key board will be replaced when necessary.

The materials testing lab is now ready to be used. The department can reen as well as around campus.

There will be a total of four contests to be played for the championship. The contests are sponsored by the Brown & Williamson Tobacco Corporation, manufacturers of Virginia cigarettes.
SOPRINT SPORTS WRAP-UP

The final All-Intramural standings for the 1961-62 season showed the Sophomores the winners with 332 points. The Seniors finished second with 317 points. The Juniors third with 181 points and the freshmen last with 187 points.

While posting their win, the Sophomores gained firsts in volleyball, softball, and the basketball tournament and seconds in basketball and bowling.

The Deming team won the freshman intramural championship.

Below are the results of the 1961-62 intramural competition:

THE ROSE TECH EXPLORER—OCTOBER 12, 1962—7

Rifle Team Opens Against IU

Interfraternity football advanced into its second week with Theta Xi's 19-14 victory over Sigma Nu last Saturday and its post-shooting victories. Thursday, September 27, Theta Xi won the Sigma Nu in the Rifle Club by the incoming freshman class. Already so many freshmen have joined the club that coach Kent Kellly is finding trouble in getting everyone scheduled to fire on the range. During the first week of school the club membership swelled to 25 in a bursting 42. Two freshmen but shots have already been placed on the varsity team. They are Steve Childwrod from Vortnon, Indiana and AI Jones from Virdon, Indiana.

Returning lettermen are Greg Holt, Larry Anderson, Marvin Barke, John Snipes and Grady Wallace.

Having lost only two from last year's varsity team, Camp Kelly is looking forward to a greater depth in shooting strength this year. Many of the new freshman shooters are improving quickly and will supplement the varsity team in the near future. Due to the lack of enough range facilities, Camp Kelly regretfully has had to begin turning down permission for membership. He hopes that within the next few weeks a schedule can be worked out so that all those who desire membership in the club will be able to use the range.

SPORTS PAGE! ROSE WINES! ENGINEERS STOMP EUREKA- 20 - 12

by Jerry Zinngrabe

Homecoming prospects for Rose this year look considerably more favorable than they have for the past three seasons. Saturday Rose snapped a thirteen game losing streak, defeating Eureka by a score of 20-12. Rose's band scored a point on a pass on the 48 yard line, and put it out of Eureka's reach. Dike Holobaugh takes an Illinois linebacker out of play after a two down gain.

The sports staff of the Explorer proud of the class of "66" to Rose. Each newspaper this edition will comment on sports at Rose. This week it will explain the intramural programs of the year.

Rose offers one of the finest intramural sports programs of any college in the nation. In fact, this writer would 'rather be Red than dead' by any college in the nation, but only Rose could ever have the band. The R.O.T.C. band as an instructor. This year's band has hit- tered its ranks with more fresh- men, most of whom have had some experiences in high school marching bands. The increased man-power has given the band more force and crisp. This volunteer group has worked hard and put in many extra hours of prac- tice to live the sports at our home games.

The Rose Rifles will add their snappy precision movements to the halftime show. Cled in black Eisenhower jackets and trousers with white pistol belts and helms, the "Rifles" provide a sharp contrast to the pretty little imita- tions. It is also true perhaps that your high school band put in many extra hours of prac- tice to give the show a little more force and zip. This volunteer group has worked hard and put in many extra hours of prac- tice to live the sports at our home games.

**MILITARY BAND AND ROSE RIFLES TO SNAP AT HALF-TIME**

This year's Homecoming half-time will be highlighted by the debut of the R.O.T.C. band. The Rose Rifles Drill Team. Drum major John Kuhn, a sophomore, put his band through its musical and marching routines. John Kuhn, in cooperation with John Kuhn and Mr. Leslie Bash has written the band's part of the show. Mr. Bash, band dir- ector at Wiley High School, has helped the R.O.T.C. band as an advisor. This year's band has hit- tered its ranks with more fresh- men, most of whom have had some experiences in high school marching bands. The increased man-power has given the band more force and crisp. This volunteer group has worked hard and put in many extra hours of prac- tice to live the sports at our home games.
