Disclaimer: Archived issues of the Rose-Hulman yearbook, which were compiled by students, may contain stereotyped, insensitive or inappropriate content, such as images, that reflected prejudicial attitudes of their day—attitudes that should not have been acceptable then, and which would be widely condemned by today's standards. Rose-Hulman is presenting the yearbooks as originally published because they are an archival record of a point in time. To remove offensive material now would, in essence, sanitize history by erasing the stereotypes and prejudices from historical record as if they never existed.

This Book is brought to you for free and open access by the Student Newspaper at Rose-Hulman Scholar. It has been accepted for inclusion in Technic by an authorized administrator of Rose-Hulman Scholar. For more information, please contact weir1@rose-hulman.edu.
Merom Is Overwhelmed
In a Slow Football Game

Rose Seconds Pile Up 41 Points

Rose vs. Merom.

Merom came up to expectations. Rose defeated the little college from down south with the substantial score of 41-0, playing second string men in all but the last quarter. With the score of 41-0 given out, the 'Rose' fans and students burst into a loud cheer that would have frightened a horse in the stable. The game took place at the south-east corner of the campus. The Rose team, led by the school's greatest running back, the most famous running back in the state, had set in place. It is a bronze casting of the style and hour -old, and beloved by all, adds quite a bit of decoration to the campus.

The jinx is still with us. Rose lost to Earlham by the score of 7-6 after putting themselves in every department of the game. The jinx started with a rush and scored after a long forward pass, Reinhard to Besee at the five-yard line. It looked like an easy victory for the Rose team, but their chances were turned down on a fumble by a Earlham player. The Rose team had the ball at the start of the game, but did not make any headway. Earlham came around to the corner in the first half, but did not score. Earlham on the second half, but did not score either. Earlham on the third half, but did not score either. Earlham on the fourth half, but did not score either. Earlham on the fifth half, but did not score either. Earlham on the sixth half, but did not score either. Earlham on the seventh half, but did not score either. Absent-minded Prof. L. Forshutsch was traveling in the East. When the conductor came to take up his ticket, he could not find it. So the blue-coat individual passed on, saying he was going to get it later. The conductor returned, finding no ticket.

NUMER I

The Senior Chemists have formally petitioned Dr. White to allow them to replace their "normal solutions" by "Dedert’s blue stock". Prof. Hazeltine finds it necessary to walk to get to school on time.

Football stock at Indiana State Normal took a decided jump last week with Harry Klabin’s success on the prac-
cice at Parson’s Field. Mr. Kralos was Billy’s sister, who was about to study for the next season. He proved himself as a field scholar at the North Rich street institu-
tion. Young Kralos is out for a backfield position and has an excellent chance to make good because of his unusual agility. He will sleep in the smallest possible crevice in the oppo-
site line. Then if he is tackled he will fall half-way to the goal.

Doublets everyone has heard of the now famous Rose short course, but professor and friend Alex Kolinsky has ever hit upon the novel idea of going through Rose backwards. Last year Kolinsky carried several hundred credits but this year he is a freshman. By diligent study he hopes next fall to enter Gar-
cer of the students immediately bus-
ies and press to his ride his mot-
cycle from his home to the Instit-
ute.

Ralph Cramer, ’23, experienced con-
siderable trouble on the return trip from St. Louis. He searched through the berths in three different Pullmans trying to find a hammock that was large enough for him to sleep in. He finally had to spend the night on the floor.

There is still some question as to whether the members of the Normal team will be awarded an "N" or a "J" at the end of the present season. How-

er it is thought that some novel com-
dition of the two letters will be devised by some of the brains of the School.

Quite a distressing incident oc-
curred on the Rose campus last Wednesday evening. Mr. Gilbert had ordered secret orders for practice the next day, and several of the students immediately bus-
led themselves with chasing young boys from the campus. One group of particularly ravenous freshmen decided to erect Frank Stockmaster from the field, as an unattractive onlooker. Of course, young Stockmaster stoutly maintained that he was a Rose student, but his size was against him and the freshmen who made the charge would have been forcibly expelled from the field had not Jesse Dowen, chief of the team, intervened in his behalf. As it was, Stockmaster was highly indignant and walked off muttering some unkind words about the unsophisticated Frosh.

It has been reported that Prof. Thomas has done the impos-
tion. He is teaching Watson some-
thing. Watson was observed daintily sipping a place of chalk in Eleg-
cracy recently. It is rumored that Prof. Thomas will receive a doctor’s degree in recognition of this stellar piece of work.

It has been said that Prof. Thomas greatly prefers nine O’clock classes be-
cause they are going fine in his second hour. He did not see his way to walk to get in school on this.

THE WOOLWORTH TOWER—the tallest office building, the Equitable—the largest, the Singer Building—in fact most of the buildings that make up the best known skyline in the world, are equipped with Otis Elevators. You people realize the amount of wealth of Manhattan Island that is due to the creation and development of modern vertical transportation by the Otis Elevator Company, New York City, could not grow wider hemmed in as it was by the two rivers and the bay. It had to grow upward. And now, the Otis Elevators in New York City carry daily more than twice the number of passengers carried by all the trolley lines of New York—subways, surface, elevated and railroads. Nothing short of a book would adequately tell the story of Otis in New York alone.
