Hulbert elected new president of AITU

Samuel Hulbert, president of Rose-Hulman, is the new president of the Association of Independent Technological Universities (AITU).

The organization consists of the presidents of 15 of the nation's leading private engineering and science colleges. Some of the members of AITU, in addition to Rose-Hulman, include California Institute of Technology, Carnegie-Mellon University, Case Western Reserve University, Lehigh University, Massachusetts Institute of

Technology, Rensselaer Polytechnic Institute, and Rice University.

The presidents meet annually to discuss issues affecting engineering and science education. Subjects discussed during this year's assembly included minimizing tuition increases, the need for undergraduate laboratory equipment and faculty development and salaries.

Hulbert succeeds George Bugliarello, president of the Polytechnic Institute of New York.

Rose senior receives Wilson Scholarship

Bryan Heim, senior at Rose-Hulman, has been awarded the J.B. Wilson Consulting Engineering Scholarship for the 1987-88 school year.

The scholarship winner must meet certain criteria, including pursuing a degree in civil engineering and participating in the consulting engineering program.

The consulting engineering program at Rose provides students with an awareness of the career opportunities available to the entrepreneur in private engineering practice and it provides elective courses which are useful in private practice to the licensed consulting engineer.

Heim is the son of Mr. and Mrs. Kenneth Heim, Route 1, Jasper.

Hazing's survival being blamed on 'conspiracy'

AUSTIN, TX (CPS) — The University of Texas just can't break down a "conspiracy of silence" among Greek pledges long enough to curb hazing on the campus, an 111-page report issued Oct. 20 stated.

The report suggested Texas — as well as several other schools trying to stop fraternity and sorority hazing of their own members — is going to have a tough time succeeding until student attitudes change.

The report was issued by a 26-member Presidential Commission on Fraternal Organizations, created last year by Texas President William Cunningham to investigate hazing, alcohol abuse and disruptive behavior among Greeks.

Hazing is "like prostitution or pornography. It is a consensual activity, and this makes it extremely difficult to deal with," said Chairman John Ratliff, a UT law professor. "Normally it does not come to light until someone gets badly hurt."

And reports of severe injuries are almost constant.

Two weeks ago, for instance, a University of Mississippi student, Harry Cline, was killed when he fell down a flight of stairs at the Kappa Alpha house. He allegedly had been drinking, despite a campus ban on drinking, and UM officials are investigating.

Duke put its Sigma Chi chapter on probation for various party infractions, while University of Maryland officials announced they may install more rigid rules to regulate off-campus Greek parties.

Also this fall, Penn State disbanded its Alpha Phi Alpha chapter for physically abusing pledges, while Loyola of New Orleans issued a formal warning to its Beggars fraternity for reportedly harassing, mocking and excluding black students.

Stanford University's Zeta Psi fraternity was "voluntarily disbanded" for five years following an investigation of the drowning of a member in 1986.

Texas has had more than its share of Greek troubles, however.

Lee Roeveer, a former Alpha Tau Omega pledge, recently won an undisclosed out-of-court settlement from the ATO national chapter after threatening to sue over a hazing incident. He and 20 other pledges were forced to stay awake for four days, and were pelted with eggs.

In September, the parents of Phi Kappa Psi pledge Mark Seeberger filed a \$40 million suit, seeking damages for Seeberger's death by alcohol poisoning during a hazing ritual in 1986.

UT banned the fraternity after the Seeberger tragedy, but last week's report asserted stopping hazing in advance may be impossible.

The report cited two fraternities, the Texas Cowboys and the Silver Spurs, for continuing hazing despite administration warnings to stop.

Pledges were taken for "rides" — driven far from home, then abandoned — the report said. Initiates also were shocked with electric cattle prods and beaten with paddles.

Rose receives \$125,000 gift from Mead Corporation

Rose-Hulman has received a \$125,000 gift from the Mead Corporation that will be used to provide students with the latest academic equipment, according to the college's president, Samuel Hulbert.

"This is a major boost toward our goal of raising \$4 million to continue the acquisition of modern academic equipment for the new Moench Hall laboratories," Hulbert stated.

Mead Chairman and Chief Operating Officer Burnell Roberts said the corporation's gift recognizes the many contributions that Rose-Hulman alumni have made to the growth and success of the international company.

Hulbert explained that the gift is especially significant because it will be used to help Rose-Hulman match a \$500,000 equipment grant recently received from the Lilly Endowment of In-

dianapolis.

"The value of the Mead Corporation gift is actually twice the monetary amount awarded because it qualifies as a match to the Lilly Endowment funds," Hulbert pointed out.

"This expression of the company's confidence in Rose-Hulman is very timely and important to our goal of providing the most modern academic facilities possible," he added.

Bunch receives LSU Alumni award

The Alumni Association at LSU in Shreveport has awarded its highest annual honor to Dr. Robert Maxwell Bunch, a physics professor at Rose-Hulman in Terre Haute.

Dr. Bunch received the Distinguished Alumni of the Year Award during Alumni Day homecoming festivities Saturday (Nov. 14) on the Shreveport, La. campus.

He was selected from among 4,990 LSUS alumni, and was honored for exceptional professional achievement and outstanding service.

Bess Maxwell, chair of the Alumni Association Awards Committee, presented Dr. Bunch

with a plaque inscribed with the words: "For exceptional achievement in your profession, for outstanding service to the community and for bringing credit to the university and to your fellow graduates."

Bunch earned the bachelor of science degree in physics in 1975 from LSUS where he was the recipient of the University Academic Award in Physics. He received the Ph.D. in his major field of experimental solid state physics from the University of Kansas in Lawrence, where the title of his dissertation was "Thermally-Induced Changes in the Defect Substructure of Pure and Doped Magnesium Oxide."

Prior to joining Rose-Hulman in 1983, he was a teaching assistant, research assistant and post-doctoral research associate at the University of Kansas. He was the recipient of the Edwin Emery Slosson Award for excellence in physics instruction at the University of Kansas.

At Rose-Hulman, Dr. Bunch is an associate professor of physics, and has conducted research in characterizing defects in optical materials and optical storage media as well as fiber optic systems and fiber optic splice characterization. Since 1985 he has also worked with the Institute's Center for Applied Optics Studies.

ROSE-HULMAN RECEIVES GIFT — Samuel Hulbert, center, president of Rose-Hulman, holds a \$5,000 donation from local Pitman-Moore officials that will be used to help fund the renovation of Moench Hall. Presenting the check to Hulbert were Lee Webb, right, director of Terre Haute operations, and Jim Moore, manager of human resources.

Final film in Japanese series to be shown

"Family Game," a contemporary Japanese comedy that examines the Japanese obsession with success, will be shown Dec. 6 as the final program in the Japanese film series sponsored by Rose-Hulman and Indiana State University.

Winner of the Best Film Award in Japan in 1983, "Family Game" pokes fun at Japan's affluent middle class through the story of a misunderstood teenager and his tutor. The tutor is promised a cash bonus if he can

improve the grades of his student and, therefore uses whatever methods are necessary to succeed.

The film questions Japanese materialism, its education system, and over-emphasis on achievement.

"Family Game" will be shown free of charge at 2 p.m. at the Sheldon Swope Art Gallery.

The film is the sixth and last presentation in a movie series made possible by a grant from the Indiana Committee for the

Humanities.

Organizers of the series selected the films shown because they depicted several centuries of Japanese history and deal with different segments of society to reveal the changes and continuities in Japanese culture.

Those attending the film will learn more about Japanese culture during the period shown in the film, during a discussion led by ISU or Rose-Hulman faculty members at the film's conclusion.

Opinion and Columns

EDITORIAL

First Jerry Falwell tried to take sex off of television. Then Tipper Gore wanted to label rock albums. Next, Ed Meese yanked "Playboy" from 7-11. Now the Federal Communications Commission wants to cleanse all obscenities from the airwaves. Generally, no broadcasting station is allowed to air any language or material that is patently offensive as measured by contemporary standards.

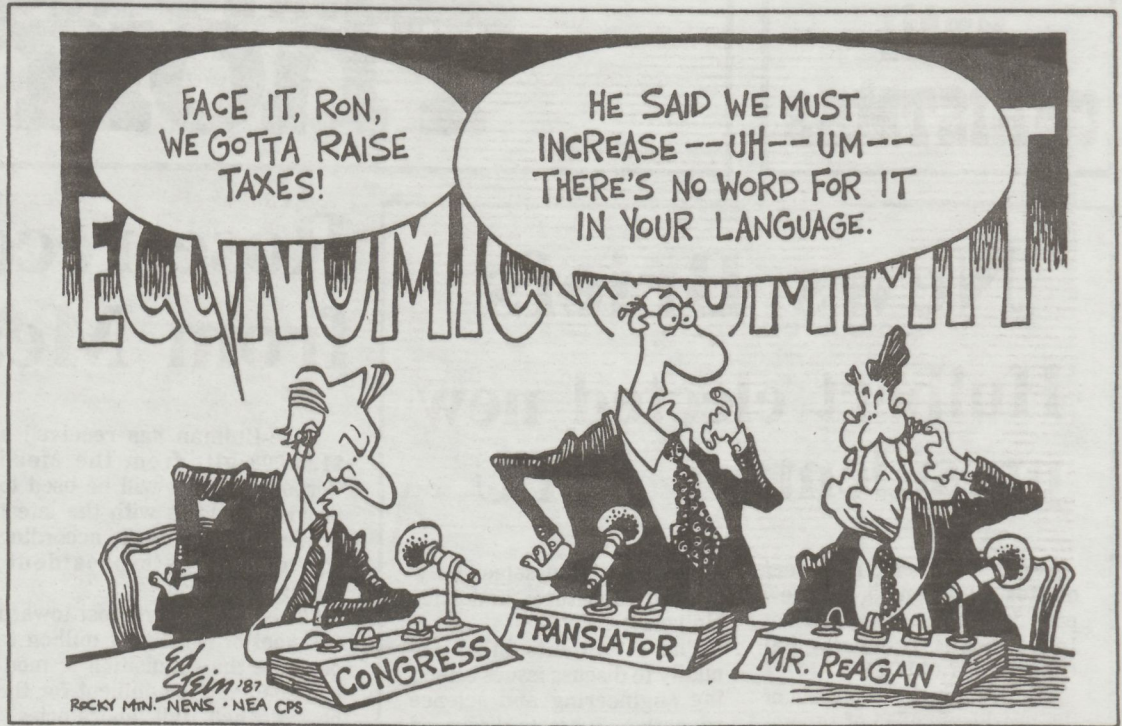

Somehow America has deceived itself into believing that it cannot stand to expose itself to materials that someone might find distasteful. In a country based on freedom of choice, Americans are increasingly find-

ing their alternatives limited by "community standards." Basically, if one person finds some material to be objectionable, the community kindly removes it from circulation so that no one else might accidentally corrupt himself with it.

People seem to feel that one off-color word might be heard by some poor fellow, subsequently ruining his life and ultimately bringing about the downfall of civilization. Grow up. No one is forced to listen if he does not want to.

America, exercise your freedom of choice so that you then may exercise freedom of expression.

Bobby Woolf

'Running Man' loses

by Bobby Woolf

"The Running Man" is a stupid movie. Theater audiences love to see Arnold Schwarzenegger in an unwinnable fight, and this movie is nothing but a series of them. "The Running Man" is the ultimate game show of the future and a somewhat plausible excuse for Schwarzenegger to battle a crew of second rate comic book nemesis. Of course, the chief bad guy turns out to be the creator of "The Running Man" the game show host Killian, played by Richard Dawson. In a nutshell, a lot of people get killed in this movie, Schwarzenegger gets to utter a bunch of dumb one liners, and the lack of a coherent plot for the characters to follow is sort of ignored.

I really don't know why Hollywood keeps trying to cast Schwarzenegger as a good guy. By far his best part was as the Terminator, the most indestructible villain of all time. In "Predator," Schwarzenegger was much easier to root for because you weren't supposed to relate to and admire him. He wasn't trying to save the world, he just wanted to save his own neck. But Ben Richards, Schwarzenegger's character in "The Running Man," was supposed to represent all the decency that was left in the world. Hey, I'm

sorry, but gunship pilots don't earn my respect so easily.

"The Running Man" isn't quite as bad as Schwarzenegger's worst movie to date, "Commando." This film has a decent villain in Killian. It may also feature the best leading lady Schwarzenegger may ever have — Maria Conchita Alonso is an actress who actually speaks English as badly as Arnold does. Finally, this latest movie is all the more believable simply because it is set in an unbelievable future.

The original novel *The Running Man* was written by Richard Bachman, otherwise known as Stephen King. It was a very good story about one average man, alone, trapped in an intolerable system. Unfortunately, the only similarity between the book and the movie is the title. One might blame the guy who wrote the screenplay, but he was only following the orders of some movie mogul who wanted another action thriller.

Ironically, the movie "The Running Man" seems to be about as hypocritical and mindless as the game it's based upon. And ironically, just like that fictional game show, audiences are eating up this movie. Maybe someone should now make a game show about Hollywood movies.

Just for the Record:

'A Momentary Lapse of Reason'

by Vince Klortho

I remember the feeling I had when *5150* was first released. I was already a Van Halen fan because cuts like "You Really Got Me" and "Unchained" definitely kicked ass. Songs like "Why Can't This Be Love" and "Dreams" are good, and if they had been done by Styx or Journey, that would have been fine. But to associate *Van Halen* with such tooty-fruity songs was blasphemy. Eddie had changed; the band no longer rocked; and it just wasn't the same.

I have similar reservations about the new *Pink Floyd* album. *A Momentary Lapse of Reason* is the first Floyd release in four years. It features David Gilmour and Nick Mason, plus Richard Wright and producer Bob Ezrin. But the band is incomplete. What about Roger Waters? Although he has been Pink Floyd's primary inspiration, Waters is, unfortunately, noticeably absent on this album.

Lapse is definitely a fine album. Its standout track is "Learning to Fly," a fantastic song. Many other cuts, including the release "The Dogs of War," are also quite good. Side two is substantially weaker than side one, but that's primarily because of the album's length. *Lapse* is single oriented, so it should get a fair amount of airplay. This album marks the return of Gilmour, and his distinctive, mellow voice, on lead vocals. All in all, the album looks and sounds like the Floyd.

Yet *Lapse* is subtly different from its recent predecessors. For one thing, this album lacks a definite concept; there may be one in there somewhere, but it's

pretty fuzzy. Likewise, it lacks "actors" between the songs to develop the mood as well as the story. Furthermore, I was really surprised to see photos of the band members on the album sleeve. Pink Floyd hasn't shown the world what they look like since '73! My final complaint is that someone on *Lapse* got a little too ambitious with the sound effects and noise makers. These distinctions, however, are minor.

"Gilmour has written an album to massage his ego."

The most important difference between *Lapse* and other Floyd albums, the one that overshadows all other discrepancies, is the fact that the quality of the lyrics has slipped substantially. *Dark Side of the Moon*, *The Final Cut*, and especially *The Wall* are full of clauses — quotes just a few lines long — that speak volumes. *Lapse*, on the other hand, rarely seems to strike the sort of insight that I've come to expect from Floyd. Waters is a much better lyricist than Gilmour. In the long run, *Lapse* will not compare favorably to many of the past Pink Floyd albums. It just simply is not going to leave a strong, lasting impression the way *Dark Side* and *The Wall* did.

Again, the difference is subtle, but here's the way I look at it: Waters writes albums to warm his heart; Gilmour has written an album to massage his ego. I

think the thing that bothers me most about *A Momentary Lapse of Reason* is the crass commercialism it seems to symbolize. Gilmour appears to have intentionally strained to write another "Pink Floyd" album. He does not understand that the band simply cannot drop its most important member and pretend to be unchanged. I don't see how Gilmour (and Mason, Wright and Ezrin) can have it both ways. Gilmour is a fool to try to reform the band without Waters and still call it "Pink Floyd." Waters and Gilmour together are the force that makes Pink Floyd so good.

Gilmour has made public acceptance more important than creative expression, and that goes against what Floyd stands for. The style of *Lapse* reminds me most of *Dark Side*, one of the most successful albums of all time. The band is just trying to recapture lost glory, but in doing so, they've cut off their nose despite their face. The new Pink Floyd had to work pretty hard to compensate for Waters' absence. Gilmour and the new band are simply trying to capitalize on the public's image of "Pink Floyd."

I'd agree with what a friend of mine said: Gilmour has done a pretty good job of covering for Waters' absence. But what I'm saying is that I'd rather have the genuine band than a "just as good" imitation. It's sad to watch such a gifted band fall apart like this.

Again, I like *A Momentary Lapse of Reason*.

But it's not Pink Floyd.

Senior Co-captain Doug Underwood was the second leading scorer and rebounder last season.

Rose basketball wins opener 61-52

by Mike Lindsey
The '87-'88 edition of Rose-Hulman basketball opened up the season winning two of the three games played.

The Engineers traveled to Blackburn College for the Holiday Inn Tip-Off Classic and finished second. In the first-round game the team opened up an early lead and held tough to defeat a good team representing the host school by a count of 61-52. A strong man-to-man defense was the key factor in the game for Rose. Leading the way for the team was senior center Dave Urbanek who scored 21 points and grabbed 13 rebounds. Freshman forward Britt Petty came off the bench to tie Urbanek for high-point honors by pitching in 21 points.

In the championship game Rose battled before falling to a very good team from Indiana University Southeast. The Engineers played "... well against a very good team," Coach John Mutchner said. The Grenadiers of IUS started four seniors but had to play well to fight off the

Engineers by a final score of 79-67. Urbanek once again led the team in scoring by tallying 23 points. This time he received support from two sophomores. Forward Tim Cindric scored 10

nine rebounds. Petty was impressive again by getting 15 points and eight rebounds after coming off the bench. Webster and Cindric added 13 and 11 points each with Cindric pacing the defense by getting four steals. Coach Mutchner voiced his pleasure of the defensive effort by saying, "We have been working awfully hard on our defense and we're not a team that will back off."

Tomorrow the Engineers get back in action with their second home game of the season with Manchester College at 7:30 p.m. Next Tuesday the team travels to Greencastle to take on the tough DePauw Tigers.

The team plays three more games the following week which includes the Rose-Hulman Invitational. During Christmas the Engineers will tour Europe for two weeks. The trip includes visits to England, France, West Germany, and the Soviet Union. This tour to Russia makes Rose the first American college basketball team to compete in that country.

... We're not a team that will back off.

points and had a game-high 10 rebounds while guard Mike Webster added 14 points which included four three-pointers. For their efforts Urbanek and Petty were named to the all-tourney team.

In the home opener, the Engineers flexed some muscle and pounded the Principia Panthers 89-45. Once again defense was the main weapon for Rose. An early 14-0 lead enabled Coach Mutchner to play all 16 team members for a good portion of the game. Urbanek continued to pace the team with 20 points and

Harriers 10th in NCAA Div. III regionals

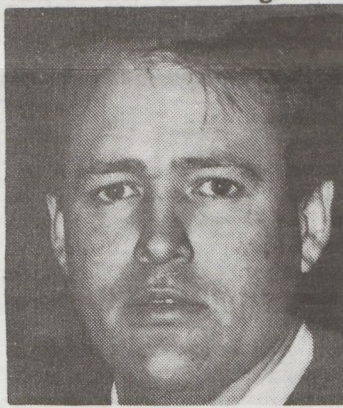

The Rose-Hulman cross country team closed its season with a 10th-place finish in the NCAA Division III Regional Nov. 14. Pacing the field for the Engineers was Mark Tebbe, 49th in 27:24. Other top finishers for Rose were Frank Visingardi,

63rd in 27:47; Kenny Roberts, 67th in 27:58; Steve Mericle, 73rd in 28:07; Tony Kochert, 75th in 28:14; Brian Moench, 82nd in 28:26; and Bob Jacobs, 92nd in 29:11. Rose tallied 286 while Calvin College totalled 64 to win the regional.

Former Rose cager joins basketball coaching staff

Dr. Jeff Justus, a 1978 graduate of Rose-Hulman, has joined the Engineers' basketball coaching staff, Coach John Mutchner has announced.

Justus, a basketball co-captain his senior year under Mutchner, recently returned to Terre Haute from Ohio to establish a medical practice. He joins Jim Hargis and senior Kelly Land as assistant coaches for the Engineers.

Coach Jeff Justus

"Jeff was a key player on the Rose teams of that period. He was an outstanding contributor for four years on some very good teams," Mutchner said.

"He has an outstanding knowledge of basketball. He helped scout and recruit during his years in the Cincinnati area," Mutchner noted. "Recently he moved back to Terre Haute and indicated his willingness to get involved in our program. He is a welcome addition to our staff. Having played for me and being associated with the program through the years, he knows what I want."

Five Rose gridders named All-Conference

Defensive Player of the Year Pat Thomas headed a list of five Rose-Hulman football players named to the College Athletic Conference football team for the 1987 season.

In addition, eight more Engineers received honorable mention following a 9-1 season — the most victories in a season in school history.

ason helped anchor the line for the most potent offense (350 yards per game) in the CAC. He was an honorable mention All-CAC pick last season.

* Defensive lineman Chris Szaz (6-0, 220, Cincinnati, Ohio/St. Xavier). Szaz led the team in quarterback sacks with eight and was fourth on the team in tackles with 74. He was an All-CAC pick last year.

* Junior defensive back Ken Pierce (5-9, 160, Ft. Branch/Gibson Southern). Pierce picked off five passes for the second year in a row and returned one 31 yards for a touchdown. He also had six pass break-ups, blocked one PAT and one field goal. He was an honorable mention All-CAC pick last season.

Receiving honorable mention were junior quarterback Jason Duff (6-2, 170, New Castle), sophomore offensive lineman Brian Runkle (6-2, 220, Macy/North Miami), junior tight end Joe Leslie (6-1, 195, Lafayette Jefferson), and senior tight end Dan Lemons (6-4, 205, Kettering, Ohio/Fairmont West).

Also, sophomore defensive lineman Brett Starr (6-3, 210, Plymouth), senior linebacker Doug Ankney (6-1, 205, Brazil/Terre Haute South), senior defensive back Mike Castor (6-0, 155, Noblesville) and sophomore placekicker Shawn Ferron (6-0, 150, Corralitos, Calif./Aptos).

The All-CAC team was selected by league coaches at a recent meeting in Louisville, Ky.

Pat Thomas set a school record with 140 tackles.

Junior linebacker Thomas (6-3, 210, Brownsburg) set a school record with 140 tackles this season and accumulated 17 tackles for loss, three fumble recoveries and one interception to pace a defense that at one time was ranked nationally against the run.

Other Engineers selected to the team:

* Junior tailback Tony Broadnax (5-7, 175, Gary Wirt). Broadnax became the fourth Rose running back to gain more than 1,000 yards in a season with 1,031 to lead the CAC. He also led the team and finished third in the CAC with 38 receptions for 293 yards. He was the CAC's most versatile performer, averaging 178.3 all-purpose yards per game.

* Junior offensive lineman Keith Woodason (6-1, 240, Rose-dale/Terre Haute North). Wood-
