CLINTON, IN 47842

1985 Homecoming performers: singer Dan Seals and comedian Yakov Smirnoff.

## Seals and Smirnov set the stage

Recently he's been on national television saying that unlike the entertainment habits of Americans, "in Russia, the party finds you!" He is comedian Yakov Smirnoff, who along with singer "England Dan" Seals will perform in concert Oct. 12 at 8 p.m. as part of the homecoming activities at Rose-Hulman Institute of Technology.

Tickets for the show in Shook Fieldhouse are \$4 for general admission and \$5 for reserved seats. Tickets can be purchased at the Hulman Union on the Rose-Hulman campus and at Karma Discount Records and Tapes, Towne South Plaza. The concert is sponsored by the college's Student Activities Board.

Smirnoff's one-liner about "the party" in his native Russia comes from his exposure on a network television ad which follows his appearances on "The Tonight Show" and the NBC network comedy, "Night Court." He has also appeared with Robin Williams in the movie, "Moscow on the Hudson" and with Richard Pryor and John Candy in "Brewster's Millions."

Smirnoff emigrated to the U.S. in 1977 and is billed as the world's only Soviet-born standup comedian. He began his career in the Catskill resort area of upper state New York where he thought that working as a bartender would be as easy as it

is in his native country.

"In Russia there are only two types of drinks you can order. A glass of vodka or a bottle of vodka," he noted.

Smirnoff is now a regular at the top comedy clubs in Los Angeles, Las Vegas and Atlantic City.

Joining Smirnoff is Seals who has now become a solo country and western act after a successful career in pop music as part of the duo of "England Dan and John Ford Coley." The two had smash hits in the mid 1970's including "I'd Really Love to See You Tonight," "Love is the Answer," and "Nights Are Forever."

on different parts of the project, from the landscaping, the masonry, the metal — both structural and miscellaneous, right down to the toilet partitions and entrance mats."

The process involves laying out the total projects on spread sheets with blocks for different categories. When the bidding closed, the lowest bidder in each category was selected, and the blocks were filled in.

Mullin estimated that, on the average, three suppliers, or subcontractors, made bids in each category. Currently adjustments are being made as contracts are being drawn up and signed. "We expect to wrap the process up

and have firm numbers within a couple of weeks," said Mullin. "Already the superintendent is on the job in B section, working on things like busway, conduit, drywall, etcetera . . . so we're going!"

Though Mullin could not give a figure for the total cost of the Moench Hall renovation completion just yet, he did say that it appears to be "under the 8.9 million dollar budget by quite a bit."

The project includes completing B section, renovating C, D, and E sections, as well as the first floor and lower level one of F section, the boiler room, and some site work west of Moench Hall.

## Bids taken for Moench renovation

by Bill Bradford

The bidding for the completion of the Moench Hall renovation opened Thursday, September 19, in Indianapolis.

Last January, Glenroy Construction was selected as the general contractor for the project. They will be responsible for the overall job, the concrete, forms, and other assorted parts. Many of the jobs, however, were subcontracted out of their office in Indianapolis.

According to William Mullin, Director of Facilities Planning for Rose-Hulman, "by the time the bids closed at 2:00 p.m. on Thursday, many phone bids had been submitted by subcontractors. They were bidding

## Remington works on teaching and thesis

by Tom Vorjohan

The Physics Department has added a new member to their staff this year. Bruce A. Remington has an impressive educational and training background, and he has a great deal to offer Rose-Hulman.

Remington received his B.S. in Mathematics from Northern Michigan University in 1975. Immediately after graduation, he went overseas and spent four years teaching physics and math at two different schools in Turkey. "It's very interesting," Remington said, "but I feel more comfortable with American students." One of the schools he taught in was a prestigious, all-male, science-oriented high school. "Rose reminds me a lot of that school, and I'm waiting for the day when I go into my class here and start speaking

and teaching in Turkish!" he humorously stated.

After meeting and marrying his wife in her homeland of Turkey, they decided to move to the United States so Remington could further his education. "I was quite happy there," he said; but in 1979, he started his graduate studies in Physics at Michigan State University.

Remington was scheduled to finish his doctoral work early this summer, but this was not possible. He specializes in coincidence neutron measurements in experimental nuclear physics, and he had been working as a research assistant at the National Superconducting Cyclotron Laboratory from 1981 till his appointment at Rose.

Remington has had numerous papers published in various jour-

nals over the years. "I guess that's the real reason I got out of the research area," he stated. "They just push you to publish to prove you're doing something."

Remington turned down other nuclear physics positions he was offered in order to accept his job at Rose. "Some of these were very prestigious offers, but I wouldn't work in industry," stated Remington, "and I refused to interview with many companies." With his educational background in heavy nuclei collision and neutron and gamma ray detection he would be an obvious asset to the government's defense programs. However, this doesn't interest Remington in the least. "Teaching is much more rewarding. I just can't see myself working in classified weapons research," he said.

## NEWS BRIEFS

### Gifts received for optics

by Dan Larkin

The Physics Department's Applied Optics Division has recently received gifts aimed at bettering the equipment in the laboratory.

The department received a \$500 grant from the International Society for Optical Engineering to be used to purchase equipment for the Optics labs. The equipment is expected to be in use within a

few months. The grant came about largely through the efforts of Dr. Bunch.

The Optics labs will also benefit by the addition of five laser diodes given to Rose by MA COM. The diodes are semiconductors which emit light similar to that of a laser beam. This gift is attributed primarily to the work of Dr. Maloney.

### Vuchinich article published

by John Stewart

Dr. Sam Vuchinich, Professor of Sociology at Rose-Hulman, recently had an article entitled "Arguments, Family Style," published in the magazine, *Psychology Today*. This article was based on the analysis of video tapes taken of family's conversations and arguments around the dinner table.

From this analysis, Dr. Vuchinich was able to study the different ways in which families and individual family members deal with problems

and conflicts. Included in these methods for dealing with problems and conflicts were withdrawal, submission, compromising, and the stand-off.

Dr. Vuchinich is currently working with a grant from the National Institute for Mental Health as a Postdoctoral Fellow dealing with Family Processes. At present, he is doing research at the University of Virginia in Charlottesville, but may go elsewhere in order to obtain different theories.

### Orienteering sets bearings

by John Vierow

The Rose Orienteering Club is off to a strong start this year after hosting two meets on campus. The first meet, held on Sept. 14, attracted 24 participants, many of them beginners. The second meet was held last Saturday and attracted eight participants.

The club also travels to meets hosted by other schools. This weekend they will be in Chicago and Octo-

ber 26-27 in Michigan at the U.S. championships. In addition to these, the club will travel to other smaller meets, as well as hosting another on campus meet later this fall.

The Orienteering Club is under the direction of their new advisor, Captain Bow.

Orienteering is a sport where one navigates through unknown terrain using a map and compass to complete a preset course.

### German club presents film

On Tuesday, Oct. 8 at 7 p.m. the German Club will be presenting the movie *The Tin Drum* of Gunther Grass. The location of the film is yet to be

announced. Admission to the film will be \$1.00 for students, although ladies will be admitted free.

The newest addition to the physics department, Dr. Bruce Remington.

# Album Review

## The Y&B attack

### The Y & B Attack

The Yellow and Black Attack is Stryper, an L.A.-based heavy metal band which has been featured in *Time* and *Spin*. Although they have only been on the music scene for two years, their most recent release, *Soldiers Under Command*, rivals the best in heavy metal albums.

Stryper is a refreshing change from typical heavy metal bands. Their lyrics reflect sincere commitment to Jesus Christ, a way of life which is diametrically opposed to the heavy metal lifestyle. Because of their commitment, it was natural for them to derive their name from the Bible, namely Isaiah 53:5:

But he was pierced for our offenses, crushed for our sins

The punishment that brought us peace was upon Him

By His stripes we are healed

The title for *Soldiers Under Command* also comes from the Bible (II Timothy 2:3-4). Their beliefs also affect their stage show — instead of throwing raw meat into the audience or the like, they throw out hundreds of Bibles.

One would then expect *Soldiers Under Command* to contain Christian themes and it does. More importantly, *Soldiers Un-*

der Command is a spiritual battle cry for committed Christians to defeat the power of sin in their lives and to confront the power of Satan in the world. Furthermore, in songs like "Reach Out" and "Surrender", Stryper is appealing to all people to reach out and receive Christ. Stryper, however, does not exclusively rely on Christian subjects, as in the lyrics to "First Love".

Musically, *Soldiers Under Command* varies from cranking, unrestrained guitar licks to smooth, piano-accompanied ballads. The majority of the songs fall into the heavy metal category, containing guitar solos at least equal to some of the best in heavy metal. Stryper is a four-man group — Robert Sweet on drums, Michael Sweet on lead vocals and guitars, Oz Fox on guitars, and Tim Gains on bass and keyboards. Since the lead singer plays lead guitar as well, Stryper fits into the five-man mold for quality heavy metal groups — singer, two lead/rhythm guitars, bass, and drums.

Stryper can crank with the best of heavy metal groups yet they do not succumb to the heavy metal lifestyle. Lori Pike of the *Los Angeles Times* probably summarized it the best: "For

metal fans fed up to their spiked neck-bands with the pompous, obscenity-screaming bands that currently dominate the genre. Stryper's wholesome yet charismatic style offers a novel alternative."

— by Brian Evans

# Movie Review

## 'Invasion U.S.A.' a go

### "Invasion U.S.A." A Go

The recent drought in good films around Terre Haute is over. The latest Chuck Norris offering is the best movie I've had the chance to review yet this year.

Norris, though he is breaking from his usual style of martial arts films, is still after the bad guys. Now, though, he uses a pair of Mac-10's to get the job done. Very efficient little weapons.

On the surface, "Invasion U.S.A." is an action film with a plot. Terrorists, for some reason that is never explained, start attacking the population of the United States. Chuck Norris, as Matt Hunter, the retired CIA agent, comes out of retirement to save the country.

This movie has two extremely strong points. First, the action is almost nonstop. From the first five minutes to the sudden and violent ending, the movie is non-stop. Second, the stunts and special effects are spectacular. Norris, who does all his own stunts, is to be commended not only as an actor, but as a stuntman as well. Several stunts had the audience on the edge of their seats. As the movie progresses, the stunts get more and more intense.

"Blues Brothers" fans may want to see this movie to relive a favorite moment. Seems even Chuck can't resist destroying a shopping mall.

This movie also borrows some from "Rambo". Norris plays the good guy who has to go outside

the law to get the job done.

We also see a brief scene from "Taps", when hundreds of National Guardsmen appear at a wall and the audience is faced with a line of M-16's.

This film only had two let-downs. First of all, Chuck Norris was the only character with any depth at all. At times, it seems that a woman reporter was trying to get into the movie, but her character was never developed. Second, the reason for the terrorist attacks is never explained. Some innuendoes are made that suggest the Soviets are behind it, but no names are ever given.

This movie also makes you think a little bit about life in the United States. Almost everywhere else in the world, terrorism is commonplace. Yet, when

## S.G.A. News

by Sean Maher

The first Congress meeting was held on Tuesday, Oct. 1. Details of the meeting and a complete list of all congressmen and their districts will be in next week's SGA News. As Homecoming ap-

proaches, so does the Board of Managers meeting. If you have anything that you would like Greg Smith or me to bring up at the Board Meeting, please feel free to contact either of us.

"Invasion" shows scenes of what terrorism in this country would be like, it is a little scary. Perhaps Norris is trying to make us face this fact and be thankful for what we have.

All in all, "Invasion U.S.A." was a good film. Definitely worth seeing. Those who get squeamish around violence may not like it, but they would be the only ones.

"Invasion U.S.A."

## You can help us raise the colorectal cancer cure rate.

"If everyone over 50 had checkups for colorectal cancer, the cure rate could be as high as 75%," says Dr. LaSalle D. Leffall, Jr., past president, American Cancer Society. "You can't cure it if you don't know you have it." But if it's detected early, the cure rate for colorectal cancer is very high. Your doctor can perform the digital and proctoscopic exams, and you take care of the simple stool blood test at home.

Since men and women are equally affected by this disease, we urge everyone over 50 to get regular checkups.

The warning signs for colorectal cancer are a change in bowel habits and blood in the stool.

People with a family history of colon or rectal cancer or ulcerative colitis are at higher risk and are urged to be doubly cautious.

Checkup Guidelines for men and women over 50 without symptoms:

- digital exam annually
- stool blood test annually
- procto exam every 3 to 5 years after 2 negative tests 1 year apart.

No one faces cancer alone.

Organist Dennis James (right) and singer Thom Gall (left) add musical life to silent films.

PR photo

## Fine Arts dinner show planned

A return to the days when silent movies were accompanied by the mood-setting sounds of an organist will be featured Oct. 6 when musician Dennis James performs at Rose-Hulman.

James, who is credited with playing a key role in the international revival of silent films with live music, will perform along with singer Thom Gall at a dinner program at 7 p.m. in the main dining room of the Hulman Union Building. Persons attending have the option of enjoying a pizza dinner during the show.

Ticket prices are \$3 for adults and \$1.50 for senior citizens and non-Rose-Hulman students. The price of the ticket does not include dinner. Tickets can be purchased at the door the evening of the performance or prior to the show at the box office in the Hulman Union Building.

The concert is the first of seven programs in the 1985-86 Rose-Hulman Fine Arts Series.

James has become known as a master of the theatre pipe organ because of his ability to hold audiences spellbound with his

musical scores. Songs from such silent film classics as Lilac Times, Seventh Heaven, Robin Hood and Laugh! Clown! Laugh! will be featured Oct. 6.

Since his first sold-out performance of Phantom of the Opera in 1970, James has toured internationally with such stars as Myrna Loy, Ray Bolger, Bob Hope, Ginger Rogers and Lillian Gish. He has served as the resident organist for the Ohio Theatre in Columbus, Ohio and has performed at the Kennedy Center in Washington, D.C.

## THE BUDDY SYSTEM

## Harriers running strong

The Engineer cross country team ran an impressive meet last Friday at the Purdue Boiler-makers' all-comers meet. Rose's Grey team, led by Roger Hruskovich, placed fifth amongst such competition as Purdue, ISU and Butler with a score of 139. Hruskovich ran the race in a time of 26:23.5 earning himself 17th place. Following him were Carl Czarnik (27th), Mark Tebbe (30th), Lee Beckham (32nd) and Kurt Kelso (33rd).

Rose also fielded a red team. Led by D.R. Foley, the red team finished 7th overall. Following Foley who finished 39th were Carl Troike (40th), Kenny Roberts (41st), Steve Mericle (42nd) and Keith Haramen (43rd). Purdue won the meet with 19 points.

On Saturday, the Engineers fielded a team at the Vincennes

Invitational, placing a very impressive third place. Ron Yuhas led the Rose effort with an 11th place finish in a time of 28:28. Following him were Dave Farris (13th), Eric Cameron (14th), Gregg Reece (15th) and Marty Hendrix (17th). All five came in within 47 seconds of one another showing good pack running.

The Rose harriers will compete this weekend at both the Danville Invitational and the De-Pauw Invitational.

Lee Beckham, team co-captain says of the team, "Our second through fifth runners are staying close together, running as a pack, which is important to cross-country success. However, overall our pack must work on improving its place finishes if we are to successfully compete for the CAC title at Fisk University on Nov. 2."

# Thorn Sports

## Engineers romp past Principia

by Steve Zeglin

The Engineers busted loose against Principia College this past Saturday in a 45-0 rout. Rose-Hulman is now 2-2 on the year while Principia dropped to 1-3.

The Engineers knew it was go-

ing to be their day when fullback John Collett fumbled into the end zone and tight end Jeff Bannister fell on the ball for the first touchdown. On the day the Rose wishbone offense ran for 399 yards and accumulated 24 first downs. Also, because the Engineers took an early 17-0 lead and then a 31-0 lead at the half, Coach Thompson was able to use 13 different rushers on the day. In fact the rushing leader was a non-starter, sophomore, Mike Stercula who gained 51 yards on three carries including the longest run for the day a 37 yard TD burst to put the Engineers up 17-0.

The Rose defense had an outstanding day in posting the first shutout of the season. Principia was limited to just 40 yards rushing and 140 passing. The defense picked off two passes including one by senior cornerback Phil

Meiss. Phil now has 17 career interceptions which puts him second on the Engineer all-time list.

Coach Thompson mentioned that he was especially pleased with the total team effort and he was happy to have an opportunity to see everybody play in this game. He also mentioned, "This was the first time we ran the wishbone offense as well as we could up to this point of the season. We also accomplished a major goal today of scoring more points this season than last year." The Engineers have scored 97 points in four games this year as to only 96 points for all of the nine games last year.

Rose will have tomorrow off which will give them an extra week to prepare for the Homecoming game against Taylor University on October 12.

## Soccer falls short

The Rose soccer team dropped matches against Greenville college and Principia college last week.

In the first match at Greenville, the Engineers outshot their opponent 19 to 16, but came up short in the score column, losing 3-0.

In the second game of the week, the engineers faced Principia. Principia outshot the engi-

neers on goal 32-14. Although the Rose goalkeepers Paul Price and Paul Everline combined for fourteen saves, the effort fell short as Principia won 7-0.

The two losses dropped the teams record to 1-5.

The Engineers will return to home action on Saturday, Oct. 12, when they face Rhodes college at 11:00 a.m.

# 1985 Homecoming Queen Candidates

**Angie Belttari**

Sigma Nu

The men of Sigma Nu proudly introduce their Homecoming Queen Candidate, Angie Belttari. Angie is a second year member of the Indianapolis Colts cheerleading squad and is currently taking business computer application classes at I.U.P.U.I. in Indianapolis.

Miss Belttari, of Indianapolis, is a 1984 business major graduate of Mt. Vernon High School. Her extracurricular activities include three years of varsity cheerleading, a four year letter winner and vice-president of her senior class.

Angie is employed at the Indiana Seal Company as an executive secretary to the president and works part time as a model. She spends her spare time as a fan of automobile racing and also enjoys aerobics, swimming, canoeing and other outdoor activities.

**Sonya Marie Black**

Alpha Tau Omega

The 1985 Alpha Tau Omega Homecoming Queen candidate is Miss Sonya Marie Black of Terre Haute. Sonya is a junior at Indiana State University currently enrolled in the School of Nursing. After completing her associate degree at ISU, she plans to continue her education in Texas. She is a member of Alpha Omicron Pi sorority. Sonya enjoys dancing, horseback riding, and ballet. She is the daughter of Mr. and Mrs. Phillip Black of San Antonio, Texas.

**Kay Dille**

Delta Sigma Phi

The men of Delta Sigma Phi are proud to present their 1985 Homecoming Queen candidate, the lovely Kay Dille. Kay is in her second year at ISU and will graduate next fall with a degree in accounting. Prior to attending ISU, she studied at New Mexico Institute of Mining and Technology, where she earned an Associate's degree.

Raised in the heart of the Southwest, Kay enjoys wild-life, hiking, sunbathing, and skiing. Other interests include dancing and classical piano. Kay enjoys soccer very much and can be heard at most home games cheering on our Rose-Hulman team.

Delta Sigma Phi is honored to be represented by such a lovely and enthusiastic lady.

**Cherri Donnelly**

Triangle

Triangle fraternity presents its 1985 Homecoming Queen candidate, Miss Cherri Donnelly. Cherri is a freshman at St. Mary-of-the-Woods College majoring in Pre-Law with a Sociology psychology minor. Her plans for the future are to practice law.

Cherri enjoys swimming, basketball, and drama. She is a Triangle Little Sister.

**Jill Harris**

Speed Hall

Jill Harris, Speed Hall's candidate for Homecoming Queen, is a sophomore at Indiana State University where she is majoring in Television Communications.

Jill, who celebrated her nineteenth birthday earlier this month, hails from Ladoga, Indiana.

Jill is involved in a variety of activities. She is a two-year member of the popular I.S.U. Sparkettes. In addition, she appeared as Miss April in the Pi Kappa Alpha calendar. She enjoys all sports, particularly tennis, and she is active in I.S.U.'s homecoming as well.

She says her ideal evening would consist of dancing, and sampling of fine gourmet foods. Jill's favorite color is green which matches the deep timbre of her eyes.

**Mindy Haws**

Mees Hall

Mindy Haws is a sophomore at Indiana State University majoring in Biology with a Chemistry minor. She lives on campus, but her hometown of Marshall, Illinois, is only a short distance away. She graduated a valedictorian of her high school class in 1984 and she was also a National Merit Scholarship Finalist. Mindy began college a semester early in January of 1984 and is now a member of Alpha Lambda Delta, a freshman honorary.

Mindy enjoys meeting new people. She received an excellent opportunity to do this as a summer exchange student to Belgium when she was awarded a Youth For Understanding Scholarship.

Mindy enjoys college life immensely, but she is anxious to get on to medical school so she can begin her career in medicine as an obstetrician.

**Bertha Horning**

Alpha Phi Omega

Bertha is an energetic, down-home girl from Norwalk, Ohio. She was a senior prom attendant and a member of the senior homecoming court. While in high school, Bert received several awards for her cooking, which should be reassuring to the Rose guys because she works for ARA here on the Rose-Hulman campus.

Bertha attended IBC here in Terre Haute and plans on furthering her education and pursuing her interests in business management.

Among her interests and hobbies are drag racing, automobile mechanics, water and snow skiing, houseboating, and, of course, cooking.

Miss Horning is proudly being brought to you by the men of Alpha Phi Omega fraternity.

**Christi Spainhour**

Alpha Chi Sigma

The men of Alpha Chi Sigma are proud to present their Homecoming queen candidate, Miss Christi Spainhour. Christi is from Clarksville, Indiana, and is currently a freshman at I.S.U. She is majoring in psychology and minoring in marketing. Her long term ambition is to obtain a Ph.D. in psychology, and work as an industrial psychologist.

In high school, Christi was a member of the National Honor Society, Student Council Treasurer, a cheerleader, and Homecoming Queen her junior year.

In her spare time she likes to read, be outdoors, and spend time with people.

You will see Christi at the home football and basketball games, as she is a cheerleader for the Fighting Engineers.

**Suzan Spann**

Phi Gamma Delta

Miss Suzan Spann is the 1985 Homecoming Queen candidate for Phi Gamma Delta fraternity. Suzan is a junior at Indiana State University majoring in Life Science: Chemistry. She plans to attend medical school after graduation.

Suzan's interests and hobbies include aerobics, body-building, running, and gymnastics. She has been named "Miss Terre Haute 1985." As a native of Terre Haute, Suzan considers it an honor to be a candidate for Rose-Hulman Homecoming Queen.

**Lisa Thomas**

Lambda Chi Alpha

Lambda Chi Alpha fraternity presents its 1985 Homecoming Queen candidate, Miss Lisa Thomas. Lisa is a senior at ISU majoring in Clinical Child Psychology and minoring in Criminology. She plans to attend graduate school at UCLA and looks forward to pursuing a career in clinical research with children. Lisa enjoys working with children and is involved with Special Olympics and Big Brother - Big Sister of Vigo County.

Lisa's favorite pastimes include dancing, skiing, running, weight lifting, football, and being an ISU sparkette. She also loves summertime, nature, and being outdoors.

**Dianna Wilimitis**

Circle K

The men of Rose-Hulman Circle K Club are proud to introduce their 1985 Homecoming Queen candidate, Miss Dianna Wilimitis.

Dianna is a junior at St. Mary-of-the-Woods College where she has received high honors while pursuing a double major in management and mathematics. She is extensively involved in extracurricular activities which include being president of the SMWC Circle K Club; secretary of Phi Gamma Nu professional business fraternity, the Aurora literary publication staff, and the Presidential Foley Forum. Her other interests include tennis, biking, dancing, and sewing.

Dianna is from Burlington, Indiana and is the daughter of Mr. and Mrs. Bernard Wilimitis.
