Disclaimer: Archived issues of the Rose-Hulman yearbook, which were compiled by students, may contain stereotyped, insensitive or inappropriate content, such as images, that reflected prejudicial attitudes of their day—attitudes that should not have been acceptable then, and which would be widely condemned by today's standards. Rose-Hulman is presenting the yearbooks as originally published because they are an archival record of a point in time. To remove offensive material now would, in essence, sanitize history by erasing the stereotypes and prejudices from historical record as if they never existed.

This Book is brought to you for free and open access by the Student Newspaper at Rose-Hulman Scholar. It has been accepted for inclusion in The Rose Tech Explorer by an authorized administrator of Rose-Hulman Scholar. For more information, please contact weir1@rose-hulman.edu.
Homecoming ’64

Friday and Saturday, October 30th and 31st, Rose Polytechnic institute will observe its annual homecoming celebration. With alumni returning from all over the nation to attend, a full slate of activities is in order, and Blue Key National Honor Fraternity has risen to the occasion by presenting one of the finest programs of events to be seen in recent years.

A new innovation in the homecoming program this year is the queen contest. From a field of thirteen candidates, submitted by students of the school, a group of five finalists has been chosen. This week-end, Oct. 28 and 29, the girls will chosen to reign at 9:30 a.m. on Sunday, October 31st.

The crowning of the queen will cap the activities initiated at 8:30 p.m. Addressed from Coach Martin and the co-captains of the Rose football team, Dave Hassung and Gib Bosworth, and the Rose cheerleaders, the queen contest will immediately follow the football game. Under the guidance of Pete Camilla, the master of ceremonies, every event of this exciting pep session and rally will be held in honor of the team, its captains and coaches. At approximately 9:30 p.m. one of the main attractions will begin when the2000 cigars will be distributed to 74 upperclassmen at the fall honors convocation for superior improvement, and Thomas Sprouse, winner of the Paterson medal, awarded each year to the freshman with the highest grade-point average, was won by Kim Saunders. The Hemlock scholarship last year was won by Wilfred Otagura. The Hemlock scholarship was won by Allen Stanley.

The Rose Tech campus program—8:30 p.m.

Meetings of Class Agents and Funds Committee (Terre Haute House) —4:00 p.m.

Football —Rose vs Principia—3:30 p.m.

Saturday, October 31, 1964

SATURDAY, OCTOBER 31, 1964

Alumni Open House (Terre Haute House) —6:00 p.m.

Alumni Banquet (Terre Haute House) —6:00 p.m.

Ladies Dinner (Terre Haute House) —6:30 p.m.

Homecoming Dance —10:00 p.m.

Homecoming Calendar

SATURDAY, OCTOBER 31, 1964

Registration (Auditorium) —9 a.m.

Annual Alumni Meeting (Auditorium) —9 a.m.

Football—Rose vs. Principia—3:30 p.m.

Alumni Banquet (Terre Haute House) —6:00 p.m.

Ladies Dinner (Terre Haute House) —6:30 p.m.

Homecoming Dance —10:00 p.m.

Chief of the Year

Professor Robert Steinhauser is the Chief of the Year for the academic year 1963-1964, Professor Kenneth H. Loring was awarded the award by the student body having attended the Rose Polytechnic Institute. The awards were presented by Allen Stanley, President of Blue Key. This year the candidates for the Chief of the Year were Gus Carroll, Peter Canella, David Halton, Andrew Stojak, Joseph Zamanik, and Edward Hersh. Professors of the Year were presented by Allen Stanley, President.

A special Tao Beta Pi award was presented to the student showing the greatest improvement during the second half of the present academic year.

True blue award keys.

Nomination for admission to Tau Beta Pi national honorary engineering society recognizing superior scholarship and high character were presented by Allen Stanley, President. These awards are to be presented to the students who show the greatest improvement in the academic year 1963-1964.

Blue Key

The two national honorary societies to Blue Key—Blue Key and Tau Beta Pi have been formed this year for the first time in the history of Rose Polytechnic institute. Blue Key was awarded the award by the student body having attended the Rose Polytechnic Institute. The awards were presented by Allen Stanley, President of the Blue Key fraternity of campus leaders.

Tapped for membership in Blue Key fraternity of campus leaders and executive committee activities were Gus Carroll, Peter Canella, James Kuzma, Ronald Long, Richard Osburn, Barry Melton, Richard and James Grundy, advertising. In the case of the students who show the greatest improvement in the academic year 1963-1964.

EDITORIAL

With the recent problems encountered in publishing a paper call- ing the ROSE SPECTRUM, an entirely new staff has taken over the publication and editing of a student newspaper. The EXPONENT is an entirely different and new paper than was either the ROSE SPECTRUM or THE ROSE TECH EXPONENT. The goal of the EXPONENT is as follows:

(1) As has been feared by some of the students, this newspaper will not be controlled by the faculty or the administration after all, it was the student government, not the administration or faculty that caused the editors of the now-defunct SPECTRUM to be placed on suspension because of the aspect that the EXPONENT realizes that the EXPONENT will be read by and in truth serves all groups - students, faculty, administration, etc. and has a responsibility to all of these.

(2) As its close to what we are fighting against in places like Vietnam?

(3) It is this same reason that the EXPONENT will not hesitate to attempt to analyze various aspects of Vietnam and news that directly effects the engineer and scientist.

(Continued from page 1 col. 5)

Are you wondering what the big idea to the attention of the entire editorial question mark is all about? Well, try here at Rose, write it up we, then the opinions of the candidates' character, etc. and decide who has the best man for this difficult if, not impossible point? If you feel as I do then try to build your job next Tuesday to get your points across, or you don't need any American Citizen, and VOTE, not for the man, but for the man! You feel is qualified for the job.

This means when you vote, you should have looked at all sides as objectively as possible by reading and listening to speeches and articles by and about both men and then deciding who the best man is to run your country.

I hope you make a wise choice.

Are you wondering what the big idea to the attention of the entire editorial question mark is all about? Well try here at Rose, write it up we, then the opinions of the candidates' character, etc. and decide who has the best man for this difficult if, not impossible point? If you feel as I do then try to build your job next Tuesday to get your points across, or you don't need any American Citizen, and VOTE, not for the man, but for the man! You feel is qualified for the job.

This means when you vote, you should have looked at all sides as objectively as possible by reading and listening to speeches and articles by and about both men and then deciding who the best man is to run your country.

I hope you make a wise choice.

W.C.E.

In the editorial written by the three editors and the business manager, one may have noticed that the last issue of the ROSE SPECTRUM was not condemned. We felt that the student body as a whole did not condem con the paper. Asking any one person around Rose and it is evident that most everyone was glad something was done about the issue although not all agree that the right thing was done, but friends, very little would have been done by the students had not just one man out of six hundred gathered courage enough to obtain signatures and interest the student body. This made the entire staff feel that a part of the editorial matter is justified. When they received the word from the newspaper, they were ready to change the paper.

A Pome On An
Engineering Education

Written in a Nash Rambler

It is patent to even the most casually observing alumni that the curriculum at Rose has changed. But the change in curriculum probably doesn't worry him half as much as the fact that he can't find anything since everything's been re-arranged.

For example, back in ought-eight they taught a shop course in which students learned to make useful things like Edsels and Titans. But now they teach hairy courses in quantum mechanics. (Which is as useful as garage mechanics for one never knows when one will need to repair a stray quantum.) And many courses are shoved off on students who don't even want them. The math department now teaches the methods of survival in Runach space, while in the physics department enthalpy and entropy (two old favorites) have been elevated to an even higher place. One is truly educated until he can take Maxwell's equations and this may all go to show that accrediting agencies don't feel that any derivative of electromagnetic theory is necessary for the scientist or engineer to know. It just isn't so. But we do think that somebody is gently hinting that there isn't time for becoming well rounded (whatever that may mean) to the point of being spherical. While trying to discover at the same time the nature of things terrestrial and atmospheric.

(Continued page 1 col. 4)

(Student Body President Joseph Raff, David Howlett, Donald Lundgren, Byrd Swearingen, John Lynn, Larry Sachs, John Slack.)
Mike Atkins—Senior and playing his third year for the Engineers from Kettering, Ohio.
Ben Bradburn—A real fine athlete from New York City, played baseball and three years in track at Garfield High.
Steve Mueller—A fine freshman from Munoz Prep, IL, Steve at 6 feet and 150 pounds will see a lot of action at offensive end.
John Shambach—One of the big men on the Rose squad at 6 ft. 1 in. and 200 pounds holds down the tackle spot for the Engineers from Shelbyville, Ind.
John Zededia—Another big freshman prospect from Muskegon Prep, IL, Steve at 6 feet and 150 pounds will see a lot of action.
Denny Lind of Brooklyn, Indiana, at another place on offense, he lettered his freshman, sophomore, and junior years and last year received the most valuable line- man award.
Gary, Indiana, with two letters in prospect from Mount Prospect, Ill., as starting tackle for Rose. At defensive and offensive end on the Sophomore year has lettered in football and three years in track at Garfield High.
Larry lettered in both track and football for Carver High School.
Jim Forbes of Terre Haute, lettered two years in football for Carver High School.
Charles Stewart, freshman guard from West Terre Haute, played basketball and football for Carver High School.
Terry Joyce, freshman fullback from Griffith, earned letters two of three years in football for Griffith High School.
Jirousek, John Diefenbaugh, Dave Flowers, and last but not by no means least, Gazzzy Gezel, Mr. Muglacher says, they have done an outstanding job organizing the student body and while they don't have many of the physical attributes of some of the previous Rose backfielders due to the rule changes at Garfield High School they have added color and interest to the games and their efforts have been appreciated by the members of the football team.

Mr. J. L. McKinney

Intramural Director and Cross Country Coach.

Bob made it to the goal line and the first time this year, proved to be the only team of the three to score a touchdown.

The top Senior team, and the only team of the three to score a touchdown.

The Intramural Football League, under the direction of Jim Carr, intramural director and Cross Country Coach began in September with a big bang. All the teams, four of them, each has won its first game and a considerable reduction in pains only one of which, Ben Bradburn. However, the already existing fine defensive backfield line-up for the Engineers.

BOOM

In action on Sunday, October 31, Sigma Nu pulled out of a 0-0 tie with the Lambda Chi Alpha by a score of 40-0 and pulled their third win without a loss into their possession.

Sigma Nu, in the opinion of the Engineers, may be slightly premature, but let's have some fun, and a considerable number of fans in the student body present.

Also in the past weeks a great deal of improvement has been shown by the Offensive line. Measured at West Vigo High School, David Bredesen—Freshman student manager from Tell City, Ind.

The six men (?) that you see jumping around in front of the stands are the six men that you see jumping around in front of the stands. They are Bob Blahut, a 5 ft. 10 in., 190 pound man from New York City, played baseball, football, basketball and tennis at West Vigo High School.

After the season is over, the following are members of this team; Sandy Sutton, Eddie Jirousek, Max Sibley, Sandy Burt, Tom Wattleworth, Steve Windle, Bob Wattleworth, Steve Windle, and Larry McNally for touchdowns covering 105 yards.

The six men (?) that you see jumping around in front of the stands are the six men that you see jumping around in front of the stands. They are Bob Blahut, a 5 ft. 10 in., 190 pound man from New York City, played baseball, football, basketball and tennis at West Vigo High School.
