Shook Fieldhouse will be destroyed after Sunrayce'97

by Singalex Song
Thorn Reporter

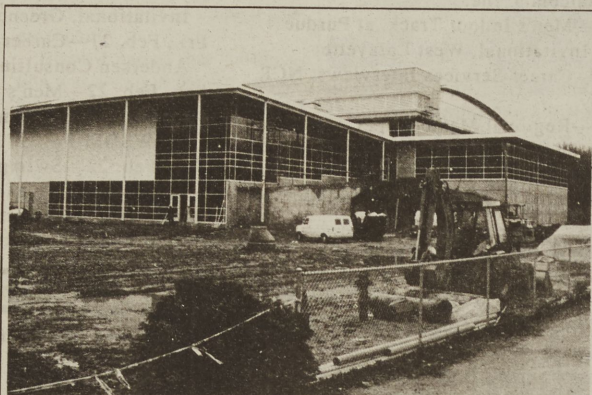

Shook Fieldhouse will be demolished this summer after playing a role in almost five decades of Rose-Hulman history.

Shook and adjacent E. E. Black Recreation Center will be torn down and replaced with new parking spaces for the new Alumni Center for Athletics and Recreation. The 158,000 square foot Alumni Center is scheduled for completion in mid-August.

The destruction of Shook, originally planned for early June, will be delayed on account of SunRayce '97. According to Wayne Spary, director of facilities, Shook will be demolished on June 23rd, following the first overnight stop of SunRayce '97 at Rose-Hulman.

Shook's function will be housing solar cars competing in SunRayce'97. The Hall of Fame room will be removed to make a wider entrance before the solar cars arrive.

The athletic department will temporarily relocate to the student union from mid-June to mid-August, said Spary. During this period, the athletic department will occupy the space normally used for student organization

The new Alumni Athletic Center is named partly in honor of alumni who sponsored old athletic facilities. The old athletic facilities will be demolished this Summer. Photo by Chris Hansen

offices.

Ron Reeves, vice president of development and external affairs and Rose-Hulman alumnus of the class of 1958, said that prior to 1948, the current Moench Auditorium served as the campus gymnasium. The current fieldhouse was constructed in the Summer of 1948 out of a WWII army surplus hangar purchased from the War Assets Administration.

Shook has been the home of basketball games, commencement ceremonies, homecoming pep rallies and concerts. In 1961 the building was named in honor of Rose-Hulman Alumnus, Wilbur Shook, an architecture major from the class of 1911. A recreation center was later added in honor of 1911 electrical engineer alumnus, Everett Black. The lobby of the fieldhouse was later transformed

into a Hall of Fame room by 1915 mechanical engineer alumnus, Ruel F. Burns.

Reeves said that the new athletic center was named the Alumni Center in order to continue the memory of the old athletic facility by honoring all three Rose alumni which the buildings were initially dedicated: Shook, Black, and Burns. In addition, the naming of the Alumni Center will serve to recognize those alumni whose donations and gifts helped to fund the construction, as well as honor those alumni who gave their lives in wars of the past.

Construction plans related to the Alumni Center include a new wider bridge that will hold a pedestrian walkway, and two-way automobile traffic over the creek behind Shook Fieldhouse, according to Spary.

Over the past summer, Cook Stadium, a concrete grandstand for the football field seating 1,500, was constructed. The original wooden benches were replaced by aluminum seating, and parts of the old stands went to the baseball and soccer fields, as well as, the visitors' side of the football field. There is enough space underneath Cook stadium for the

planned concessions stand, rest rooms, and 10 lane rifle range, noted Spary.

The new Alumni Center was designed to accommodate indoor track, wrestling, volleyball, badminton, basketball, racquetball and tennis.

The largest room is the 200' x 300' fieldhouse, which has a 200 meter track encircling several basketball, volleyball, and badminton courts. This room will also support track events such as pole vault and high jump.

The next largest room, the arena, will have basketball courts, volleyball courts and 1,700 seat-bleachers. There will also be an 8 lane, 25 yard swimming pool that meets NCAA specifications and a multi-purpose room with 100 seat-bleachers, for wrestling and miscellaneous events.

Spary commented that the Alumni Center is still on schedule for completion for the beginning of August. Destruction of Shook and Black and construction of the new athletic facilities will cost 21 million dollars. However, "we are definitely getting a lot for our money," added Spary.

Educational consultant, dance troupe featured at Thursday event

The National Society of Black Engineers chapter at the Rose-Hulman (NSBE) will be continuing the tradition started last year of hosting an event to celebrate black history.

The program entitled, "Increasing Our Economic Vitality by Helping Our Youth" is scheduled for Thursday from 7 to 9 p.m. in the North room of the Hulman Memorial Student Union and it will feature a lecture by Dr. Jawanza Kunjufu, an educational consultant based out of Chicago, Illinois.

In addition to speaking at the historic Million Man March, Kunjufu is the author of such works as Critical Issues in Educating African-American Youth and Black Economics: Solutions for Eco-

nomic and Community Empowerment.

The NSBE program will also include an African dance presentation by Adetokumbo, a West African dance troupe directed by Indiana State University professor Adedayo Adeniyi. Rose-Hulman students will read poetry to the audience to conclude the program. Following the program there will be refreshments and an opportunity to purchase books by Kunjufu.

NSBE would like to extend a welcome to the entire Terre Haute community to share this day and celebrate black history month. For more information interested persons may contact Adun Akerele-Ale at x8018.

Conference attracts nine Indiana colleges

by Beth Bateman
Thorn Reporter

Representatives from nine Indiana colleges will visit the campus this weekend as Rose-Hulman hosts the Indiana Residence Hall Organization Conference (IRHOC). Events will begin in the Hulman Memorial Student Union tonight and continue through tomorrow.

The annual event is hosted by a different Indiana college each year. Representatives from different colleges gather and discuss prominent issues in residence hall life such as dealing with stress, working with residents more, and improving study habits, explained IRHOC chairman Matt Rubacha.

IRHOC will begin with an opening roll call, at which time, all of the attending representatives will present

skits. Rubacha said tomorrow will be the "main focus" of the conference, consisting of delegates presenting programs dealing with topics such as stress and time management. The gathering will conclude tomorrow night with a banquet and subsequent dance for IRHOC representatives.

The ten Indiana colleges and universities who will be attending IRHOC are Rose-Hulman, Ball State University, the University of Evansville, the University of Southern Indiana, Indiana State University, Purdue University, Butler University, Valparaiso University, St. Mary-of-the-Woods College, and St. Mary's College.

Rubacha hopes IRHOC will attract the attention of other students and colleges.

"[IRHOC'S] main goal is to get more schools involved and increase the number of schools affiliated [with the organization]," said Rubacha.

IRHOC offers visiting representatives an opportunity to see Rose-Hulman.

"I want everyone to be exposed to life at Rose-Hulman because it is the same [as other colleges] in many aspects, but very different in others," said Rubacha.

Pete Gustafson, associate dean of student affairs, who had a supporting role in IRHOC, agrees with Rubacha. He believes the conference will "let students from other schools see how Rose operates." Gustafson also hopes students will share information and give each other ideas on how to manage residence hall issues effectively.

SGA president-elect plans to work closely with RHA/SAB

Michael Dean defeated Bryan Towne by only 6 votes in the election Tuesday for Student Government Association (SGA) President. Dean received 165 votes. Christopher Repa received 230 votes defeating Ed Ransom for the position of vice-president.

Dean and Repa and the newly appointed members of the SGA executive committee will begin their terms at the beginning of Spring quarter.

Dean has been in charge of the Open Forum, a group of Rose-Hulman students who have worked together to alter the SGA constitution

and bylaws. Dean plans to appoint a quality executive committee.

He also plans on going door to door in the dorms to listen to the students' problems and ideas. Dean's greatest long-term goal is to increase SGA involvement in student activities. Dean would like the SGA to work much more closely with RHA/SAB.

Mees Hall led voter turnout at 31%, followed by BSB (29%), Deming (25%), Speed (21%), Scharpenburg (18%), Blumberg (18%), and Skinner (12%).

"Although exact statistics are

unavailable, fraternity turnout was relatively high," stated SGA publicity director Craig Miesse.

The sophomores accounted for 110 votes, followed by the freshmen (93), seniors (77) and juniors (69).

The first task of the new administration is the appointment of executive committee officers. These positions include secretary, treasurer, publicity director and executive director.

Any student interested in one of these cabinet positions is encouraged to obtain a registration form and apply today. Registration forms are due February 12.

Jeff Turk and Vince Valenzuela man the SGA ballot box during Tuesday's election. Michael Dean was elected SGA president by a close margin. Photo by Chris Hansen

Submissions To Campus Events

Events may be published in *Campus Events* by any organization or individual. Information on club meetings, lectures/speeches, and athletic events, including announcements of times and locations may be submitted to *Campus Calendar*, in care of Dale Long, associate director of communications, at Box 14 or extension 8418. More detailed articles containing plans, agendas, and specific information should be submitted to the *Rose Thorn*.

All submissions must be made by Wednesday, at noon, in order to be published in *Campus Events* in the *Rose Thorn* on Friday.

Make sure to stop in the bookstore to enter the drawing for a big teddy bear.
Drawing is February 13.

Record number of applicants face financial crunch

by Singalex Song
Thorn Reporter

This will likely be another record year for Rose-Hulman, in terms of the number of applications for undergraduate admission received from prospective students of the class of 2001.

As of Wednesday, 3481 applications have been received, according to Chuck Howard, dean of admissions. Howard predicts that 500 more applications will be received than the previous record of 3,507 in 1995.

Jim Goecker, associate director of admissions, said that the most pressing applications deadlines have already been met, and therefore the school is no longer actively soliciting for applications. However, Rose-Hulman will still continue to receive more applications, most likely breaking the 1995 record within a few weeks.

This expectation is based on the fact that 200 applications were received a month prior to the final deadline last year.

Howard reported that 152 monetary deposits were received from prospective students reserving a place in the freshmen class as of Wednesday. Howard expects that 380 deposits will be received by the final deadline for deposits, May 1.

According to Goecker, this record number of applications is probably due to the fact that

Rose-Hulman is better known than it has ever been before. Contributing to this is the aggressive approach taken by the admissions office by mail, oftentimes sending more than one application to each prospective student. For the past two years, the admissions office has certainly had one more fact to brag about: co-education.

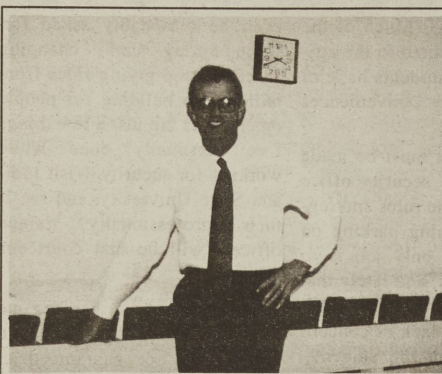

Goecker said the recent change to co-education "certainly helped us to open up a new [applicant] pool."

Howard agreed that "coeducation was a shot in the arm, allowing [Rose-Hulman] to contact more students, and better students because of the diversity." Consistently, 20% of the visitors, applicants, and deposits are female.

Goecker commented that Rose-Hulman has to be one of the most networked colleges in the country and it is probably one of the first schools in the country to require laptop computers for freshmen. However, he stressed that the decision to attend a college shouldn't be made solely because of the laptop computer.

The admissions office prefers not to dwell on the novelty of the laptop computer idea, but instead continues to stress the strong academic reputation of Rose-Hulman, and how the laptop computers contribute to that.

According to Howard, the high quality of teaching that goes on here at Rose-Hulman is easier at a school of this small size. He also

Dean of Admissions Chuck Howard prefers not to focus on laptops when selling Rose to prospective students.

Photo by Chris Hansen

believes that positive press from publications such as U.S. News and World Report has helped make the reputation of Rose-Hulman more widely known.

Howard added that the admissions office is shifting to talk about engineering education leading not only to an engineering career, but also used as a stepping stone to other careers, such as medicine and law. The office is also trying to get more people involved in the recruiting effort, with current students calling prospective students, and having an increased number of opportunities to visit campus with student tour guides.

Prior to 1995 the class size had always been based on an all-male

student population model, so the unusually large incoming 1995 class of 465 students was not a planned event, claims Goecker. Goecker also claims that the accidental acceptance of more students than anticipated led to complications in the first co-educational

He adds that if the admissions office is able to find qualified students, then a slow growth to 1,600 students is acceptable.

Rose-Hulman President Samuel Hulbert commented that despite the increased interest in Rose-Hulman, it is a formidable challenge to meet the financial needs of prospective students.

The admissions office is in a "holding pattern" for several weeks until letters indicating financial aid are sent to admitted students, said Howard.

News Briefs

• Professor James McKinney, head of the department of civil engineering encourages Rose-Hulman seniors to register for the Fundamentals of Engineering Exam by February 11. As of Wednesday only 15% of eligible students have registered.

• Las Vegas Night, sponsored by the Rose-Hulman Student Activities Board, is scheduled for February 15 from 7 to 9 p.m. in the Main Dining Room of the Hulman Memorial Student Union.

Participants will be awarded prizes in a drawing at 8 p.m. and a final drawing at 9 p.m. Everyone will receive the same number of chips for betting on blackjack, roulette or craps.

Pianist keeps Gershwin legacy alive

As a young boy, Richard Glazier fell in love with the music of George Gershwin.

In 1975, the nine-year-old Glazier gathered enough nerve to write a fan letter to George's brother, famed lyricist Ira Gershwin. That led to an invitation to Gershwin's Beverly Hills home and an opportunity to play George Gershwin's personal piano.

"For pleasure, I could listen to Gershwin's 'Rhapsody In Blue' for hours. I love MGM musicals and the big band sound of that era," said Glazier.

That fascination still continues. Glazier's 1996 debut album, "Gershwin: Remembrance and Discovery," featured several of George Gershwin's rare concert transcriptions.

Glazier has won critical acclaim for his in-depth lecture-recitals on the music of George and Ira Gershwin, he performs shows throughout the country, including a scheduled appearance at the Judy Garland Festival in Grand Rapids, Mich., this summer.

"I love to spread the heritage of Gershwin's great music to other generations. I've developed a niche with Gershwin, and I'm proud that people still want to hear his music," said Glazier.

The mission to continue Gershwin's legacy takes another step Saturday at Rose-Hulman in Moench Hall Auditorium. The 7:30 p.m. performance is part of the Rose-Hulman Fine Arts Series. Tickets are \$4 for adults and \$2 for senior citizens and non-Rose-Hulman students.

Glazier is scheduled to perform such Gershwin favorites as "Man I Love," "Love Walked In," "Embraceable You," and "Bess You Is My Woman."

Classical selections performed by Glazier include Mozart's "Rondo in A Minor, K. 511," Schumann's "Faschingsschwank aus Wien, Op. 26," "El Salon Mexico" by Copland-Bernstein, Dominico Scarlatti's "Sonata in A Major, K. 322" and "Sonata in C Major, K. 159," and Liszt's "Funerailles."

A graduate of Indiana University and the Cleveland Institute of Music, Glazier has

performed throughout the world since receiving the Pro Music International Award in 1994. The Indianapolis resident appeared with the Terre Haute and Indianapolis symphony orchestras in 1995 and is scheduled to make his New York debut at the Weill Recital Hall in May.

"It is very hard to make a name for yourself in the classical music world. Hopefully, by playing concerts across the United States, a reputation is established. I try never to lose perspective. The music is the most important motivating factor, not the recognition of the soloist. Being invited back to a venue is the ultimate compliment," said Glazier.

The Rose-Hulman Fine Arts Series concludes its 20th anniversary season in March with two concerts, an one-man performance "Almost, Mr. Edison, Almost," by Hank Fincken, on March 15, and the "Engineers In Concert," on March 22.

For more information on Saturday's concert, call 877-8418.

Parking issues show how spoiled we are at Rose

**Caleb
Coburn**

Assistant Features
Editor

Since I work at Rose-Hulman's Safety & Security Services as a work-study student, the recent decision to implement the towing policy here on campus has interested me quite a lot. Having worked at the security office for a year and a half now, I know how things work on campus quite well. It was no surprise to me when the office received many complaints as a result of the towing policy being implemented. The reason I wasn't surprised about the amount of complaining was simple: Rose students are spoiled.

Jess Lucas, vice president of student affairs, alluded to this in the last issue of the *Thorn*. As students, we do not appreciate much of anything that our Security Services does for us. Some of that may be attributed to simply not knowing what security does and is required to do for

the student body. Much of the problem is attributed to the attitude that many students have of taking too many conveniences for granted.

One point that must be made clear is that the security office does not make the rules and regulations concerning parking on campus. Their only job is to enforce the rules, and lately that has been made increasingly difficult due to the lack of concern and respect from the students. The group in charge of the parking regulations is the Safety, Security, and Traffic Committee. They are the ones who can be contacted about any parking issues. This committee is composed of faculty and currently headed by Dr. Sudipa Kirtley, Assistant Professor of Physics and Applied Optics.

The reputation of the security office has never seemed to be the best, though, regardless of recent events. It is bewildering why this exists, when security here at Rose does more for the students than any campus that I've ever known of in the United States. The officers and work-study students do more for the students and faculty than can

even be reasonably asked for. Jump-starting cars, changing flat tires, and giving rides from building to building for people on crutches are just a few things I've personally done while working for security. Visit Indiana State University, and see if their professionally trained officers will be that courteous all the time.

The student body has become to expect many things that we are simply not guaranteed to get. The only thing that Rose-Hulman has to supply that's included in tuition costs is an education, and for a little extra room-and-board charges, a place to sleep. Parking here on campus is a wonderful privilege not found at many larger campuses. At Purdue, freshmen aren't even allowed to have cars on campus. Here, not only can you have a car, but you can park it right across the street, not 4 blocks away like at ISU. On top of that, security pays for all parking stickers out of its budget, allowing students to register as many cars as they want with-

out any question.

What I am tired of seeing is people complaining about a privilege they have. The security here on campus is undeniably student oriented, and at any time, available for any student needing assistance. I know of times when officers have driven students to Indianapolis International Airport to catch a flight for which they missed their ride or taken on-campus students to dentist appointments in town. In addition there is also the general willingness of all the officers to "forgive and forget." These are just a few of the perks that students receive from our campus security.

I think it is time for our student body to come out of its fantasy world of having everything spoon fed to us. We are here at college to learn not only how to become engineers, but also how to become adults. Too often I see students here whining and complaining about the smallest things. What I wonder is what will these same people will do when they jump into the real

world with a real job, where a boss won't put up with such things? If we can't realize what's given to us, then we don't deserve to receive it.

Caleb Coburn (ME'98) is in the process of taking over as Features Editor of the Thorn. Any suggestions, comments, or concerns can be sent to him care of the Thorn. Or you can read the paper and keep your mouth shut. Sometimes, when it's real quiet out, you can find Caleb writing his Moments of the Week, an e-mail mass mailing list. Coolness isn't in the eye of the beholder

Bob Voros

Thorn
Columnist

I guess it was about midday, Wednesday, as I was sitting in Moench Hall going over the presentation I was to give within about an hour. One of my group members was talking to some guys from other groups, and everything seemed pretty normal. They were talking about their respective presentations and telling stories about professors and other subjects.

During their friendly exchange, a particular individual walked by causing one of them turn around and state loudly, "TOOL!" The individ-

ual walked on, pretending not to notice. The guys began telling stories of tricks they played on this individual and shared nicknames that they had devised for him. It was quite a throw-back to my grade-school days, when I was a personal subject of open attack.

Naturally, I was upset. First, I was upset with myself for not saying anything upon the events occurrence. Secondly, I was upset with the person who said it and those who supported him. I was equally upset when I thought of all the times I committed same demeaning actions of others at Rose.

Perhaps, it's the competitive atmosphere and academic attacks to the ego that make us want to demean others. Maybe it is the social pressure of acceptance which makes us unite against other individuals; war brings together many peo-

ple. Finally, there may be a simple consensus that one individual has characteristics that are not acceptable by the norm of our society.

The last reason brings about an interesting irony. In the early days of rock-and-roll, not that I was alive then, cool was "the rebel." Later, James Dean portrayed a loner in *East of Eden* and *Rebel without a Cause*. This became the new accepted version of "cool."

The rebel, however, has never actually been accepted as a cool person in society, because he/she has *always* been an out-cast. The fake rebels of our society are those that are only a bit off of center from the norm and usually conform to guidelines preset and reiterated by mass media, which actually make this type of person generic.

Since people want to be cool,

they replicate these characteristics, which spread throughout society and become a norm. With all the different forms of communications today, the norm changes continuously and society adapts. A rebel is so rare, that once they are identified, they are ridiculed only to be imitated at some later time.

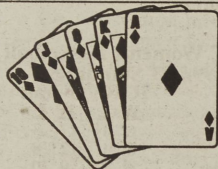

Despite all this talk of what is cool and what is not, this labeling is rather childish when it comes right down to it. In actuality, each person is pretty much identical. Only life experiences are what make us different. We all feel pain; we all want to be happy; we all look for acceptance. We all hate to be rejected.

When we forget these things, we ridicule, mock, or tease, not the person but the person's external traits, the characteristics formed by that person's unique life. Would I mock this

person if I actually got to know him/her? Would I like to be made fun of in such a manner? Would I say these things to a friend of mine? These are questions we should ask ourselves before proceeding with ridicule.

Perhaps, this will make us better people in a place of higher learning, or at least make someone's life better.

Bob Voros is actively seeking an understanding of the role of marmosets in modern society. For no particular reason, he would like to quote Ani DiFranco here: "every tool is a weapon if you hold it right." He thanks you. e-mail comments to: vorosre@nextwork.rose-hulman.edu

SAINT JOE'S CAMPUS CENTER
ANNOUNCES

2nd Annual Winter Euchre Tournament

Saturday, February 8, 1997

1:00pm in the Worx

(lower level of Rose-Hulman Union)

The Tournament will be Double-Elimination

Prizes!!!!

1 st	50% of all proceeds
2 nd	20%
3 rd	10%

To register, send your team name, names of team members, phone number and address with \$5 cash or check made payable to St. Joseph's University Parish and submit it in a sealed envelope to:

Euchre Tournament
Ryan Loftus
Box 772 RHIT
5500 Wabash Ave
Terre Haute, IN 47803

You may also register at the door.

Are engineers worth the money they are paid?

The Rose Thorn is sponsoring an Engineer's Week essay contest to find out. One lucky winner will receive \$25 and will be published in the February 14 issue of the Thorn.

Two other winners will receive \$5 and see their work appear in the same issue.

Submissions should range from 300-500 words

All entries must be received by Monday, February 10 through campus mail or at thorn@rose-hulman.edu

Valentines Day Dance

Sponsored by St. Joseph Campus Center

Half of the proceeds will go to:
Catholic Charities of Terre Haute

Where: Saint Mary of the Woods College
Ball Room in Lefer Hall (1st floor)

When: February 14th, 8:00-12:00pm

Cost: \$3.00 per person or \$5.00 per couple

Directions: Follow Cherry Street across the River Bridge to Highway 150 in West Terre Haute, turn left. Continue on 150 until you see a large SMWC sign on the left, and turn. Go to the second entrance and Lefer Hall is the first building on the right.

Women challenge league leaders on road

by Joel Gillespie
Sports Editor

After struggling at home this past week in losses to Anderson and Hanover, the Rose-Hulman women's basketball team takes to the road to tangle with ICAC co-leader DePauw tomorrow. The Engineers will travel to Lincoln, Ill., Tuesday to battle Lincoln Christian.

A twelve-point win over fellow conference front-runner Hanover Tuesday was DePauw's 12th in their last 13 games, and improved their record to 6-1 in the ICAC. The Tigers defeated the Engineers, 79-33, in their first meeting this season, held in Shook Fieldhouse on January 18.

DePauw has a very balanced scoring attack, led by sophomore forward Kelly Morrison. She averages 11.3 points per game from her forward position. Also scoring double figures are Ann Hall and Susan Bender, who average 10.7 and 10.4 points per game, respectively.

Anderson 59, Rose 39

Rose played ICAC foe Anderson very closely for much of the first half Tuesday, even leading the game for a time. However, cold shooting and foul trouble did the Engineers in, and they fell to the Ravens, 59-39.

Sarah Gordy played her most dominant inside game since Christmas, but she fouled out with eight minutes left in the game after scoring ten points. Gordy was four of five from the floor in only 25 minutes of action.

Amanda Speich led the team in scoring with 14 points, including

two three-pointers.

The Engineers' rebounding and turnover woes continued, as the Ravens were able to attempt 24 more shots than Rose.

Hanover 79, Rose 35

Hanover used hot shooting and overpowering rebounding to dominate Rose, 79-35, last Saturday in Shook Fieldhouse. The Panthers bolted out to a 27-point halftime lead and were never threatened in the second half.

Rose shot 31 percent compared to Hanover's 57 percent, and the Engineers were outrebounded, 43-20.

Bessie Fulk was the only Engineer player in double figures, scoring 15 points despite being sick. Gordy added eight points before fouling out.

Speich failed to reach double figures for the first time in several games, managing four points on 2 of 18 shooting.

Hanover 79, Rose 35

Road swing key to Engineers' ICAC title chances

by Joel Gillespie
Sports Editor

It's easy to see why the Rose-Hulman men's basketball team will be sorry to see Shook Fieldhouse go. Double-figure home victories over ICAC foes Franklin and DePauw kept the Engineers in the hunt for the conference crown, and kept the expectations high for the last regular-season game at Shook, a February 19 matchup against first-place Wabash.

Rose (14-6 overall / 6-2 ICAC) will be forced to leave the friendly confines for two games this week, traveling to Hanover on Saturday and Anderson next Wednesday.

Hanover fell to 3-4, and into a hole for fourth place, in the league following a loss to Franklin Wednesday. The Engineers have not won a regular-season game at Hanover since 1992, but they did defeat the Panthers in the ICAC tournament semifinals last season at Collier Arena.

Rose escaped with a 57-54 victory in the teams' first meeting this season. The Panthers had two chances to tie the game in its closing moments, but their three-point tries were errant. Engineer head coach Jim Shaw isn't quite sure what to expect this time around, though.

"They've been shuffling personnel around, so I'm not sure exactly who's going to be playing for them," Shaw explained. "But I'm sure they will defend well, as

F	32	Kyle Brewer	6-4	8.7	3.2
F	40	Andy Goshorn	6-5	5.9	4.3

we always seem to have trouble scoring against them."

Center Brent Clarkston and guard Jon Miller are the leading scorers for Hanover, averaging 14.6 and 11.7 points per game, respectively. They are the primary sources of concern for Shaw this time around.

"We need to defend them better inside than we did the first time and make sure Jon Miller doesn't get any easy looks from the perimeter," he noted.

Anderson has struggled in league play, falling to 0-8 in the ICAC with a loss to Manchester on Wednesday. However, the Ravens are not to be overlooked at home.

Rose 70, DePauw 57

Rose used great defense and a brilliant second half to pull away from DePauw for a 70-57 victory Wednesday night. Four players scored in double figures and two

Engineers had career-high scoring nights.

The Engineers shot 68 percent from the field in the second half to overcome a one-point halftime deficit. Rose's 44-point output in the second stanza was five more counters than they could manage in the teams' first meeting, a 41-39 loss.

"Our big emphasis [Wednesday] night was to exploit the inside, and we did a great job of that," Shaw praised.

Indeed, the Engineers dominated the boards in the game by a 37-21 margin, and frustrated the Tigers on the interior for the most part.

After beginning the game with a 16-4 run, Rose cooled off and let DePauw back into the game. A dunk by DePauw's Ryan Hooker was immediately followed by a technical foul on the Rose bench with three minutes remaining in the first half, which closed the deficit to three points.

Hooker scored a game-high 26 points, while Engineer forward Troy Halt countered with a team-high 21. Halt and Hooker guarded each other in the game, and Shaw said that matchup ended up in Rose's favor.

"Troy Halt did a tremendous job on [Hooker]," Shaw commented.

Kent Murphy chipped in 12 points and a season-high 13 rebounds. Bryan Egli posted 14 points, and Patrick Grace added a career-high 11. Joel Jansen came off the bench to score nine points on perfect 4 of 4 shooting.

Rose 76, Franklin 51

Egli and Murphy keyed a second half in which the Engineers missed only four of 21 shots, as Rose stretched out an 11-point halftime lead and ran away with a 76-51 victory over Franklin.

Egli tied a career high with 26 points, and added seven assists. Murphy shot 8 of 9 from the floor on his way to 18 points. Halt added 14 counters on 5 of 6 shooting.

Puthoff is "D"-lightful in Engineer backcourt

by Aaron Huntsman
Sports Reporter

In the thick of the conference basketball season, Rose-Hulman Institute of Technology (12-6 overall, 4-2 in ICAC) is making a bid to grab the top spot in the Indiana Collegiate Athletic Conference and possibly earn its second consecutive trip to the CAA III Tournament.

That is due in large part to the Engineers' defense, which is ranked fourth in the nation in scoring defense. One of the main contributors to the team's defensive prowess has been starting guard Joe Puthoff.

Puthoff, a sophomore from Cincinnati, Ohio, has started every game this year for the Engineers, and has proven to be a tenacious defender against opposing guards. Each night at, the graduate of McNicholas High School has faced one of the league's top offensive threats. Puthoff's tenacious man-to-man defense has spearheaded a team defense that is giving up just 57.2 points per game, and only 51.7 points per game in the ICAC.

Rose-Hulman Head Coach Jim

Shaw takes notice of Puthoff's accomplishments and work ethic.

"Joe has emerged as our defensive stopper this year and has been tremendous at it thus far," says Shaw. "He always defends the other team's primary perimeter scorer, no matter which of the perimeter positions he plays."

The mechanical engineering major drew the assignment of guarding four of the league's top ten scorers in the Engineers' first five conference games, and held those players to a combined 40 percent shooting and only 10.8 points per game—both well below their season averages.

"I try to focus on defense," says Puthoff, a GTE/CoSIDA academic all-district candidate. "We've really tried to emphasize team pride, and a lot of that pride comes from the defense. We have a lot of guys who can generate offense—a lot of guys who can score from the perimeter."

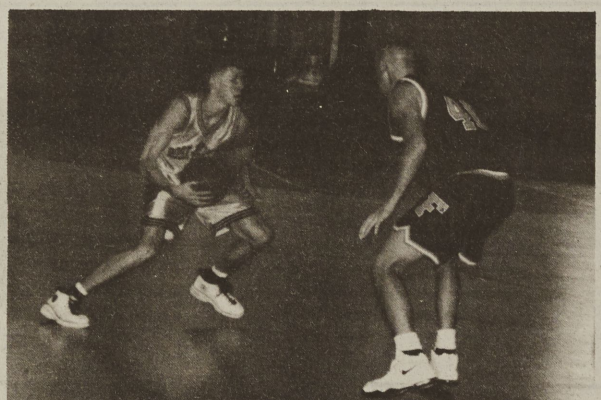

Puthoff can include himself in the latter. He shot 44 percent from the floor so far this season, including 25 three-point field goals. The sophomore is averaging 8.0 points per game for the season, and has upped that to 9.3 points during league play.

Puthoff's accomplishments this year accentuate how far he's come since his freshman season—a season in which he didn't see much varsity playing time until the Engineers' ICAC Tournament Championship run.

"Playing junior varsity last year helped a great deal. Getting some playing experience took away a lot of the nervousness of playing in the big games."

Of course, Puthoff has his work cut out for him as a student as well as an athlete. But his 3.3 cumulative grade point average is an indication that he takes both responsibilities very seriously.

"One of my goals is to succeed as a student, and that's going to take a lot of hard work."

Joe Puthoff, the Engineers' defensive stopper, challenges a Franklin defender last weekend.

Sports Briefs

Wrestling

The Rose-Hulman wrestling team travels to the Wheaton Invitational this weekend after competing in the Monon Bell invite last week.

Jon Lachowitz posted the team's best mark with a 3-1 record at 158 pounds. Lathan McLaughlin was 2-2 at 177.

Swimming

After drilling Millikin, 132-64, in their last home meet of

the season, the Rose-Hulman swimming team has a busy weekend ahead. The Engineers compete in the DePauw Triangular Friday night, and travel to the Eureka Invite Saturday.

Sean Valentine picked up two individual victories and was part of a winning relay team. Other individual winners included: Dan Peairs, Chris Dunlap, Matt Jackson, and Tim Weller.

Engineers' Winter Sports Calendar

	Friday 7	Saturday 8	Sunday 9	Tuesday 11	Friday 14
MEN'S BASKETBALL		at Hanover, 3 p.m.		at Anderson, 7:30 p.m.
