ENGINERS LOSE FIRST 
OF CITY SERIES, 9

Earlham College Picked to Win Annual Classic on 
Rose Field With Franklin and Rose Strong 
Contenders—Normal Engineers and Butler Best 
Tennis Bets.

For the first time in five years Rose 
and Men Teutans will have the opportunity of seeing I.C.A. L. track 
athletes in action in the annual track and 
field meet at Reinhart Field this fall. 

A week ago Friday we all wit- 
nessed rather hard hit on the old 
diamond and it falls to the lot of this 
scribe to describe the outcome of that sad 
affair. Again, the hosts of that nearby 
Institution that had their hearts set on a 
win in the last year or two appeared upon 
the neutral diamond in that same manner 
and after a long effort to force the lowering of the rose 
and their own blue colors. About all that I can say 
of the game is that from the neutral 
point of view it was a pretty bad 
affair and after a big disappointment to a 
Rose enthusiast.

To those of the alumni readers we 
will now make known the fact that the 
Normal engineers have granted club 
certificates to members in Wilmington, 
Delaware; Beulah, North Dakota; 
Wynkoop; Helena, Montana; Hornell, N. Y.; 
Vanceville, Pennsylvanial and South 
Dakota State College, Brookings, S. Dak.

The Grand Rapids (Mich.) 
Engineers have granted club 
certificates to members in Winona, 
Minnesota; Yankton, S. Dak.; 
Cheyenne, Wyo.;																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																																												
to the championship of the ball in which it so

HIGGINS'
When You Think of Flowers,
A professor called Albert Parrot Told his class they were going too hot.
He assigned forty pages
They flew into rages.
And told Albert just where he could put it.

A SENIORS THANKSGIVING
Diploma fees, invitations,
Costs attending graduations—
Each time I pay, my heart grows glad.
It’s not too late to still cook Dad.

“What makes that red spot on you?”
“Glasses.”
“Glasses of what?—Burr.
It (at the box office)—Have you
eat left?
“Ticket Seller—Just one—U-21?
It—I am, but if it is that kind of a show
I don’t think I care to see it.
—Ex.

You’ve heard about the raisin
With the kick of ten per cent
But the raisin with the whippit
Is the raisin of the rent.

“Don’t those girls remind you of a popular brand of cigarettes?”
“How?”
“MILD, and yet they satisfy.”—Punch Bull.

Joe—Set that alarm for two, will you?
Hank—You and who else?

HAVANA BOUND
Some men used to go on their vaca
tions to get away from booze, but now
well, now it’s different—Life.

A rather serious accident occurred
last week in the wood shop. Mr. Ray
more Harris, who was busy engaged in
running a lathe when Al Standan of
fered him some of his favorite brand
of chewing tobacco. Young Harris
thoughtlessly opened his mouth to as
til the chip that was lost in the chips
from the whirling block of wood flew
into his open mouth badly choking him
and nearly causing him to swallow the chip. He got up his legs
before he had recovered sufficiently to resume his work.

A number of freshmen have been
engaged for some time in some mysteri
ous carpenter work in the wood shop.
After having repeatedly refused to ex
plain what they were about, one of them finally admitted, on cross-exam
ination, that they were building a crib
for the dormitory. At the first signal
of chewing tobacco, Young Harris
suddenly collapsed. He was carried
from the whirling block of wood flew
into his open mouth badly choking him
and nearly causing him to swallow the chip. He got up his legs
before he had recovered sufficiently to resume his work.

Mr. Stuffy Taggart, the famous ball
player, was the victim of a painful ac
cident while practicing for baseball last week. Little Elbert, who had just
missed a pop fly, was called to task by Coach Gilbert. While explaining just
how it happened, Taggart got to bat
his around the bush, and he gained
such great velocity that he skidded
into his open mouth badly choking him
and nearly causing him to swallow the chip. He got up his legs
before he had recovered sufficiently to resume his work.

He gets to see someone undress.

And whispered softly, “I love you.”

They flew into rages.

And at his head she let it fly.

ROSE TECHNICE
TERRE HAUTE, INDIANA

IN REAL LIFE
He tossed her a first cucumber pie
That it right square upon her eye.
And then she drew then a brick—
Gee! but that woman’s skin was thick.

She turned around, then to him flew,
And whispered softly, “I love you.”
He said, “I meant not to offend”—
The picture closed. “Tis the end.

atics, Modern Languages, Physical Sciences and Drawing, with thorough instructions in the Principles and Practices of
Mechanical, Electrical, Civil,
Architectural, and Chemical Engineering

FACULTY

C. LEO MOBB, Ph. D., President Emeritus.
JOHN WHITE, Ph. D., Acting President, Professor of Chemistry.

JAMES A. WICKERSHAM, M.A., Professor of Languages.

MALVERD A. HOWL, C. E., Professor Emeritus of Civil and Architectural Engineering.

ARTHUR S. HATHAWAY, B. S., Professor of Mathematics.
JOHN B. PEDDE, M. S., Professor of Machine Design.

WILLIAM D. WIDBIE, B. S., Professor of Engineering.

ARLENE C. KNIPMEYER, B. S., Associate Professor of Engineering.

EDWIN R. JOHONNIT, Ph. B., Professor of Physics.

ROBERT L. MCCORMICK, C. E., Professor of Mathematics and Associate Pro
fessor in Civil Engineering.

HAROLD A. THOMAS, C. E., Professor of Hydraulics and Associate Professor in Civil Engineering.

CARL WISCHMEYER, M. S., Professor of Shop Management and Associate Professor in Machine Design.

WILLIAM D. WIDBIE, B. S., Capt. Engineers, U. S. A.; Professor of Mili
tary Science and Tactics.

CLARENCE C. KNIPMEYER, B. S., Associate Professor of Electrical Engi
neering.

ALBERT A. PAUROT, M. A.; Associate Professor in Languages and Librarian.

ALFRED T. CHILD, M. A., Associate Professor in Chemistry.

ORION L. STOCK, B. S., Assistant Professor in Drawing and Architectural Design.

ROBERT R. SELLERS, C. E., Assistant Professor in Mathematics and Civil Engi
neering.

EVELYN L. FOX, B. A. Instructor in Chemistry.

MRS. S. P. BURTON, Registrar.

MRS. ETHEL MCCULLOUGH, Assistant Librarian.
