Cinco De Mayo!

Rose-Hulman’s SHPE Presents

Didal Bima
Editor in Chief

This past weekend was a busy one for Rose students and it was not due to home-work or exams, yet, but rather with multiple social events that were supporting great causes around the community of Terre Haute. From Rock Out for Ryland, AIDA from Rose Drama Club, Pyrotechniq group, and last but not least Cinco de Mayo celebration.

Cinco de Mayo, which is not the Mexican Independence day, is a traditional Mexican celebration that commemorates the victory of the Mexican army against the French army at the battle of Puebla in 1862. However, this celebration has found a significant interest within the United States and eventually became a celebratory day of the Mexican-American culture.

The Cinco de Mayo event was held by Rose-Hulman’s chapter of Society of Hispanic Professional Engineers (SHPE), which is a national organization that empowers the Hispanic community to realize its fullest potential. The event costed an admission of $5 and began at 4pm and lasted until 7pm on Saturday 4th of May at BB&T and Speed lawn. It included a catered taco bar from MOE’s, lawn games, piñatas, and a bounce castle that definitely made my roommate busy the entire time.

Although the weather was not as warm as we would have liked it to be, the company and the great Spanish music has kept us going until 11 pm. SHPE’s earnings from the event will go to The Boys and Girls club at Terre Haute, which is a club that provides after school activities for the youths of ages 5 to 18 years old. Make sure to attend one of SHPE’s event to keep the youths of Terre Haute busy with great social and empowering activities.

Rose News Editor

This past Wednesday, May 1st, seniors got together to show off their engineering skills with their capstone design projects. Rows and rows of automatically amazing gadgets and gadgets were presented, each one with a group of proud seniors ready to explain what their project was about. Among the seniors, the biomedical engineering freshman also had his projects submitted in the Rose Show.

Among the projects, two in particular stand out for Rose-Hulman. The Bon Appetit Food Processing Team (featured on right) created an automatic French fry cutter for the Bon Appetit kitchen. The sec- ond, Ron Appetit Aquaponics is a deep water culture that can pro- vide both fresh fish and produce to Bon Appetit. Both of these projects directly impact Bon Appetit next year, as each one will introduce new locally sourced food for students. The Aquaponics project will actually go as far as to offer a four credit hour class (that runs fall, winter, and spring) to students willing to take measurements, and provide maintenance. Another project that may impact Rose is RoseSound, A CSSE project that will be integrated with Moo- dle as a service hosting platform for the Rose-Hulman community.

Attendees of the Rose Show were encouraged to vote for which project they liked the most. Both presentations and opening seniors noted the project benefits the Bon.

The Bon Appetit Food Processing project was an interesting project, however, it required a lot of people to work on any kinks it may have. The seniors involved with this project did have a fantastic job however and deserve every amount of praise they have re- ceived. Each one of the students involved in the Rose Show put a lot of time and dedication into their projects.

A project that caught my eye was the Auditory Display Headset. Presented by Charlie Gettys, Dan- iel Neelupp, and Zoë Trunkuit, the auditory display headset was designed for visually impaired people. In the simulations, users are able to “see” objects based on auditory information, the goal being able to catch a football blind. The headset uses 3D sen- sors and a processor for converting 3D data to audio cues. Pow- ered by a battery, the wearer will have full mobility while using the device. The seniors presenting this project seemed to not agree with the decision. The seniors involved with this project all did a fantastic job however and deserve every amount of praise they have received.

Overall, each and every one of the seniors who presented a project at the Rose Show should be congratu- lated for all of their hard work the past four years. Rose-Hulman is not an easy place, but from what I have seen at the Rose Show, Rose has done an excellent job raising the engineers of the future.
Upcoming Events

**Academics**
- May 6 - Copper Jewelry (Cold Hand Forging)
- May 9 - Spirit Week - ASCE Potluck
- May 9 - Multi-Disciplinary Research Seminar
- May 9 - SASE Homework Night
- May 10 - 1:1 with Anthem

**Events**
- May 9/10 - Track at North Central Invitational
- May 10 - ASCE Dodgeball Tournament
- May 10 - Soccer Tournament
- May 6 - Learning Center Ice Cream Social and Raffle
- May 7 - HSA information session
- May 7 - Rose Bands Spring Concert
- May 8 - Institute Meeting
- May 8 - EWB All Campus Presentation
- May 8 - Rose Tech Radio Club Operating Night
- May 9 - Commencement Rehearsal for Graduating Seniors
- May 10 - WMHD Quad Jam
- May 10 - Performing Arts Series: The Doo Wop Project
- May 6 - Disciplinary Research Seminar
- May 8 - 1:1 with Anthem
- May 9 - Flipside Editor
- May 6 - Life on the Other Side
- May 7 - CMPA TREC members
- May 8 - CMPA TREC members
- May 9 - CMPA TREC members
- May 10 - CMPA TREC members
- May 11 - Animate Club Weekly Meeting

Join the Rose Thorn!

**When:** Tuesday’s at 5:00 pm

**Where:** Olin O259

Join us for our next meeting this Tuesday, May 7th!!!

Share your opinions, write an article for next week’s issue, or get the inside scoop on the latest news!

**Our Mission Statement:**
We are Rose-Hulman’s independent student newspaper. We keep the Rose-Hulman community informed by providing an accurate and dependable source for news and information.

**Thorn@RoseHulman.edu**

The views expressed herein are those of their respective authors and with the exception of the Staff View do not necessarily represent the views of the staff or the Rose-Hulman community.

**Issues:** The Rose Thorn are published on the second through ninth Mondays of each academic quarter.

**Weekly Meetings** occur at 5:00 p.m. on the first through ninth Tuesdays of each academic quarter. All members of the Rose-Hulman community are welcome to attend.

**Submission** of articles, photographs, art, and letters to the editor is encouraged. Submission may be made by email to thorn@rose-hulman.edu or in person to Percopo room 031. The submission deadline is 5:00 p.m. Fridays.

**Discounts:** 5% Percent Discount per ad purchased

Sri Lanka: A Solemn Recap

Jonathan Kawasumi
Flipside Editor

April 21, 2019, Easter Sunday - Suicide bombers killed an estimated 253 people in churches and hotels across Sri Lanka, including at least 158 foreigners including Indian, UK and US citizens, and injured over 500 others. At 11:15 pm, six blasts occurred within a short time span. Of those three, six were at churches in the capital, Colombo; in Negombo, in the northern region; and in an eastern city, Batticaloa. The other three blasts took place in the Kingsbury, Shangri-La and Cinnamon Grand hotels in Colombo. Unfortunately since initial reports on Sunday, as police were searching for the suspects, two more blasts went off in Colombo and Dematagoda. More bombs would be found, with one explosive device discovered and disposed of at an airport near Colombo while the other device would detonate on Monday in Colombo as police were attempting to defuse it. However, a fourth hotel bombinging attempt was thwarted by police intervention and gave evidence for the suspects behind the events.

The attacks were viewed by the government as an act of terrorism, causing over 250 Sri Lankans on April 21st. The above map depicts the locations of the six explosions that killed over 250 Sri Lankans on April 21st.

Their Eyes Were Watching God: A Review

Jared Gibson
Entertainment Editor

Ever since major world religions declared sex as a sacred part of marriage—and in many cases, before this time—families have worked hard to ensure that their daughters are not being led astray by men with no stable employment or money to support their families. She is a sexual being (around 16 the book). Janie, has essentially given her life to these vessels for antagonistic forces. This is still the case in many parts of the world, and even in the U.S. where sexual norms are considerably different from the past, one can still see the effects of this mindset on our culture. It is far from a new idea to count on countless novels and even fairy tales. One example of this is Zora Neale Hurston’s Their Eyes Were Watching God, where Hurston spends time exploring themes that take up the remainder of the book.

As soon as Janie realizes she is not going to get the marriage she wants, she begins to search for one, making a meaningful connection. Hurston’s work immerses us in the process. Essentially, she wants to explore her life, and what she can do with her life. She could easily get away from this, but she does not.

she, as Janie’s older self tells us, was a beautiful young woman, and any man would have fallen in love with her. Not just because of her looks, but because she is a sexual being. Hurston wants her to be sexual, to want sex or money. Not only does she lose her love, but she also loses her family. Robbing a woman of her virginity, she is seen against women who want to be free of society, who want sex or money. Not only does she lose her love, but she also loses her family.

The story takes place in Florida shortly after the Civil War where our protagonist, Janie, has returned from the war and is once again forced to stay at her home. She spends her time writing letters. She writes about her life story, starting with her sexual awakening, a point that takes up the remainder of the book.

Although hundreds of thousands of women were part of the war, this is still a new idea to count on countless novels and even fairy tales. One example of this is Zora Neale Hurston’s Their Eyes Were Watching God, where Hurston spends time exploring themes that take up the remainder of the book.

**Super Easy Pasta Recipe**

Aidan Moulder  
**Opinions Editor**

This is a simple but delicious recipe that doesn’t take up a lot of time and won’t break the bank. The final flavor can also vary greatly depending on how much you use of each ingredient, so experiment and find what you like best.

**Ingredients:**
- 1 16 oz box of pasta, your choice (spaghetti or similar recommended)
- 1 stick unsalted butter
- At least 1 tbsp Pepper
- Shredded parmesan, Romano, and asiago cheese blend (Kraft recommended, but may be hard to find)

**Directions:**
1) Cook your pasta according to the directions on the box. However, before you drain the pasta water, set aside at least 1/4 cup and drain the rest.
2) In the pan that you cooked the pasta, melt a stick of butter over medium heat. Add about a tablespoon or less of pepper. Before the butter melts too much, add ¼ cup of the pasta water back in and stir.
3) Now return the noodles to the pan, and toss very well. Turn the heat off, and add about half a container of the shredded parmesan, Romano, and asiago cheese. Toss very well. Serve topped with more of the same cheese.

**“Snacking” Cake**

Thad Hughes  
**Staff Writer**

This ‘snacking’ cake is perfect for, well, snacking. It holds together in the hand and doesn’t need a frosting because it’s super moist, so it’s simple to do. Enjoy hot with some ice cream, or chilled by itself.

**Ingredients:**
- Approx. 16oz of chocolate cake mix (make your own, buy from store... whatever suits your fancy)
- 2 3.9 oz pkg of chocolate instant pudding
- 2 eggs
- 1.5 cup milk
- ¼ cup oil
- 1 cup chocolate chips (optional)

**Directions:**
1) Blend cake mix and pudding mix. Mix in wet ingredients well, until mostly smooth. Blend in chocolate chips.
2) Grease a 9x9” pan and pour mix in.
3) Bake at 350F for 30-35 minutes or until a toothpick comes out without a mess.
4) Dust with confectioners sugar if you are disturbed by the naked look of the cake. If you’re me, put in the fridge immediately. If you’re my mom, eat immediately.
A View on Last Week’s LGBTO+ Opinion

Mark Minster
Guest Writer

Thad Hughes’s opinion piece in last week’s Thorn begins with an observation I wholly endorse: the April 24th post on “Faith and LGBTQ+” to which Hughes was responding might have included a wider range of experiences and perspectives. As someone who sat on the panel, I wish I had talked less, in order to hear the many stories from the lives in that room, and others. Unlike Hughes, I do not think “minimal conflict” is at “all” central to the Christian story (every story, to be honest). Still, it’s important to face conflict, to talk through it, especially in a world that keeps forgetting that conflict, to murder us, begins with conflict (As someone who sat on that panel, I wish I had talked less, in order to hear the many stories from the lives in that room, and others).

As Hughes insists that men and women are essentially interchangeable. (2) Scripture, Hughes asserts, “is a grand unifying narrative... each bit reinforcing the next.” (3) Christianity, as with all forms of belief, discipline, and authority, remains various today. There are Christian ethics, histories, marriages, narratives—plural, not interchangeably changeable. We are various. We are various.

Hughes’s essay invokes the word “sacred” at least as often as it cites to boil down human sexual experiences, the Bible, and Christianity, reducing them until each becomes singular. All three become generalized beings. All three become too simple. We are various. We are various. That stance is taken by Mark, Luke, Paul, James, John: each understands the next, reinforcing the next.

Hughes asserts, “it’s a grand unifying narrative... each bit reinforcing the next.” But we humans are not interchangeable. We are various. We are various. Most of the Thorn’s readers may not agree with Hughes, but I want to open arms towards immigrants are in stark contrast to the vindictive, legalistic family-separation policies of Ezra and Nehemiah, which is at least less virulent than the outright genocide that is lauded by the book of Ruth and the latter chapters of Isaiah. Their ethical family policies are in stark contrast to the vindictive, legalistic family-separation policies of Ezra and Nehemiah, which is at least less virulent than the outright genocide that is lauded by the book of Ruth and the latter chapters of Isaiah.

In short, we need only to adhere to our principles. As someone who sat on that panel, I wish I had talked less, in order to hear the many stories from the lives in that room, and others. As someone who sat on that panel, I wish I had talked less, in order to hear the many stories from the lives in that room, and others.

Food Labels Don’t Matter Anymore

Jonathan Kowaschi
Staff Writer

In modern day marketing, currently filled with buzzwords and plays to broaden product appeal, trying to understand to what extent the labeling on a package of food is such a chore that it almost seems pointless, and that’s probably the point.

Food labels are filled with technical and confusing definitions that make you wonder who was in charge of writing the laws in the first place. There are so many definitions of food, that it takes a good amount of time to figure out what companies to legally market their product. This is where the legislation is at its weakest point, trying to set something on the package that can’t be understood. It’s as if the food companies are trying to determine what it is we need to know, believing that it has any benefi- ts or meaning.

For starters, one of the most common health-conscious labels is the “Whole Grain” sticker. When you see this label on a product, it means that at least 51% of the grain (in other words the whole grain) is not actually processed. So there really isn’t anything that you are getting by adding just enough whole grains into their product in order to market it as whole grain.
