Day of Silence

Bullying and the Silence It Creates

Jared Gibson
News Editor

It will started with a homework assign- ment, Yes, that’s right: a homework assign- ment. I’m sure that all of us are quite familiar with these and so were the students of the University of Virginia in 1990 who were responsible for the creation of Day of Si- lence. Unlike the typical homework assign- ment here, this one was about non- violent protests and, the students’ response was something that is now known as the Day of Silence. The following year, there was an ef- fort to make the Day of Silence a national event, and over into campus collaborations.

The GLSEN Day of Silence is a na- tional event that happens in middle schools, high schools, and colleges across the country, including our very own Rose-Hulman Institute of Technology. On Friday, April 27, students across the country will take a vow of silence in order to demonstrate the silencing effect that bullying and discrimination has on students at all academic levels.

It has reached 35 states, the Dis- trict of Columbia, and some foreign coun- tries such as New Zealand and Russia.

GLSEN stands for Gay, Lesbian and Straight Education Network and is an or- ganization that came to the official sponsor- ship of the GLSEN Day of Silence in 2006. It was founded in 1990 by a small group of teachers in Massachusetts whose goal was to improve the school system and to discourage bullying or discrimination against LGBTQ students and anti-LGBTQ behavior.

According to glsen.org, it is now “one of the leading national education organization focused on ensuring safe and affirming schools for LGBTQ students.”

Their goal is to make sure that every student is treated with respect, no matter their sexual orientation, gender identity, or gender expression.

They work with the Department of Education and K-12 schools, doing research, providing “developmentally appro- priate resources for educators…” and supporting efforts led by students in order to make our schools safer.

As mentioned previously, they do sponsor events at the college level, and these will be ones coming to campus all around the country this week including Rose-Hulman, and if you would like to learn more, visit www.glsen.org.

You may have noticed in the past few weeks signs and posters popping up all around the school with the words ‘day of silence’ stretched out as far as the eye can see. But silence is not all that is expected. The day will also include the opportunity for students to voice their opinions.

If you were to ask a typical student what is the purpose of this event, many would say that it is to raise awareness. However, the creators of the Day of Silence had a slightly different goal in mind. Their goal was to improve the school system and to discourage bullying or discrimination against LGBTQ students.

GLSEN Day of Silence will take place this Friday on college campuses around the country.

Events of the Week
Monday, April 23
• Environmental Photo Session - Quad: 10-12
• Multidisciplinary Environmental Design Information Session - G222: 3:35 - 4:15
• BIC Welding 2 - BIC: 5:30 - 7:30
• Open Mic Meeting - White Chapel: 7:30-9
Tuesday, April 24
• Blood Drive - SRC: 11-5
• Q&A Lunch Series - Accessibility RSVP Required - A202: 11:45 - 12:35
• Mindfulness Meditation - HMU265: 11:45 - 12:35
• Environmental Photo Session - Hadley Hall: 1-3
• Association for Women in Mathematics Students Chapter Informational Meeting - G219: 4:20 - 5:20
• BIC Shop Practices - Mill: BIC: 4:30 - 6:30
• BIC Shop Practices - Lathe: BIC: 4:30 - 6:30
• BIC Shop Practices - Bench: BIC: 4:30 - 6:30
• GREED Giveaway: Softball: 5:30 - 6:30
• SGA Senate - Lake Room: 5:30 - 7:30
• Anderson, Softball - Home: 5:30 - 9:30

Wednesday, April 25
• St. Mary of the Woods, Men’s Golf: Home: 12 - 2
• Key Training: Skype for Business
• New Academic Building Information Session - Hatfield: 4:20 – 5:10
• Safe Zone Advanced Training - O231: 4:20 - 5:20
• BIC TIG Welding - BIC: 5:30 - 7:30
• DePauw, Baseball - Home: 6:30 - 8:30

Thursday, April 26
• St. Mary of the Woods, Men’s Golf - Home: 12 - 2
• Mindfulness Meditation - HMU265: 11:45 - 12:35
• Exponential Technologies - Innovation Chair Presentation - M137: 12:30 - 1:10
• LEGD: Track: Dynamic Recruitment - Preparing for next Fall - Lake Room: 4:20 – 5:10
• Safe Zone Advanced Training - O231: 4:20 - 5:20
• BIC Intro to Shop Practices - BIC: 4:30 - 6:30
• Learning a Language - O167: 5:30 - 7:30
• Greenville, Baseball - Away: 7 – 9

Friday, April 27
• Day of Silence: All Day
• HCAC Track Championship - Away: 12 – 2
• HEARD Giveaway: Track & Field - Cook Stadium: 5 - 7
• Legally Blonde the Musical - Hatfield: 7:30 – 10
• Q&A Lunch Series - Mill: BIC: 4:30 - 6:30
• Learning a Language - O167: 5:30 - 7:30
• Greenville, Baseball - Away: 7 – 9

Saturday, April 28
• HCAC Track Championship - Away: 12 – 2
• HCAC Men’s Golf Championship - Away: 12 – 2
• Mount St. Joseph, Women’s Golf - Away: 12 – 2
• Baseball, Bluffton - Away: 12 – 2
• Softball, Bluffton - Away: 1 - 5
• Men’s Tennis, Earlham - Away: 12 – 2
• Legally Blonde the Musical - Hatfield: 7:30 – 10

Profiessor Quotes Wanted!!!
Do you like your professor’s quotes? Have his notes featured on page 20? The Thorns! Submit quotes to: thorn@rose-hulman.edu

WEEKLY MEETINGS occur at 5:15 p.m. on the first or through fourth Tuesday of each academic quarter. All members of the Rose-Hulman community are welcome to attend.

SILMUN Missions of articles, photographs, art, and letters to the editor is encouraged. Submission may be made by email to thorns@rose-hulman.edu or in person to Percopo room 301. The submission deadline is 5:00 p.m. Friday. The RIGHTS to accept submissions or changes made after the deadline, to edit submissions in so far as the original intent of the submission remained unaltered, and to reject submissions deemed inappropriately for print are reserved by the editors.

LETTERS TO THE EDITOR should be no longer than 600 words in length and must contain the writer’s (electronic) signature. The VIEWS EXPRESSED herein are those of their respective authors and with the exception of the Staff View do not necessarily represent the views of the staff or the Rose-Hulman community.

The Rose Thorn is the independent student newspaper. We keep the Rose Thorn's views of the staff or the Rose Thorn and with the exception of the Staff View do not necessarily represent the views of their respective authors. THE VIEWS EXPRESSED therein are those of their respective authors. THE RIGHTS to accept submissions or changes made after the deadline, to edit submissions in so far as the original intent of the submission remained unaltered, and to reject submissions deemed inappropriately for print are reserved by the editors. Weekly submissions of articles, photographs, art, and letters to the editor is encouraged. Submission may be made by email to thorns@rose-hulman.edu or in person to Percopo room 301. The submission deadline is 5:00 p.m. Friday. The RIGHTS to accept submissions or changes made after the deadline, to edit submissions in so far as the original intent of the submission remained unaltered, and to reject submissions deemed inappropriately for print are reserved by the editors.
North Korea: A Step in the Right Direction? Marc Schmit

Staff Writer

North Korea made several announcements this past week in advance of proposed direct talks with the United States.

The headline announcement was a suspension of nuclear tests and long-range missile tests while talks are underway. North Korean leader Kim Jong Un delivered this message on Friday, April 20. Additionally, Mr. Kim promised not to share any of the regime's research on nuclear weapons with other states and would only use nuclear weapons unless it was provoked.

Earlier in the week, South Korea announced that it had established a direct telephone line with Mr. Kim. The move is intended to help build trust between the two nations and reduce tensions. There has previously been a military telephone line between the two countries, but it was severed in 2010 after diplomatic tensions flared. The military connection was reactivated earlier this year.

South Korean President Moon Jae-in and Mr. Kim are set to meet in the demilitarized zone on April 27. Negotiators for South Korea have stated the focus of the summit will be the "denuclearization of the Korean Peninsula."

The summit is the first meeting in a series as both nations acknowledged the need for more talks to set the agenda and resolve complex issues. The United States is also using the talks to prepare for the meeting between Mr. Kim and President Trump.

The direct talks between the two leaders are set to begin the process of resolving long standing disputes with the North Korean regime.

U.S. Intelligence indicates that the North Korean arsenal includes missiles with ranges upwards of 11,000 kilometers.

Anime fans get a bit too attached

Jason Clarke stars as the “other” Kennedy in Chappaquiddick

One of this year’s most popular new anime has been the series “Darling in the Franxx,” a series that has sparked a lot of controversy. The final anime to air within anime fandoms; many other shows have seen death threats sent to producer Hideaki Anno (the creator of Evangelion) saw a lot of comment from fans. TheShipping Wars can be incredibly fun to take part in, and anime culture has really pushed to make these proverbial fights; however, we have to be careful about the direction these “fan wars” are taking. The Shipping Wars can get really serious sometimes, and we have to be careful that the lines we draw are not crossing into into what is too much. This is just another political movie, one that does not have to indulge in conspiracies to be compelling. One of the most engaging aspects of the movie is the fact that we still know very little about the inside job. This movie doesn’t really answer any questions, but it does leave you curious to find out for yourself.

The negative other element was the dialogue. Some of lines were very clearly written for the trailer, and sounded obviously scripted in the context of the film.

Even with those problems, it still is a worthwhile film to see. It is an interesting look at how politicians are protected, especially those who are well-connected. This film asks us to evaluate our own responses to situations like these, as we see politicians after citizens emotionally say they will vote for Kennedy, even after Chappaquiddick. How many politicians could be sitting in Washington today with their own Chappaquiddick, so well-hidden we haven’t even heard about them?

Some people have called this a hit job as sitting Senator Joe Kennedy III next to prominence, I don’t think that’s the case. This is just another political movie, one that does not have to indulge in conspiracies to be compelling. One of the most engaging aspects of the movie is the fact that we still know very little about the inside job. This movie doesn’t really answer any questions, but it does leave you curious to find out for yourself.

America went to the moon on July 20, 1969. It was a big deal, and it was a huge step for mankind. It was also a huge step for the unbeknownst Ted Kennedy. Helms is primarily known as the face of political challenges. Their chemistry was necessary to talk about Mary Jo Kopechne, portrayed by Lauren Htew. How could the case be anything else? The film does not shy away from the truth, but it was never so distracting it took our attention away from the main story. This fight between fans has mostly been between the camps for Hiro X Ichigo, and the camps for Hiro and Zero Two. The series focuses heavily on the relationships between different characters and their pasts, as it slowly unravels the mystery of what happened that day.

Melania Trump, Hillary Clinton, women in power. Birkin owners become the must-have bag for bag from the plane. Created on the back of a throw up original sketch for the bag was shared a flight. In fact, the head of Hermès after the two and singer Jane Birkin by the was originally made for actress other article of fashion. The bag never been accomplished by any inception in 1983 and never be a feat that has somehow, somehow reach the mark of powerful women everywhere. The bag is said to radiate to everyone that sees it that you are not someone to mess with.

Knowing this, you probably are guessing that Birkin bags are not cheap. You’re right; they aren’t. With starting price around twenty thousand and some models nearing six figures, Birkin bags are some of the most expensive in the world. This price is partially due to the fact that it takes specially trained leather artisans over 48 hours to make a single bag. Although that does not worry any of the owners. They can afford it and Birkins are viewed as an investment. They have consistently outperformed on the stock market since their inception.

Let’s say you want a Birkin and are at a point in your life where you could afford to go into a Hermès boutique and shell out tens of thousands of dollars on a purse. You would think it would be that easy right? You would majorly wrong. In fact, many people believe that the scarcity of the Birkins is what allowed them to keep their status over the past 35 years. If you were to walk into a store, the odds of them selling you one is basically a million to one. Most likely, they would ask you to join the waiting list to get on the waiting list. This means you could probably expect the wait to be over 5 years. Of course this means that people have tried to develop tips and tricks to get one sooner. Apparently, it has been found that, as sexist as this sounds, apparently it helps if your husband is trying to buy the bag for you. Other people claim that if you go into the store and buy a whole bunch of Hermès’ other items, then, at the very end, while you are checking out, ask if they have any Birkins. They might just bring one out of the back. If you are going this route I suggest haggling up on their scarfs. I have heard nothing but good things about them.

You or anyone you know has a Birkin and they would allow to touch it please reach out. I have never had the opportunity and would really like to see the quality personally.

The Birkin has risen to prominence in the music industry after the release of his latest album. And after That, We are guessing that Birkin bags are not cheap. You’re right; they aren’t. With starting price around twenty thousand and some models nearing six figures, Birkin bags are some of the most expensive in the world. This means you could probably expect the wait to be over 5 years. Of course this means that people have tried to develop tips and tricks to get one sooner. Apparently, it has been found that, as sexist as this sounds, apparently it helps if your husband is trying to buy the bag for you. Other people claim that if you go into the store and buy a whole bunch of Hermès’ other items, then, at the very end, while you are checking out, ask if they have any Birkins. They might just bring one out of the back. If you are going this route I suggest haggling up on their scarfs. I have heard nothing but good things about them.

You or anyone you know has a Birkin and they would allow to touch it please reach out. I have never had the opportunity and would really like to see the quality personally.

The Birkin has risen to prominence in the music industry after the release of his latest album. And after That, We are guessing that Birkin bags are not cheap. You’re right; they aren’t. With starting price around twenty thousand and some models nearing six figures, Birkin bags are some of the most expensive in the world. This price is partially due to the fact that it takes specially trained leather artisans over 48 hours to make a single bag. Although that does not worry any of the owners. They can afford it and Birkins are viewed as an investment. They have consistently outperformed on the stock market since their inception.

Let’s say you want a Birkin and are at a point in your life where you could afford to go into a Hermès boutique and shell out tens of thousands of dollars on a purse. You would think it would be that easy right? You would majorly wrong. In fact, many people believe that the scarcity of the Birkins is what allowed them to keep their status over the past 35 years. If you were to walk into a store, the odds of them selling you one is basically a million to one. Most likely, they would ask you to join the waiting list to get on the waiting list. This means you could probably expect the wait to be over 5 years. Of course this means that people have tried to develop tips and tricks to get one sooner. Apparently, it has been found that, as sexist as this sounds, apparently it helps if your husband is trying to buy the bag for you. Other people claim that if you go into the store and buy a whole bunch of Hermès’ other items, then, at the very end, while you are checking out, ask if they have any Birkins. They might just bring one out of the back. If you are going this route I suggest haggling up on their scarfs. I have heard nothing but good things about them.

You or anyone you know has a Birkin and they would allow to touch it please reach out. I have never had the opportunity and would really like to see the quality personally.

Parking Squabbles

Concerned Commuter
Guest Writer

Too poor to afford on-
campus housing, I make you feel unwelcome here.

During Freshman Orientation, I learned that my dorm was separated into groups based on parking spots. We would be scheduled for events in between classes. I had not been told, in saying “this hall goes to please” the commuter lot at “4:30 this time.” One such event was the President’s speech in the SRC.

The speech was not an event by hall. As my parents and I, a commuter, were looking up at the stage, we saw that there was no designated space for commuters. Seating there were no seats left, and after, a long, unorganized day, my parents and I had had enough for one day and drove home.

The following year, I received an email for the ROSE-
FITT Challenge. The email explained how students could earn a QR code whenever they exercised at the SRC, and gave a web portal along with the must scans would win, I replied to this email to politely tell the commuter fence (included in this activity). How to earn enough commutes to qualify for this challenge, I am not enough interested in their behalf to in-
clude them? I eventually got a reply back saying commuters had simply skipped the activity planner’s mind.

Throughout my entire time as a commuter, I have found the attitude of this a bit, well, shall we say, not as welcoming as the one I experienced. Because there have been many times when I drive to campus 30 minutes late to arrive at 40 minutes before parking illegally in a white zone lot. "It’s a make-up spot and still being late to class.

If this theory isn’t true, my other theory is that many people who live in residence halls choose to drive from their resi-
dent parking lots to park in a commuter lot closer to the academic buildings. I get it. Sometimes you just need to get your study books. Maybe you pulled an all-
nighter and don’t feel like walking.

The issue lies in the fact that these people are able to walk to class but choose to drive, whereas commuters can only drive to class. To make the solution much easier. Parking Safety seems to think that the com-
muters chosen to park in these parking spaces because they’re too lazy to go to class in a more distant parking lot? My second theory is correct, I need to go to class. I need to go to my classes to learn and get to experi-
ence the same activities as the on-campus students.

State Senator

As we transition into the future, assisted and self-
will become more prominent on the roads. This movement actu-
ally started in 2000 when the California Public Utilities Com-
mission declared lane assistance to Mercedes-Benz autos commercial for the first time. A concept of this project was to alert parents that their children were about to merge into another lane. How have Barrett and Lane assist-
can be found in every large school or campus area. Have you ever been on the road and seen a car pass by some woman who came within inches of a lane cut? Lane assist was meant to prevent these types of moments to give you a safe. It’s a lane alert. It’s a lane that don’t just connect to your destination.

Another big safety feature popping up around the world is automatic braking. Say for some reason the car ahead of you slams on their breaks, your car has enough time to react. Automatic braking systems slow down the change in speed without the human error, to keep you safe. In the future, this technology will become a norm.

Here’s another statistic, it’s an 2005 that cases driving with the pow-
to the car’s interior distress-
to yourself or others. Being a distracted driver means letting that wrecking ball swing around a large cloth-
ality, indifferent as to what destruction it may bring. Approximately 10 people are murdered every day due to a distracted driver. As an example, even though it is statistically impossible, it would only take 9/8 days to walk to class if you skipped. With the 9000 injuries per day via distracted driving, it would only take 2.9 days for all of us to be in the hospi-
al. Without this technology, it is statistically impossi-
ble, there is a chance that you could fall victim to a distracted driver’s mistake.

The last viewpoint I’ve heard, “you could get hurt,” or “you could become another statistic.” it’s a turn that into you might be the distracted driver. In June everyone has at least once checked their phone behind the wheel. I will be the first to admit that I have sent a text while driving, on average a mile per hour, endangering my life and my fellow travelers on the road. However this is a rare occurrence and I very much dislike knowing that I could potentially cause harm to another human being. On the other hand, with the Automakers don’t think about the safety of the drivers around them. It’s not the responsibility of the law enforcement officers to keep us safe. It’s a driver’s responsibility to keep themselves and their passengers safe. This is a tough area in front of us. I can’t say if the people in car that I knew we almost back ended us. Our way of thinking is an automatic break, that would’ve been a better option. I can say that I care about you, and I care about your safety, and I care about the safety of the people around you. It is an unnee-
cessary action that always presents when someone decides to impede the safety of the drivers around them by driving distracted. For my own safety’s sake, I will call my phone off and save a life.

If your car isn’t driving itself completely, this probably isn’t safe.

“there’s this hourly rat race of on-
campus and off-campus people fighting for legal parking spots.

The second issue was re-
solved the following year after I met my email. The com-
matters are now included in the ROSEFITT Challenge and, un-
fortunately, the challenge was canceled.

The parking issue is more complex. The most obvious solu-
tion of adding more parking lots or building a parking gar-
age, but I don’t see this hap-
pening anytime soon.

Perhaps, instead of just red parking stickers for faculty staff and yellow for students, the student parking stickers could further distinguish commuters from non-commuters. This would discourage people living on campus from illegally parking in commuter lots, end-
ng the dreaded hourly rat race.

In the meantime, Park Safe could be a little more under-
standing and chill it with the tickets.

“some drivers see an opportunity to be on their phones, relying on the car to keep them safe.”

“Driver-less Dangers

"
In recent events, the IM Leagues organized a tournament for both Madden Football and FIFA Soccer. The event was open to everyone and the players played head to head in a number of games before being seated in a bracket for the finals. The finals games were held in the Lake room in the Union. The contestants had the opportunity to play on the large screens held in the room. There were four different games played to determine the places of first, second, third and fourth place. The winner of both the FIFA and Madden winners were able to pick any video game they desired and it will be purchased for them. Overall the event was a huge success and a lot of fun and hopefully they will continue to put it on in the years to come. Pictured below are the two winners— Maddie Struble (left) for Madden and Michael Boye for FIFA (right).
