Update: On-Campus Straw Usage

Making Rose a Little Greener

Jared Gibson

News Editor

A previous issue of the Thorn fea-
tured an article about plastic straw
waste and the effect that these non-
biodegradable plastics have on the
environment.

In an attempt to reduce this waste, a
project in Engineering Management called
Six Sigma in Practice is placing plant-
based, biodegradable straws in dining
locations all over campus including
Subway, Chauncey’s, and Beanie's.

However, to see if any improvement
has been made, there needs to be some
data comparison. This is where the sta-
tistics behind Six Sigma comes in.

For the first five weeks of this quar-
ter, the students of the Six Sigma class
took data on the straw usage in one
campus dining location.

Of course, this doesn’t seem mean-
ingful unless there is data to compare it
to. In this case, we care about what the
biodegradable straws were made
of, could it become

“plastic straw waste been reduced,”
and if you "what does this mean for the fu-
ture of this project? “Could it become
something bigger than just a class pro-
ject?” “Is the data convincing enough
that we should think permanently
switching to biodegradable straws?”

According to Dr. Evans, who is cur-
tently teaching the course, the data after
the biodegradable straws were available.

After comparing the two, we will be
able to answer questions such as “has
the number of straws been reduced,”
and if "what does this mean for the fu-
ture of this project? "Could it become
something bigger than just a class pro-
ject?" “Is the data convincing enough
that we should think permanently
switching to biodegradable straws?”

The first figure is a breakdown of
plastic straw usage per day on campus
during the first five weeks of this quar-
ter.

The graph is a bar graph showing the
average straw usage per week in each of
the dining locations on campus.

There are definitely significant re-
results. However, we should be careful
not to jump to conclusions since there
is more data to be collected and analyzed,
but if this trend holds up, there is a possi-
bility that Dr. Evans or some of his
students could seek further support for
this project beyond the course-level.

The greatest reduction in plastic straw usage occurred at Chauncey’s—67.4%.

Several straws on campus, including Chicago, Moench 2, or the CSSE Senior Thesis

Our Mission Statement:
We are Rose-Hulman’s independent student newspaper. We keep the Rose-Hulman community informed by providing an accurate and dependable source for news and information.

ISSUES of The Rose Thorn are published on the second through ninth Mondays of each academic quarter.

WEEKLY MEETINGS occur at 5:15 p.m. on the first through ninth Tuesdays of each academic quarter. All members of the Rose-Hulman community are welcome to attend.

SUBMISSION of articles, photographs, art, and letters to the editor is encouraged. Submission may be made by email to thorn@rose-hulman.edu or in person to Percopo room 031. The submission deadline is 5:00 p.m. Friday.

THE RIGHTS to accept submissions or changes made after the deadline, to edit submissions in so far as the original intent of the submission remains unaltered, and to reject submissions deemed inappropriate for print are reserved by the editors.

LETTERS TO THE EDITOR should be no longer than 600 words in length and must contain the writer’s (electronic) signature.

THE VIEWS EXPRESSED herein are those of their respective authors and with the exception of the Staff View do not necessarily represent the views of the staff or the Rose-Hulman community.

The United States Geological Survey tracked several cracks on the island before a large ash plume and 6.9 magnitude earthquake spewed lava. Numerous earthquakes have also plagued the island as volcanic activity spurs geological tension. Smoke escaping from cracks have caused concern that more fissures may appear over time. Lava and fire have consumed nine homes in the subdivision. Residents have been offered the possibility of retrieving animals and valuables from their homes but may be stopped because of hazardous conditions in the area. 

There does not appear to be an immediate end in sight for residents. The fissures are expected to eventually close after the magma has cooled. However, more fissures may yet appear and continue to extend lava. Numerous earthquakes have also plagued the island as volcanic activity spurs geological events.

Waiting for the Barbarians
An imaginary reality

As you could imagine, the man responsible for its creation has made a lot of people, leaving him very wealthy, and the book begins short after his death. Typically, people lose their possessions to their family and friends after they pass away, but James Halliday was no typical person. He had very few relatives and no living family members. So, to whom does he bequeath his wealth? A random user of Oasis is chosen!

Okay, that's not exactly true. Not just anyone is worthy of his wealth, we've just not taken enough money here, we've also talked about control of the Oasis, a major part almost everyone's life. Whether it's for school, work, or play, it's very likely that whenever we control of the Oasis will cost them the lives of millions of people.

So how does he determine who someone is worthy to have this much power? Halliday decided to create a scavenger hunt involving three keys that leads you to the next gate, and each gate leads you to the next quest until the end of the third gate where the Easter egg is.

Forget League of Legends, this is the third gate where the Easter egg lies. The eggs are hidden behind three keys, the third gate where the egg is is:

1. The first is hidden within a civilization that will have the power to control the Oasis and its inhabitants, and because of the torture tactics, the magistrate.
2. The second is hidden among with a civilization that had the power to control the Oasis and its inhabitants, and because of the torture tactics, the magistrate.
3. The third is hidden within a civilization that had the power to control the Oasis and its inhabitants, and because of the torture tactics, the magistrate.

Any Oasis user has a chance of winning the challenge. With a tournament like this, it's not too hard to imagine that Halliday became obsessed with finding the egg, people like our protagonist, Wade Watts.

The book is written from Wade's perspective and is essentially a detailed account of the events leading up to the end of the scavenger hunt played out. Throughout the story, Wade meets several interesting characters, both in reality and in the Oasis. These characters are the source of our imaginations, and even with the limitations of the book, they will be a profound influence on the reader.

To whom does he bequeath his wealth? We've already talked about the need for control of the Oasis, a major part almost everyone's life. Whether it's for school, work, or play, it's very likely that whenever we control of the Oasis will cost them the lives of millions of people.

A whole new level of escapism

Neil Gaiman

A few no qualms. No buy-in. An Oasis user has a chance of winning the challenge. With a tournament like this, it's not too hard to imagine that Halliday became obsessed with finding the egg, people like our protagonist, Wade Watts.

The book is written from Wade's perspective and is essentially a detailed account of the events leading up to the end of the scavenger hunt played out. Throughout the story, Wade meets several interesting characters, both in reality and in the Oasis. These characters are the source of our imaginations, and even with the limitations of the book, they will be a profound influence on the reader.

In recent news, popular artist Kanye West has come into the social spotlight for a multitude of reasons. Just one week before he was on the minds of a very small number of people and the only people that had any direct information about his future work seemed to be business associates and family members.

This past week Kanye took to twitter reactivating his infamous twitter account while at the same time releasing a two hour interview he had previously Recorded with popular radio show host Charlemagne Tha God. Among these two monumental actions he was compared to his relativist in-action in the past two years. He had also released three tracks on to all major music platforms. One dubbed “Ye Vs. The people” was more of a commentary where he was more of a traditional music executive in the song consisted of variations of the words Poop, Whoop, and Scoop. This is truly one of Kanye’s more bizarre pieces but a classic none the less.

The third track he released is actually just a feature Travis Scott’s single Watch. In my opinion there is nothing truly special about this track as it is just some of Travis Scotts usual work; not a bad song but I don’t think that it is not going to top the billboard any time soon.

To stray away from Kanye’s musical actions in this last week, he has once again taken to twitter to express some of his recent political opinions. The main example of those opinions is his now found love for Donald Trump, Kanye Tweeted “You don’t have to agree with trump but the mob can’t make me not love him. We are both dragon breath.” This tweet is significant as Kanye has been a hero among the many members of the public in America for a long time. Donald Trump is essentially a Villain among this set of people as he really hasn’t done much to show his willingness to work with minority communities during his presidency.

This makes people feel betrayed as Kanye West is just an artist but he had his humble beginnings as well and may have forgotten about the people who made him who he is today.

Among this tweet Kanye West has also made the remark that Slavery was a choice in paraphrase. This comment not only completely disregards years of oppression among a people but truly highlights some of the flaws behind his new ideologies. Although in Kanye’s defense if one listens to the interview at TMZ where he made those remarks, Kanye speaks his mind through a stream of consciousness and he may have made this remark an accident not realizing the severity of what he said. I am not defending what he said at all although it is not like Kanye is making lists that say slavery was a choice on them, he made a the comment once and as far as I know he is yet to mention it again in any form of media.

In other words Kanye also Tweeted “I’m Rico at Ping Pong” so not everything is all about the controversy in the land of Kanye West.

In all I believe that Kanye is stirring up this mess because he has two albums releasing in early June and the fact that he has done this to grab attention for his albums in the past. That being said he has still made a mess and dug himself into a whole lot of look where every piece of fabric is a completely different color like Volkswagen did back in the 90’s with the golf hardtop. It didn’t look good then and it still doesn’t now. The company does not seem to have any sustainabil- ity efforts in action which is important because of environmental damage from manufacturing clothing.

Vineyards Vine Vendetta

We stay styling all day every day

Thomas Hall
Staf Writer

As a proud Kentuckian and some one that likes the way that show that is the Kentucky Derby I just don’t understand people’s obsession with the main clothing sponsor, Vineyard Vines. Although Vineyard Vines has been around for 20 years, it is only in the past 5 years that it has really exploded as a brand that normal people wear. See Vineyard Vines was started at Mar- thas Vineyard a place you have probably never heard of unless you are sum-

WACKY PROF QUOTES

Regarding Anne Boleyn: “Her lack of producing a son contributed to her lack of a head.”
- Dr. Stephanie Hill

“Kids are particularly good at killing themselves.”
- Dr. Richard Stamper

“You’re just a loser until you sell your sell to the devil.”
- Dr. David Chapman

“Don’t slow clap me; you’re a horrible person now.”
- Dr. Terrence Casey

“This is what happens when you get old, you dry out. Not me. Like Grigg.”
- Dr. Marc Herniter

“I joined CommunistMatch.com.”
- Dr. Marc Herniter

Did your prof say something hilarious or just great out of context? Did you hear something amusing on your jaunt about the fine halls of this institution? We want to hear about it! Send your quotes with who said it to: thorn-flipside@rose-hulman.edu or fill out this nifty google form:
