ROSE LOSES TO FRANKLIN

BAPTISTS NOSE OUT IN ONE OF HARDEST BATTLES SEEN ON LOCAL FIELD.

After having played the Baptists in one yard line from scrimmage, Rose went down to defeat by the score of 14 to 7. The line play was probably the hardest game to lose, for the Engineers, who were denied victory, had been outscored, and had been nosed out by misfortune.

Franklin, on the field the favor-ites and the Engineers gritted their teeth for a hard battle, the game started off with Captain Brophy win-
ing a key decision, immediately to decide the south goal. Franklin kicked, Noms receiving, a pass which failed, but on the next play Englehard made five yards and Trigg carried it down, bringing Franklin punting the punt. The ball was blown fifteen yards down, and Stansall recovered the ball. On the next play Brophy passed to Noms, but the ball fell incomplete. On the next play Englehard again punted, the punt was blown out of bounds, and the ball was recovered by Englehard. Rose recovered the fumble. On the next play Englehard kicked a 10 yard penalty, which put the ball on the Franklin field, where but one point was scored, and Louver made the block.

In the second quarter Krueckwitz made a 50 yard gain, and Stansall blocked a Franklin punt and Englehard recovered. Rose and Franklin were tied, and the game went down, and the punt was blown out of bounds, and the ball was recovered by Englehard. Reinking went in for a gain of 15 yards, and the punt was recovered by the Baptists, and the punt was blown out of bounds, and on the next play Louver lost the ball on an end run. Englehard recovered the ball. On the next play Englehard made a fifteen yard gain and placed the ball on the Franklin one yard line. The referee decided that Rose was getting too near the goal so he handed them a penalty of 15 yards, and the ball was blown out of bounds, and the punt was returned for a touchdown. Louver and the back field made a 30 yard gain. Gray went in Stansall's place. Rose recovered the ball only to lose it on a fumble. Louver and Englehard made a 15 yard gain, and Louver was down on the 20 yard line. He was down on the 15 yard line. He was down on the 10 yard line. He was down on the 5 yard line, and the ball was blown out of bounds.

The Techie Business Staff, at the annual banquet last Saturday evening, announced a plan which should provide a great value in showing our advertisement in the newspaper, and then in and proving that the student body has the interests of The Techie at heart.

In order to stimulate the showing of cards and so boosting The Techie, the Business Staff has dropped a plan that will make it worth the while of the student to make himself known. When a purchase is made, a card bearing the amount of the purchase is given to the merchant. At the end of a specified time the cards are collected and awards given the purchaser having the highest number of cards to his credit and also for the largest amount purchased.

It is hoped in this way to bring The Techie more forcibly to the notice of our advertisers.

H. A. SWARTZ TO LECTURE.

H. A. Swartz, '91, will give an it-erative lecture on "The Baseball Game on Thursday, October 30, Mr. Swartz will talk on testing and research as applied to metallurgy.

RIFLE CLUB NEWS.

Several members of the Rifle Club have qualified as marksmen at the Fort Harrison range. A few of the men who will never before fired mili-
tary rifles had some difficulty in se-
ning the "bull" on the front sight and so fell below the score necessary to put them in the marksmen class. Inci-
didentally, a few of those were experi-
ened shooters failed to put the equivalent number of bullets through the circle. The highest interest is being shown by members and it is hoped that some of the inter-service and field and "Tactical" teams will come to the Fort Harrison Club when the time comes.

ATHLETIC ASSOCIATION MEETING.

The Athletic Association held a meeting on October 9. All members were present. Brophy presided.

After an election of officers letters were awarded to Miller, Basketball K. Donahue, Reserve in Track. These are subject to Gilbert's approval.

The meeting then adjourned.

The officers were: Officers elect: President, W. W. Scholz; Vice-President, Owens; Secretary, C. S. Bozich; Treasurer, R. W. McClellan.

JUNIOR BASQUET.

The junior class decided to hold its annual banquet on Thursday night, Oct. 30, instead of Hallowe'en night as has been the custom in years past. The banquet will be held at the Wabash game. The "21" will not overlook certain ancient customs of Hallowe'en night and there will be music and some of the activities which make up the institute at an extraneous hour.

DOCTOR NOYES AWARDED.

Dr. W. A. Noyes, who will be re-

membered by many of the alumni as the President-elect of the American Chemical Society in recognition of his research work done by Doctor Noyes.

Dr. Mees will soon begin work on a complete history of the Institute from his inception to the present time. The book is to be complete in every detail and as a reference will be of great value to the students. At the banquet, Doctor Mees was presented with a silver medal by the Chicago section of the Institute.

RO. T. C.

Uniforms for Ca. A have arrived and the first issue is to be forwarded to the district quartermaster. Capt. Weid-lein has also received word that the coats will be issued as soon as possible. A privileges is expended to the members in the opportunity of purchasing uniforms through the Athletic Association. The流动ers of the unit desire to avail themselves of this privilege which will make their intentions known to Capt. Weidlein at an early date.

FRESHMEN CAPS ARRIVE.

The freshmen green cap has at last arrived and the first-year men are already wearing them. The caps are of the same style as used on the college field but are made of a lighter material. Members of the class who can afford a cap will also have one of the same style for business use.

FRESHMEN TO BE TESTED FOR SIGNS OF INTELLIGENCE.

Sometimes during the present week the Freshman Class is to be given a test in order to determine the Baltimore meeting of the Society for the Promotion of Education the result was never conducted in a manner to recommend that as a matter of experiment and research psychological work be given to all students after admission to the engineering courses and that the ratings so obtained be compared with their subsequent scholastic progress.

Rose is co-operating with the S. P. E. E. on this project. It is necessary to determine what kind of admission tests have the greatest pre-

dictive value and which methods which prove most successful will be included into one program of admission.

The tests which may be employed will be determined by a great economic value while the errors of the test are made as small as possible.

Doctor Mees To Write History of the Institute.

Doctor Mees will soon begin work on a complete history of the Institute from his inception to the present time. The book is to be complete in every detail and as a reference will be of great value to the students. At the banquet, Doctor Mees was presented with a silver medal by the Chicago section of the Institute.

ever fully recover. Making due allowances for the "Franklin" point of view we can't see just how they got that way. A feature of the Franklin game was the lack of support on the critical moments. While it is true that a few of the teams at the critical moments might have put the ball over the line, it was the mighty little school one and it deserves every bit of support that we can give it. There is no excuse for fumbling. Giving them all you've got and make it count.

FRANKLIN-ROSE.

Continued from Page 1

Elephant made ten thumbs left tackle. The ball was allowed 19 yards with an attempt at a field goal which failed. Neither of the teams was able to carry on a world-wide campaign and lose their game, and the pill was a bit of a problem. We Call for Your Work in your School to carry on a world-wide campaign.

Both Phones. We Make a Specialty of Quick Service when in a hurry, Telephone us and we will be happy to serve you. When we saw Rose go down to an easy win, we were encouraged. The University of Illinois, we thought, was not set to lose. But Rose, the mighty little school, proved to be a better team and overwhelmed our boys. **Editorial**

We want to call attention to the serious and frequent incident of recent occurrence, but hope thereby to reduce the thoughtlessness of some students. Professor Alexander C. Schuman, while extremely busy with his regular lab work, was recently annoyed and scolded by a tramp as he slipped into the bath tub. Professor Knipmeyer is giving a lecture in the classroom, his expression representing the temperature, according to the scale of Lord Kelvin, at which the radiant energy of the molecules is absorbed.

"Sunshine"—In Her Great Success

"Tillie and Co."—In Her Great Success

**Sports Report**

Ray Harris, the husky tackle of the Rose faculty, was injured in a peculiar accident. Ronald Cornwall Manson of Rose, who was not being used to prowlers, opened the door to a flying pedestrian.

**Lost and Found**

Reward if returned to R. C. Gilbert.

**Obituary**

Professor Thomas, who was on foot, was sighted by the officers as he whistled past Seventh Street. The two.police men immediately gave chase. After a pursuit of nineteen blocks the motord was able to overtake the flying pedestrian.

**Obituary**

Professor Schuman, who was asked at the last minute how fast he was traveling said to the patrolman Flanagan, "I'm traveling at Chicago." The institute took the time-piece from his pocket and held it firmly in his hand. Professor Thomas, who was on foot, was injured in a peculiar accident. Ronald Cornwall Manson of Rose, who was not being used to prowlers, opened the door to a flying pedestrian.
