Spring Honors Convocation Held To Present Students With Awards

Prizes, awards and honors for outstanding academic achievement last semester were presented at the annual spring honors convocation.

Alfred Mayle, Northridge, Cal., won the electrical engineering department's first outstanding student award as the electrical engineering upperclassman considered the "most outstanding on the basis of his maturity and sense of judgment, responsibility, attitude, professionalism, curiosity, initiative, extra-curricular activities and academic index (grades)."

Terrence Joyce, Griffith, Ind., won a volume of military history for "excellence."

New State Scholarship Grant Could Make The Difference

Hoosier students at Rose are eligible for scholarship aid for up to four years under terms of a \$500,000 appropriation by Indiana's General Assembly.

Here are some of the qualifications:

The student must be a U.S. citizen and Indiana resident for at least six months prior to the first academic year of the award.

He must not have passed his 24th birthday.

He must be of "good moral character."

Without a scholarship under this act he would be deterred from completing his education.

And he has "superior capacity to profit by a higher education."

More information is available from the Rose admissions office, the State Chamber of Commerce or your State Assemblyman.

New Army ROTC Scholarship Good Deal: Pays All Costs

Rose has been picked by the Army to offer a brand new full-tuition scholarship program described as "strictly fantastic."

Here's the deal:

Under the 1964 ROTC Vitalization Act the Army has 1,000 scholarships to give away — 400 for four years, the rest for two. The grants pay tuition, books and lab fees plus — and get this — \$50 a month, including summer vacations, from the first day of the scholarship to graduation, except a six-week summer camp. Then the pay jumps up to \$120 a month.

What the Army Asks

All the Army asks in return is that the accepted student meet the academic requirements of Rose, take an active and contributing part in its ROTC program, enlist in the Army Reserve for six years and accept a second lieutenant's commission and serve on active duty for four years after graduation.

Applicants for the four-year grant must be between 17 and 21 on June 30. Applicants for the two-year grant must be under 23 on June 30 and cadets in good standing in the second year of their Army ROTC training. All applicants must be male U.S. citizens who meet prescribed physical standards.

Further information may be had from the Rose admissions office or military department.

GE GIVES ROSE FIRST DIRECT GRANT

The General Electric Foundation recently gave Rose \$2,500. It's GE's first direct grant to Rose.

NASA's Webb To Be Speaker At Convocation

Surgeon-General Terry
Ex-Army Secy. Stahr
On May 1 Program

NASA's head man James Webb and U.S. surgeon general Luther Terry head the list of nationally — recognized leaders to speak at Rose Polytechnic Institute's Great Centennial Convocation, Parents Weekend, April 30-May 1.

Speaking at a special symposium Friday night in the field house will be two outstanding representatives from education and two from industry. They are Dr. Elvis Stahr, president of Indiana University and Secretary of the Army under Pres. Kennedy, and Dr. John Warner, recently retired president of Carnegie Institute of Technology. Also James Donnell II, president of Marathon Oil, and Robert Becherer, board chairman of Link-Belt.

Webb, administrator of the National Aeronautics and Space Administration, and Dr. Terry will speak at the convocation Saturday morning. All will be awarded honorary degrees at that event.

Theme of the weekend convocation has been announced as:

"Speaking in Tones Many Generations Will Hear."

Dr. Charles Thompson, Rose's first president, used these words in his inaugural speech nearly 100 years ago.

New U.S. Work-Study Grant Will Help Neediest Students

Rose received a \$2,565 federal grant to establish a new work-study program during the spring semester.

This is in addition to the nearly \$18,000 a year Rose pays to about 20 per cent of the students who work part-time for the school to pay college bills.

The grant from the U.S. Department of Health, Education and Welfare was made possible by the recently passed Economic Opportunities Act. The program is open only to students who need financial assistance to attend college.

Six students were immediately enrolled in the program. Funds are available for six to eight more. Students work up to 15 hours a week during the school year. The grant pays 90 per cent of their wages; Rose pays the rest.

Government, Industry And Education Leaders To Lead The Great Centennial Convocation

Continued from Page 1

Then he was paying tribute to Rose's founders, leaders in bringing science and engineering education over the Alleghenies to the heart of the new nation.

In choosing the same words to keynote this equally historic occasion, Rose is describing the impact its campus development and new academic program will have in "preparing liberally educated scientists and engineers for responsible leadership in modern society."

Other weekend events include the President's Review of the ROTC, rescheduled for Saturday at 10 a.m. Awards to outstanding cadets will be presented at the ceremony.

A buffet lunch in the field house will follow the Saturday convocation.

Saturday afternoon activities include a tennis match and baseball double-

header with Illinois College. At 3 p.m., the first performance of "Inherit the Wind" will be given by the new student drama club. A second performance will be given at 8 p.m.

The annual meeting of the Parents Association is set for 9 a.m. Saturday, to be preceded by a coffee hour. Rose will hold open house all afternoon.

READING IMPROVEMENT COURSE

A non-credit reading improvement course is being offered twice weekly this semester to volunteers who want to improve their reading rate and comprehension. Rose guidance counselor John Heetderks is the director. Textbooks are Marvin Glock's "College Reading" and Paul Witty's "How to Become a Better Reader," both paperbacks.
