Disclaimer: Archived issues of the Rose-Hulman yearbook, which were compiled by students, may contain stereotyped, insensitive or inappropriate content, such as images, that reflected prejudicial attitudes of their day—attitudes that should not have been acceptable then, and which would be widely condemned by today's standards. Rose-Hulman is presenting the yearbooks as originally published because they are an archival record of a point in time. To remove offensive material now would, in essence, sanitize history by erasing the stereotypes and prejudices from historical record as if they never existed.

This Book is brought to you for free and open access by the Student Newspaper at Rose-Hulman Scholar. It has been accepted for inclusion in The Rose Tech Explorer by an authorized administrator of Rose-Hulman Scholar. For more information, please contact weir1@rose-hulman.edu.
**Summer Improvements**

This summer at Rose Poly has seen vast improvement in our beautiful campus. The administration felt that the time had come for the enlargement of the educational facilities of this school.

The old Maintenance Shop, where Mr. Makely used to hold classes with a step ladder for a podium, was the first object for changes. In the east half of the old shop, there was constructed a 250-seat lecture room. This room is built on the ideas of the Physics lecture room, with the desks hinged on a track type arrangement. Although this is not completed yet, supposedly it is to be air-conditioned and carpeted with the desks bolted to the floor. There is to be an experimental laboratory table in the front of the room and a large chalkboard with facilities for an opaque projector. This lecture room will cover both purposes.

On the west side of the new lecture room on the first floor is to be a large study area. Tentative plans include the placing of chalkboards along the walls and the partitioning of the area by partitions, which would facilitate use by lab groups. Also included is to be an area for individual study.

On the second floor of the west side of the old Maintenance Shop is a new cafeteria. The cafeteria is a modernized, comfortable facility that will be a center of student life and a place of social interaction. The room is equipped with modern appliances and seating arrangements to accommodate a large number of students.

The new structure for the government is based on the federal government with the three branches—Executive, Legislative, and Judicial. The Executive powers are vested in an Executive Committee consisting of the Executive Officers and the Administrative Committee. The Executive officers are the president and vice-president and are elected annually in general elections held in the spring, while the administrative officers, the Secretary, Treasurer, and Historian, are appointed by the president.

The Judicial Committee of the Institute has the power to place a student on probation or suspension for more serious actions. Any cases where the violations of the Traffic Code will be decided by the Traffic Court. In the event of further cases, the institute will institute a new and better tradition. Welcome to Rose Polytechnic Institute.

**COLOUR'S COLOR? OR HELICOPTERS FOR RENT**

Parking regulations for 1964-65 concerning the use of parking stickers are listed below. Parking stickers should be displayed on the right rear fender so as to show a true pride in Rose Poly and its long-standing traditions such as parking stickers.

1. Colour: Pinks, Issued to: Faculty, Parking area: West of Main Building: East of Main Building.
2. Colour: Presidential Purple, Issued to: President, Parking area: West of Main Building. North of Side Entrance, South of Main Parking Area and East of Large X.
3. Colour: Maconching Maroon, Issued to: Dean of Faculty, Parking area: East of ERE Lab in Middle of Sidewalk.
4. Colour: Secretarial Scarlet, Issued to: All 520 secretaries and lower ranking Administrative members, Parking area: West of Main Building and South of Side Entrance.
5. Colour: T-Bird Tangent, Issued to: Director of Speed Hall, Parking area: East half of Parking Lot South of Speed Hall.
7. Colour: Chicken Yellow, Issued to: Freshmen, Parking area: Around Student Center.

EDITORS NOTE: The above article was written by an "anomalous, disgruntled Rose Senior protesting ridiculous practices."

**Annie**

**GOOD GUYS**

We looked high and low and finally decided that this week's Good Guy award should go to that hard worker with the charming smile behind the counter at the Student Center.

Annie has been associated with Rose Poly for almost ten years (we wondered how she could stand the students for that long). She seems to love everybody, and it is common knowledge that she manages to take the students mind off the pressing matters of the day for a few precious moments.

When interviewed, Annie’s only comment was “Tell everybody that the hamburger business is great.”

We gathered at Fort Riley, which was being turned over to the regular cadets and will be the Rose Battalion Commander with the rank of Cadet Major. Attention Frosh: Please salute this man.

**ELMER GUERRI**

**CHUCK EAKER**

Senior Mechanical, works out on the Bayonet Field.

Ron Chapman. Senior Electrical, gives thru “Train Fire”—and the blanks here are real.

Summer camp for the Rose Cadets began on June 15, and ended on August 1st of this year. We gathered at Fort Riley, which is located in the heart of Kansas, and 1960 men took part in the

Intensive and interesting training. The pictures above were taken by the U.S. Army Photographic Service and although they are not reproduced in color, are mainly green or at least olive drab.
TRAGEDY'S COINCIDENCES

* Both President Lincoln and President Kennedy were concerned with the issue of Civil Rights.

* Lincoln was elected in 1860 and Kennedy in 1960.

* Both presidents were slain on a Friday and in the presence of their wives.

* Their successors, both named Johnson, were southerners favoring un-employment of their wives.

* Andrew Johnson was born in 1808 and Lyndon B. Johnson in 1908.

* John Wilkes Booth and Lee Harvey Oswald were both named John.

* John Wilkes Booth was born in 1839, Lee Harvey Oswald in 1939.

* Booth shot Lincoln in a theatre box.

* Lincoln was killed in Ford's Theatre.

* Andrew Johnson was named Lincoln's successor.

* Their successors, both named Johnson, were southerners favoring un-employment of their wives.

Now, for the dorms, the man-made lakes.

I got on campus August 2nd and a look around the 123 acres of lake.

Here is your chance of a lifetime to use a 200 gallon water heater. There is no need to use cold water.

Lincoln shot Booth in a theatre box.

The Great Creator has rarely produced a man without weaknesses. What makes a man buy natural resources for his company's use in poor times when the demand for his products is greatest?

Is the man who is doing the sharing a fellow who has a mean dog and you are afraid to go near him if he is not with his owner?

With this in mind, I have set down in this little book those qualities which it seems to me a man must have if he is to make a good executive. I have listed 24 points. I would not expect anyone to rate 100 per cent, and I don't even know that perfection in a man is desired. It would merely mark him as the best of his type.

The points are listed for self-analysis and for the evaluation of executives. I amplify them and give examples.

WHAT IS AN EXECUTIVE?

A man who has ambition and ability.

he has to have absolute integrity, or it does not matter what he has.

Of course, he must be willing and able to work, or it does not matter what else he has.

he has to be objective. If an executive's method of thinking can be described in one word, this would be it.

he has to have leadership, which is hard to define, but may be described as that quality in a man which makes others do what he wants them to do.

1. COURAGE.

To get courage and bravery mixed up. If a neigh- bor has a mean dog and you are afraid to go in his yard, this is bravery, if you are a afraid to shout "get your dog, man,

any way, this is courage. Courage is what makes a man buy natural resources for his company's use in poor times when the demand for his products is greatest.

2. IMAGINATION.

Most of the good things civilization has achieved are the result of somebody's seeing, in his own way, how to do something better, or make something more generally useful.

Without imagination an executive cannot foresee the good things the future may hold. With out imagination he is not able to put himself in another man's place, and see what he can do to make the man happy.

3. HE MUST DELEGATE AUTHORITY AND RESPONSIBILITY.

If he does not do this, there is not enough time to accom- plish anything.

4. HE MUST CHECK, AFTER THIS DELEGATION TO SEE THAT RESULTS AND PURPOSES ARE MET.

He must have progress reports and he must be able to tell if the results and purposes are being accomplished.

5. HE MUST EVALUATE THE EXECUTIVE'S PERFORMANCE.

A busy man, a busy man, does not have time to be careful with his correspondence. He must make a judgment, a general, or a sub- ordinate, and in most cases tell him the reason why he wants it done. Otherwise, it is likely to get all mixed up.

6. HE MUST NOT MAKE AN UNCONSCIOUS DECISION, UNLESS HE IS SUBCONSCIOUSLY BASED ON COMPLETE INFORMATION.

A statement may often be the basis of important action. If based on incomplete information, results may be disastrous.

10. IF SOMETHING TURNS OUT ESPECIALLY BAD, HE FINDS SOMEONE TO SHARE THE CREDIT. IF SOMETHING ESPECIALLY BAD, HE FINDS SOMEONE TO TAKE THE BLAME.

You tell me who takes the responsibility for the errors and I will tell you who is the boss.

11. HE MUST BE A GOOD LISTENER.

I have a prayer, "Oh Lord let me know that I do not care to speak on every subject that is bruited.

12. HE MUST NOT TAKE HIMSELF TOO SERIOUSLY.

A statement may often be the basis of important action. If based on incomplete information, results may be disastrous.

13. HE MUST NOT ALLOW HIMSELF TO BE DISCOURAGED.

Even the inevitable can change. Even the seemingly impossible can be accomplished.

14. HE MUST DO WHAT HE SAYS HE IS GOING TO DO, EVEN IN A CASUAL STATEMENT.

This separates the men from the children. I know men who, if they told me casually, "I will write you a letter about that tomorrow," and I didn't receive the letter, I would send fishermen, I would know they were dead.

15. HE MUST NOT MAKE AN UNCONSCIOUS DECISION, UNLESS HE IS SUBCONSCIOUSLY BASED ON COMPLETE INFORMATION.

A statement may often be the basis of important action. If based on incomplete information, results may be disastrous.

16. HE MUST NOT ALLOW HIMSELF TO BE DISCOURAGED.

Even the inevitable can change. Even the seemingly impossible can be accomplished.

17. HE MUST NOT MAKE AN UNCONSCIOUS DECISION, UNLESS HE IS SUBCONSCIOUSLY BASED ON COMPLETE INFORMATION.

A statement may often be the basis of important action. If based on incomplete information, results may be disastrous.

18. HE MUST NOT ALLOW HIMSELF TO BE DISCOURAGED.

Even the inevitable can change. Even the seemingly impossible can be accomplished.

19. HE MUST NOT ALLOW HIMSELF TO BE DISCOURAGED.

Even the inevitable can change. Even the seemingly impossible can be accomplished.

20. HE MUST NOT ALLOW HIMSELF TO BE DISCOURAGED.

Even the inevitable can change. Even the seemingly impossible can be accomplished.

21. HE MUST NOT ALLOW HIMSELF TO BE DISCOURAGED.

Even the inevitable can change. Even the seemingly impossible can be accomplished.

22. HE MUST NOT ALLOW HIMSELF TO BE DISCOURAGED.

Even the inevitable can change. Even the seemingly impossible can be accomplished.

23. HE MUST NOT ALLOW HIMSELF TO BE DISCOURAGED.

Even the inevitable can change. Even the seemingly impossible can be accomplished.

24. HE MUST NOT ALLOW HIMSELF TO BE DISCOURAGED.

Even the inevitable can change. Even the seemingly impossible can be accomplished.
ED NOTE: This paper was written by Bon Gessel and was submitted to Prof. Gordon Haist (Mumbles) for the course General Semantics last May. Mr. Gessel (Guzzy) received a grade of "A" on this paper because of his ability to clearly express his thoughts without overloading the composition with words not suitable for print.

The layout staff, on proof-reading the copy, agreed that the material was very accurate, if bias was present.

This paper deals with the slang which is peculiar to Rose and its significance in the life of the student. However, the opinionated author has tried to gather the opinions of many students and condense them in this paper. To this end, he has tried to get a typical cross-section of Rosemen and women, and could be covered in the time allotted to the author. However, the opinions and words used by the students were not necessarily to be used by the reader. This is a term used to describe the slang of the students, because they seem to be a very good pros-generator.

The author tried to stay away from the common slang of college campuses and give a large amount of it found at Rose, filled with good, off-joke, and usually not as wordy, and detailed as an official on campus.

In the evaluations, the author tried to stay away from the slang that something was good or bad, but by the teachers, he found it impossible to do, to all the instances, not only the slang words, but the slang, a slang that was taken into consideration, not only any reference to slang was used in dealing with the student, and especially used in the Fall when slang terms refer to the true feelings from the "outside" world. There are two terms that are discriminatory, however. The Rose Family has in the past and occasionally, good sports, but recently the Family is referred to as the Rosemen, with the latter being a member of it. These slang terms refer to last year! Ed's. note; he calls this the armpit of America, and usually refer to it as the rat hole. A very common device in slang, is the slang references as a whole. This reference to wo-This reference to woman is usually called the Building or the Hill if one is at the Field House, and the Hill is the Building, and it is considered a good place to visit all activities. This accounts for the slang terms used. Many students are introduced to slang in Freshman year in program's making of the Union Building, and a slang term used in defiance of the Dean of Students, and especially used in the Fall when slang terms refer to the true feelings from the "outside" world. There are two terms that are discriminatory, however. Dr. Morris Ostrofsky, the new head of the mathematics department, received his PhD. from the University of Wisconsin in 1937. He also spent one year at the Institute of Advanced Study in Princeton, N. J. Immediately before coming to Rose, Dr. Ostrofsky was the director of mathematics and sciences at the Western Electric Defense and Space Center in Baltimore, Md. He had transferred there from the position of manager of the mathematics department at Western Electric in Pittsburg.

When asked what his plans were for the future, Dr. Ostrofsky stated that he planned to strengthen the program not only for the math majors, but also for the engineering disciplines as well as those in the chemistry and physics curricula. He also would like to offer some new courses in the near future.

When asked what control he would exercise over the department, Dr. Ostrofsky said that the way a course would be taught would be left entirely to the individual instructor; however, in a case like freshman math, where several instructors would be teaching the same subject, he felt that a common agreement as to how the subject would be taught might be reached among those instructors involved as to how the program not only for the math majors, but also for the engineering disciplines as well as those in the chemistry and physics curricula. He also would like to offer some new courses in the near future.

Cadets Commissioned

Fort Riley Kansas (ROTC 20) N July 1964 — A commissioning ceremony was held at Fort Riley ROTC summer camp this morning with approximately 150 cadets being commissioned in the United States Army. Approximately 600 cadets from 34 colleges and universities throughout the USA entered summer camp in final review culminating the six weeks of accelerated and intensive training, which is designed to develop the highest potential qualities of leadership and competence in the prospective young second lieutenants. The following cadets from Rose Polytechnic received commissions as second lieutenants in the United States Army: R. B. Kersh, Victor R. Ord, C. A. Rohr, John A. Ord, C. W. Wink, John M. Eng, Wright, Edward A. All. For squad members. Last year the team debated against 37 different colleges and universities while attending tournaments at Indiana State, Butler University, Purdue University, Western Illinois, and Western Kentucky College of Louisville, Ky.

Last year the team debated only in novice tournaments, but will add to the schedule this year by entering several variety tournaments as well. The national topic for debate this year is —Resolved That the Federal Government should establish a national program of public work for the unemployed.

Debate Team Enters Second Year

The SFL debate team will embark on its second full season this year. This year's nucleus of one senior and several sophomores is expected to be bolstered by a good crop of outstanding freshmen. Since the team is in only its second year, there will be an unusually large number of openings for squad members. Last year the team debated against 37 different colleges and universities while attending tournaments at Indiana State, Butler University, Purdue University, Western Illinois, and Western Kentucky College of Louisville, Ky.

Last year the team debated only in novice tournaments, but will add to the schedule this year by entering several variety tournaments as well. The national topic for debate this year is —Resolved That the Federal Government should establish a national program of public work for the unemployed.

Senior Spotlight

DAVID Y. PRICE

David Y. Rice is the subject of this week's SPECTRAL "SENIOR SPOTLIGHT"! The first of this series, Dave is a Senior Mechanical Engineer who entered with the Class of 1964.

Dave first began his career which led to his picture appearing in this series in 1962 with a promotion to the position of Advertising Manager on the Rose TECHNIC. A few months after this step up the ladder, Dave was drafted as Business Manager of the Rose Tech EXPLORER, the B. R. (Bureau Researching) ROSE SPECTRUM. In his capacity with the EXPLORER, he put the then bankrupt newspaper well into the black and even managed to put away a tidy sum in an EXPLORER bank account. Sometime after this Dave received another promotion on the TECHNIC to the position of Business Manager.

Somewhere in the middle of all these various jobs, Dave was pledged to the Blue Key where, in 1963, he was Orientation and Steering Chairman and, for the 1964-65 school year will be Secretary-Treasurer for the Chapter.

Dave is a member of the Alpha Tau Omega Social Fraternity where he served as Rush Chairman and, was elected to the office of Secretary-Niculescu Fraternity, and is now working hard as the coming Co-Chairman and planning for a "winning display" this year.

Dave hails from Cleveland, Ohio and as yet has no plans for the future but states that he is "anxiously awaiting graduation" until June.

WHAT A BALK IS

HOUSTON (UPI)—Tom Jack English, who manages a little league team called the Wolves, explained to an 8-year-old the meaning of the Balk.

"The Balk means you are not to move your foot around. He c move his foot around up considerably thereafter."

In the next play, after a few balls, "balked" by the umpire without any attempt by the pitcher to stop him, English had to trudge back to the mound. He explained to the boy he could move his foot around as much as he wanted after the pitch was delivered—especially if it meant doing some fielding. The team's fielding sharpened up considerably thereafter.

ROSE RIFLES
Roses Only
Marching Unit

The Rose Rifles—those Poly's only marching unit—is again planning to travel and compete against other college teams here in the Midwest. The Rifles also march during some football games and at half time during the basketball games. This helps them to prepare their routines for the coming spring and the drill meets.

Last year the Rifles competed with teams at University of Illinois, Purdue and Bradley. Good teams competed in their own class and marched shoulder to shoulder with the Rifles. Needless to note, there were many non-competitive opportunities after the drill meets.

If you are a completely masochist, three foxtrot, rhythmic Rosenmeier please don't try out for the Rifles. Otherwise the fun, work and enjoyment that the members of the Rifles have had, "can all be yours." You are all invited to try out. Watch the military bulletin board for any announcements or contact Major Randolph.

The Band IS BACK

The ROTC Band is a marching unit composed of basic course ( freshmen and sophomores) ROTC cadets. It is present in the Rose Homecoming, the Terre Haute Alumni Game, Homecoming and Forces' Day parades, and various ROTC ceremonies throughout the year.

All students enrolled in ROTC, who can play a musical instrument are encouraged to try out for the band. Band members are encouraged to bring their own instruments. However, instruments are available for those needing them.

The Band normally practices during the ROTC drill period on Thursday afternoon. Additional practices are scheduled when preparing for special occasions, such as Homecoming.

If you are interested or would like more information secure an application from the Military department or see Larry Duvall, the Band Commander.

THE ROSE SPECTRUM—SEPTEMBER 18, 1964

Photography Exhibition

The exhibition PHOTOGRAPHY IN THE FINE ARTS is the special exhibit open- ing the new season at the new Spectrum Art and Photo Shoppe. The exhibit will open on Sunday, September 1 and will continue for three weeks, closing on Sunday, October 4. The Spectrum Art and Photo Shoppe is one of three city art museums and galleries which exhibit this year.

This fourth exhibition of PHOTOGRAPHY IN THE FINE ARTS includes 152 photographs (66 in color) by 129 photographers. The PFA National Advisory Committee made its selection from 1,042 photographs previously judged by a number of photographic organizations and authorities. A special Committee of Invitation was formed in a desire to obtain as comprehensive a group of exceptional photographs as possible.

The exhibit was announced, opening today, by Benessm Newhall, Director of George Eastman House, and Arcel Adams and Ralph Steiner, internationally known photographers.

One of the primary activities of the Rose Rifle Club is preparing for special ceremonies, like more information secure an appointment. It is the Rifles' principal mission to serve their fellow students and enjoy that the members of the Rifles have had, "can all be yours." You are all invited to try out. Watch the military bulletin board for any announcements or contact Major Randolph.

General Slangmatics (continued)

usually slang is of one ex-
ception to this is that the stage slang usage is not this way.
When asked how one is in Rose, he
is not likely to give a name, but
sometimes referred to as the atti-
tude of the student. The slang, as
from S-‘man” to “great”, but
about half.” The common atti-
tude towards the World, true or
false, is what one is in Rose.
Slang has been one without some sort of sex relations or even just been said to be “all right to drive.” Thus, they are always looking for opportunities to drive.

The 10th of May is a cele-
bated day at Rose Poly. It’s significant that this day is not taken from an event in class a few years ago, on May 10, when an instructor said, “Hurray, hur-
ry, the tenth of May,” to liven up a class.

Academy slang is, “You drive,
but it is all right to drive. This
may be attributed to the notion
of Allness is often the result.
It shows his pitfalls of thought and
actions. The Rose man flourishes best. It points out where
the student does with this vast

Can you name the Rose instructor, administrator, or member of the campus and its activities?

1. Mumbles; 2. Dog Face; 3. Diamond Life; 4. (Omitted by Edi-
tory); 5. B. B.; 6. Plain Jane; 7. July Charlie, (a reference to a plate slang is inferred here); 8. Red Hot Lava; 9. The Pig; 10. Light-
ning or Jumping Joe; 11. Dr. Butts; 12. Mrs. Miller, who works
in Deming Hall; 13. Mrs. Shagna sty. (pronounced like Czar); 14. Boli-
er; 15. The Tank; 16. The Pig; 17. The Pig; 18. (Omitted by Editor); 19. Wimpy, Happy Hank; 20. St. John’s college in Santa Fe,
21. St. John’s college in Santa Fe, N.M. (UPI) -St.
The site for the new college is
The cultural background
found in Santa Fe with its art colony and theology center was another factor in the school’s location, officials said.
The Santa Fe St. John’s will be
the first such college to be sup-
ported, non-tax supported college
in the Southwest. Total costs for
construction, including new build-
ings and academic budget for the
coming year, is $5 million.

On 286 acres donated locally, St. John’s college will be
with its traditional environ-
ment, may be a new step toward
private school expansion in the country. Dr. Richard D. Weigle,
president for both the old and
the new college, St. John’s, com-
ments, however. He is busy set-
ring offices because of the two col-
leges he supervises. “One is in
Ann Arbor, one in San Fe, and a third in Kansas City,” he said.

The board of the new col-
eges is sprinkled with west-
erners. Dr. James E. Ryan, for
instance, is president of the new
Rolla College, and Dr. John
ernor Jack M. Campbell is one member. Mr. Ryan, a former ambassador to Bolivia, is an educator who
has taught in California, Colorado, and Georgia.

New buildings erected in the past year include nine small dormitories, a library, a laboratory and a student center. Future plans call for a library, an administrative office, a student center, and an auditorium.
