“Even though this event is for all grade levels (yes, even you freshmen), it will be especially helpful for those who have not had much success [so far].”

Take this opportunity to receive feedback on your resume and how you present yourself to employers from employers themselves. This is a great way to get rid of any nerves you might have, or even just improve your presentation just a day before the Career Fair.

Even though this event is for all grade levels (yes, even you freshmen), it will be especially helpful for those who have not had much success in past career fairs. According to Kathy Kasaisieh, the Boot Camp gives students “get a fresh set of eyes and ears” to catch anything they might have been doing wrong.”

Jeanette Epps Removed from ISS Mission

Mere months from takeoff, aspirant astronaut Jeanette Epps was told she would not be going on NASA Expedition 56, an ISS mission scheduled to last 9 days. She also completed a stint as a Technical Intelligence Officer for the CIA. With years of training under her belt, the news that she would not be taking her first voyage into space definitely hit her hard. On the bright side, her removal from this mission does not definitively hit her hard. On the bright side, her removal from this mission does not disqualify her from future missions, and she will remain in consideration for NASA’s next expeditions.

Epps would have been the first African American astronaut to travel to the International Space Station. With a PhD in Aerospace Engineering from University of Maryland, Epps was selected as an astronaut candidate in 2009. After graduating to a fellowship at NASA’s Langley Research Center, Epps worked with the Space Shuttle and the International Space Station. In 2011, Epps did graduate work with the University of Maryland, which resulted in a masters degree in engineering. A Review of Jumanji: Welcome to the Jungle

Andrew Henderson
Staff Writer

Jumanji: Welcome to the Jungle is the newest installment in the long-running Jumanji franchise. The film, which opens in theaters this weekend, is a sequel to the 1995 classic Jumanji, and it brings back many of the original stars, including Dwayne Johnson and The Rock, to reprise their roles as Dr.asset indication of the show’s creative direction. In Season 4, released just after Christmas last year, the show continues to shift masterfully between satire and solemn introspection, and prompts us to examine ourselves as a society.

Since the actors, settings, and timelines are different in every episode, Black Mirror prompts us to examine ourselves as a society.

When Charlie Brooker and An- nabel Jones introduced the show to UK television in 2011, they were pushing into largely untested wa- ter. Black Mirror is an unconven- tional, thought-provoking series that subverts a directed plot, and invites a free-flowing but unified theme. Its title, which describes what you see the moment you turn on your phone or computer off, is the clear-

The strongest part of the movie is without a doubt the dialogue and acting, as many of the actors have some of the best reactions, skits and recurring jokes I have seen in a long time. Jack Black is at the best I’ve seen since School of Rock when playing as a popular bull- ed girl stuck in Jack Black’s body (hence jokes are both the least sophisticated and somehow the funni- est). Dwayne Johnson, as always, is incredi- bly likable and has his own hilarious mo- ments playing a nerdy shrimp, with Kevin Hart playing off him amazingly as a big jock stuck in a tiny body (watching Kevin Hart try and knock down Dwayne Johnson is so fun). Even Nick Jonas and Karen Gil- lan have some amazing scenes. The only weakness is the Jumanji video game, but I will give it a doubt the dialogue and acting, as such low brow movie and while the scenes in the real word with the character true bodies are good, they are nowhere near as fun as the scenes in the videogame. Jumanji: Into the Jungle is quite a bit of outrage was seen on the internet during its develop- ment as announcements came so soon after the tragic death of Robin Williams. However, after actually watching the film, I can say without a doubt in my mind that those fears are unfounded, dare I say the new Jumanji blows the original out of the water.

Adidas x Dragon Ball Z
Hopefully this wont take 300 episodes to drop

The sportswear company Adidas has recently unveiled an upcoming collaboration with the creators of Dragon Ball Z to release a line of seven different shoes themed after the popular Japanese anime.

There are seven different shoes to go along with the seven dragon balls, which are a very popular trope on the TV show. The shoes are themed after seven characters in the show, borrowing elements from each character in each of the designs. These characters are the main villains Frieza, Cell, and Majin Buu, and the main characters Goku, Gohan, and Vegeta, with the seventh character being the mystical dragon Shenron.

This collaboration is being released throughout 2018, with each release date coinciding with pivotal moments in the show. The Frieza saga with Goku and Frieza in August 2018, the Cell saga with Cell and Gohan in September 2018, and The Buu saga with Vegeta and Majin Buu in November 2018 with the collection being rounded off with Shenrons release in December of 2018.

Not So Easy Mac

YOU HAVE THREE WISHES.

Ingredients
• Cooking spray
• 8 ounces elbow macaroni, cooked
• One 12-ounce can evaporated milk
• 1 1/2 cups whole milk
• 1/4 cup (1 1/2 stick) of butter, melted
• 1 teaspoon salt
• Dash of pepper
• 2 large eggs, beaten
Two 10-ounce bricks sharp Cheddar cheese, grated (about 5 cups)

Directions
1. In a large 4-quart slow cooker sprayed with cooking spray, mix the macaroni, evaporated milk, milk, butter, salt, pepper, eggs and all but 1/2 cup of the grated cheese. Sprinkle the reserved cheese over the top of the mixture and then sprinkle with paprika. Cover and cook on low heat for 3 hours and 15 minutes. Turn off the slow cooker, stir the mixture and serve hot.
2. If you don’t have a slow cooker, grease a 9-by-13-by-2-inch pan with butter, add the mixture and bake at 350 degrees F for 50 minutes.
3. Take all of the Mac and Cheese out of the container and put on some Netflix as you eat the entire serving in one sitting.
4. Switch to Hulu after you realize you have watched every notable show on Netflix.
5. Remember you don’t have Hulu and eat the Mac and Cheese in silence.
