## About the Cover

The photograph on the cover of this directory is a reminder of Rose-Hulman's tradition of a laboratory intensive education. The photo is of a physics laboratory in Rose's first home at 13th and Locust streets in Terre Haute, Indiana. The college quit using that building for classrooms when it moved the campus to its present location east of Terre Haute during 1922. The location may have changed, but the college's philosophy of a "hands-on" approach to education continues today.

**Echoes** is published quarterly by Rose-Hulman Institute of Technology at Terre Haute, Indiana 47803. Publication number 470700. Second class postage paid at Terre Haute, Ind.

It is the policy of Rose-Hulman Institute of Technology to admit students on the basis of their academic ability. Rose-Hulman does not discriminate with regard to race, color, creed or national origin.

The Institute does not discriminate on the basis of handicap in admission, or access to, or treatment, or employment in its program and activities.

## Rose's best ambassadors

# Alumni Can Help in Placement Effort

A quick glance through this directory shows that Rose graduates are sought by numerous corporations and businesses throughout the nation and the world. More than 2,000 different companies are represented on these pages, and alumni are located in 50 states and 30 foreign countries.

Through the years, the performance of Rose graduates in the workplace has enhanced the college's reputation with corporate recruiters. This year, the Office of Career Development and Placement, under the direction of William Sisson, is asking your help in maintaining the excellent Rose-Hulman placement rate.

The past year was no exception to the college's success in placement. By mid-summer, 99 percent of the Class of '85 had found employment. More than 400 company interviewers converged on campus during the 1984-85 school year. This year's graduates were sought by industry, government and the nation's leading graduate schools. The average number of interviews per student was 17.

The average yearly salary for engineering graduates was a handsome \$27,000, and science majors attracted an average salary of \$28,400 a year.

"Needless to say, we are pleased with our placement success, but it is our job to find as many opportunities as possible for our graduates and that is where our alumni can help," Sisson said.

Alumni in larger corporations not now recruiting on campus make up one avenue of potential. As they enter more influential positions, they can make their superiors aware of Rose-Hulman and its potential in providing up-to-date engineers and scientists.

Those alumni working in smaller business also can help by notifying the Placement Office of potential or existing job openings. "We realize many of the smaller businesses cannot justify the expense of sending recruiters around to college campuses," Sisson said. "However, we still can help them with their employment needs. Representatives of smaller businesses should send notice of a job opening to my office. We'll post the notice and forward the credentials of any students expressing an interest in the job."

The importance of the smaller business as a hiring source is found in the pages of this directory. There

are 2,095 companies represented on these pages. Approximately 1,900 of them have less than five Rose-Hulman alumni in their working forces. "That number of employers only hiring one and two Rose-Hulman graduates indicates a market for engineers that is not necessarily advertised and it does not justify a campus visit," Sisson said.

"We teach students how to search for a job, but it comes down to how do they determine their contacts," Sisson said. "We're asking alumni to help increase those contacts because of their loyalty and because we still have a tight job marketplace."

"Rose-Hulman has a good on-campus recruiting schedule and we hope to continue expanding that base, but we don't want to limit our students to those recruiters visiting the school," said Alumni Director James L. Schwartz ('54, M.E.). "We want to build on the reputation of our alumni. They're our best ambassadors in the corporate and business world."

For more information about how you can help your alma mater in career placement, contact Sisson or Schwartz at Rose-Hulman Institute of Technology, 5500 Wabash Avenue, Terre Haute, IN 47803, or call 812/877-1511, ext. 211.

Alumni of Rose-Hulman Institute of Technology continue to form a diverse group as shown by this annual Alumni Directory issue of Echoes. The following pages list more than 8,060 alumni, where they are and what they are doing.

While every effort is made to obtain the most up-to-date information through the annual alumni survey, not all listings in this directory will be completely accurate because of the tendency of Rose alumni to be men on the move. Each year approximately one-third of our alumni report a change in position, address or additional degrees.

Alumni finding information to be out-of-date or in error, are requested to correct this information and send it to Rose-Hulman by use of the business reply cards available in the back of this publication.

## Rosie's Recruiters

We want you to join Rosie's Recruiters. In order to become a member of this highly selective organization which does not collect dues nor hold lengthy meetings, all you have to do is refer the name of a potential Rose-Hulman student to the Admissions Office. The student may be a relative, neighbor, friend, your paper boy or the son of a business associate. The Admissions Office needs your assistance in identifying high school juniors and seniors as prospective students for Rose-Hulman. If you will provide us with the names and addresses, we'll send these students the appropriate literature. Rose-Hulman is one of America's best kept secrets, but with your help we can get the word out about the quality of our educational program and very special campus environment. Join Rosie's Recruiters today! Become a part of our admissions effort. For your convenience, please use the adjacent postage paid referral card. Thanks for your assistance.
