Merom Is Overwhelmed In a Slow Football Game

Rose Seconds Pile Up 41 Points and Varsity Adds 33 More.

Rose vs. Merom.

Merom came up to expectations. Rose defeated the little college from down south by the substantial score of 74-0, playing second string men in all but the last quarter. With the score 41-0 Gil sent Gray, Krausbeck, Steffan, Harris, and Rheinhard in, with the result that these big men piled up a total of 33 points in fifteen minutes of play. Conover, Taggart, Harris, and Skeeters pulled some pretty open-field running that should go good against any eleven. Rose was never halted while Merom failed to gain at any time, we hate to say what the outcome would have been with Captain Englehard, Standau, Dix, and Moses in the lineup.

Rose Poly (74). Merom (0).
Offutt, Krausbeck, L.E., G. Daugherty
Wilson, Steffen, L.T., Conlin
Greusing, Gray, L.G., Hill
Heger, C., Baughmann

dert, R.G., Kroegar
Heck, R.T., Mason
Forsyth, McDargh,
Conover, W. De-
dert, R.E., Wetzel
Forsythe, Conover, Q., Gettinger
Taggart, L.H., Linky
Hauer, Failing, C. Daugherty,
Reinhard, F.B., Ward
Conover, Harris, R.H., Brown

Score by periods:
Rose Poly 14 13 14 33—74
Merom 0 0 0 0—0
Touchdowns—Conover (3), Taggart (3), Hauer, Greusing, Heck, Failing, Harris. Goals from touchdown—Hauer (5), Reinhard (3), Steffen.

Tech vs. Garfield.

The Tech team had a tougher time with Garfield and dropped the opener 7-0. Campbell tore some big holes in the Garfield line and would have gone over for a marker if a penalty of fifteen yards hadn't stopped him. Lentz, Morehead, and Henderson showed a world of good stuff and with a little weight and experience should be varsity material.

Garfield (7). Rose Tech (0).
West, L.E., Henderson
Dorsey, L.T., Morehead
Schoonover, L.G., Wright
Staggs, C., Wallace
Lauterbach, R.G., Kramer
McKee, R.T., Hocker
Lamb, R.E., Lentz
Wilson, Q., Walker
Rukes, L.H., Fisher
Mayrose, F., Campbell
Dunlap, R.H., Wesley

Substitutions—Danner for Kramer, Fitzsimmons for Wright, Wolfe for Lentz.
Score by periods:
Garfield 0 7 0 0—7
Rose Tech 0 0 0 0—0
Referee—Wilder, Purdue. Umpire—Bigwood. Timer—Reinking. Head linesman—Fagan. Touchdown—Wilson. Goal from touchdown—Schoonover.

MEMORIAL ARRIVES.

The Sun Dial which is to be left as a memorial to the school, and which was subscribed for by members of the 1920-'21-'22 and '23 classes last spring has arrived here, and is now nearly set in place. It is a marble-composition pedestal, standing over 4 feet

high and has two elephant heads with entwined trunks on it; which same animal, being the school's patron animal, and beloved by all, adds quite a distinctive air to the sculpturing. The pedestal has been set in place in the south-east corner of the campus. The bronze casting of the style and hour-plate will be finished in the shops in a few days and put in place. The memorial has been put in place in such a way that it can be easily moved out to the new school when it is completed, and will aid quite materially in beautifying the campus.

LETTERS AWARDED.

At the General Assembly of Oct. 7 Basketball, Track and Baseball letters for last year were awarded. Those receiving letters are as follows:

Basketball "R's": Briggs, Reinking, Froeh, Krausbek, Reinhard, Conover, Ellis, Standau, Harris.

Reserve: Walker, Anstead, Biller, and Connolly.

Track "R's": Reinking, Exline, Conover and Dix.

Baseball "R's": Rolshausen, Pense, Ruston, Reinhard, Harris, Steffen, Meadows, Taggart, Owens, Rosenbaum, Brophy, Price, Boyd and Hager.

Reserve: Dunlap, Tyler, Joslin, Anstead, Biller, Lentz and McComb.

ALUMNI NOTES

Married: Ivan L. Kauffman, '14, was married in Minneapolis on Oct. 6th to Miss Hazel Miller, of Indianapolis. Lloyd E. Davis, ex-'14, was married in Terre Haute on Oct. 14th to Miss Helen Jean Reisman.

Recent visitors to the Institute are: Earl E. Hughes, '13; F. Caspar Wagner, '16, Louis A. Bake, '18, George B. Henry '18, J. Arthur Wildermuht, '18.

Hughes has sold his business in Baltimore and is on his way to Colorado for a year's rest, to recuperate from a breakdown just following his release from the army.

Bake has been transferred to the Passaic, N. J., plant of the Du Pont Co.

Henry is just returning to the Illinois Steel Co. after a long vacation made necessary by ill health. His vacation was spent in the mountains of West Va., and seems to have very effectively restored him to fighting trim. He looks fit for the football team.

R. O. T. C.

The following promotions and assignments, 1st Battalion of Engineers, R. O. T. C., are announced, effective this date:

To be first sergeants: Co. A—Taggart. Co. B—Shopmeyer.

To be staff sergeants: Co. A—Standau, Wright, Ellis. Co. B—Kelshaw, E. C. Brown, Hippelheuser.

To be sergeants: Co. A—Boroughs, Cramer, Hager, Krausbek. Co. B—J. M. Wilson, Simms, Boland, Brettell.

To be corporals: Co. A—Stockmaster, St. Clair, Daniels, Weinhardt, Hardin, Neukom, McComb, Heck. Co. B—Sykes, Kolinsky, Matteson, Hocker, Woerner, Minnis, Glenn, Bundy.

By order of Major McDough,
D. L. Mewhinney,

Capt. R. O. T. C.,
Adjutant.

Valuable Gifts Are Announced

Dr. White, Acting President, announces the receipt by the Institute of a number of valuable gifts of Equipment within the past few months. Among these are:

1. To the Electrical Engineering Department.

A complete lighting outfit, Delco System, from the Dayton Engineering Laboratories Co., through their local agent, Camille C. Baines of class '13, Rose Polytechnic Institute.

2. A Motor-Generator Electric Arc Welding outfit from the Westinghouse Electric & Mfg. Co., through William W. Reddies, class '12, Industrial Dept., Westinghouse Electric & Mfg. Co.

3. To the Department of Physics.
A Sargent Gas Meter, donated by Allan S. Bixby, Class '92, just previous to his recent sad death.

4. To the Mechanical Engineering Dept.

A 4-cylinder (truck type) Automobile Gas Engine, from the General Motors Truck Co., through F. A. Whitten, Class '98, Chief Engineer, G. M. T. Co.

5. To the Chemical Engineering Dept.

A Chemical Balance, Eimer & Amend make, together with several other pieces of Chemical Apparatus, presented by Mrs. Lewis J. Cox and Robert S. Cox of Terre Haute.

Dr. White also states that he has recently been informed by Mr. J. W. Dunbar, local manager of the General Electric Co., that that company had authorized the donation to the Institute of a complete Oscillograph Equipment as soon as it can be got ready in their manufacturing department.

Through these gifts, amounting to a total value of between three and four thousand dollars, the equipment of the Institute has been materially improved and the facilities for instruction increased.

During the past year much new equipment has been purchased by the Institute, including a considerable number of new machines for use in the Shops bought from the Government Salvage Board and a lot of Electrical Equipment representing the newest types in the several lines.

The Institute is highly appreciative of all gifts or donations that will in any way add to the efficiency of its instruction.

CAMERA CLUB.

At a meeting held Oct. 13th, the Camera Club elected the following officers for the ensuing year:

President, A. J. Suttie, '22.

Vice President, L. A. Wilson, '22.

Secretary-Treas.—E. H. Wolff, '22. There was quite a large attendance at this meeting and it is hoped that this means that the Camera Club will be more active than it has been for the last few years. What it once did is shown by the exhibit in the west wing of the Academic Building, and there is no reason why it shouldn't resume its activities. So you men with cameras get busy and see what a live organization you can make of the Camera Club.

Y. W. C. A. RECEPTION.

The annual reception given by the Y. M. C. A. for the freshmen was held at the Y. W. C. A. hall Thursday, Sept. 30. This year's reception was one of the most successful ever given. The yearlings turned out almost 100% and there was a goodly number of the upper classmen on deck. The faculty and their wives turned out in full force too. The reception started at 8:00 with Clark, President of the Rose "Y," welcoming the freshmen to Rose on behalf of the Association, and

Engineers Nosed Out In First I. C. A. L. Game

Quakers Win a Fast Game by 7-6 Count

telling of its benefits and asking the hearty support of everyone in all its activities. Then followed a "get acquainted" contest. Everyone had been tagged with his name as he entered the door and a prize was offered to the one who could introduce himself to the most people in ten minutes and get their signature to show for it. This was won by Flaherty of the Freshman class. Then followed a concert by the Sig Mandolin Trio, which pleased everyone. Prof. Child then sang a couple of very pretty solos. Stunts were then in order and Sherwood and Collins offered quite a bit of amusement when they got hold of the wrong books and as a result were beating the empty air. Dunlap and Fitterer then produced some mighty pleasing melodies from the piano and saxophone and Fitterer sang a solo assisted by Dunlap at the piano. Then followed another piano and saxophone concert by Scott and Hood. Dr. White then added to the welcome to the freshmen and confirmed Clark's statements as to the benefits to be derived from active association with the "Y" and urged everyone to take an active interest. Mr. W. W. Mendenhall, state Student Secretary of the Y. M. C. A., was then introduced and made quite an interesting talk on some of his experiences while serving with the British army in Mesopotamia and India. Raebler and McComb produced some music from the piano and drums and then eats were served. And eats they were! Real pumpkin pie, doughnuts, and cider were served and there was plenty for those who wanted a second or third serving. The reception was brought to a close by the singing of "Dear Old Rose" by all.

A. A. E. NEWS

With a large attendance assured, the conference on employment and education sponsored by the American Association of Engineers, which will be held in the Congress Hotel in Chicago on November 12 promises to be an inspiring meeting. All free employment bureaus and agencies are being invited, as well as representatives from engineering societies and engineering colleges.

The purpose of the meeting is to consider the general problems of employment.

The national Executive Committee of the American Association of Engineers has approved the proposed bill for licensing engineers, architects and surveyors in Ohio, as presented by Cecil L. Rood, president of the Ohio Engineering Society and the Ohio Association of Technical Societies, and approved by the Ohio Assembly of A. A. E.

Club charters have been granted by the American Association of Engineers at Leavenworth, Kansas; Santa Cruz, California; Amarillo, Texas; Montreal, Canada; Wilmetto, Illinois; Erie, Pennsylvania; Warren, Ohio; Connoaut, Ohio, and Phillippi, West Virginia. A chapter charter has been conferred in Cambridge, Ohio.

The members of the class of '22 wish to express their deepest sympathy to one of their classmates, Maynard H. Duck, who suffered the loss of his father last week.

The jinx is still with us. Rose lost to Earlham by the score of 7-6 after out-playing them in every department of the game. Tech started off with a rush and scored after a long forward pass, Reinhard to Moses had carried the ball to the Quaker's five yard line. It looked like an easy victory but the Earlham team stiffened and scored, after a long end run. With Conover and Englehard gaining on every play the whistle ended the contest with the ball in Rose's possession on the Earlham five-yard line.

Neither team was able to gain through the line so the play was confined almost entirely to end runs and forward passes.

Rose (6)	Earlham (7)
Offutt.....L.E.	Bookout
Krusbeck.....L.T.	Hall (Capt.)
Steffen.....L.G.	Chambers
McDargh.....C.	Beasley
Gray.....R.G.	Johnson
Standau.....R.T.	Pennington

Forsythe.....Q.	Carter
Skeeters.....R.H.	Wendban
Engelhard (Capt.).....L.H.	Beck
Reinhard.....F.	Girton

By periods:
Earlham 0 7 0 0—7
Rose Poly 6 0 0 0—6

Touchdowns—Girton, Engelhard. Goal from touchdowns—Bookout. Substitutions—Earlham, Pierson for Chambers, Emslie for Wendban, Gordon for Pennington; Rose Poly, Hager for McDargh, Heck for Gray, Conover for Forsythe, Hager for Skeeters, McDargh for Hager. Officials—Referee, Ingelsoll (Dartmouth); Umpire, Davis (Indiana); head linesman, Bacon (Wabash.)

The Indianapolis News said: It was a hard game for Lefty Gilbert and his Rose Poly Engineers to lose. When the final whistle blew it was Rose's ball on the Earlham three-yard line and first down. The Rose team made a wonderful comeback in the last few minutes of the final quarter and Earlham can thank its good old Quaker luck that the last half was played in twelve-minute quarters, instead of fifteen, as was the first half. Engelhard and Standau were the backbone of the Engineers. They were in every play and when Rose slumped in the middle of the game they stemmed the tide to the best of their ability.

Carter, substituting for Hinshaw at quarter, played a snappy game; Beck made some of the best Earlham gains from halfback's position; Girton, a freshman, hit the line like a ton of brick and with a little more speed and experience will make a hard man to handle.

When the season opened it was generally believed that Ray Johnson, the big Earlham guard, would be the best punter in the state. To the surprise of the war correspondents and to the utter horriification of the Earlham stands, Reinhard, of Rose, out-kicked him a good ten yards on every exchange.

Rose goes in for long passes, and the Engineers' touchdown came as the direct result of a forty-five yard forward pass, Reinhard to Moses. It takes a Kolimainen to cover the passes that Gilbert gives his men.

Ducky Standau went out of the game in the last quarter after a beau-

THE WABASH GAME.

Rose is going to beat Wabash! The Little Giants journeyed to Chicago last Saturday and experienced a mighty tough time at the hands of Staggs eleven, which oughtn't to leave them in any too good condition. However, that is of no consequence, Rose would beat them anyway. With Harris, Moses, and Dutch Krausbeck back in the line Tech will be represented by the best team put on the field since the alumni game. Coach Gilbert has done his best, the team is going to show the old fight, and it's up to the students to help them along. Last Saturday at the Merom game the pep shown by the student body was awful. True, there was not much incentive to yell then, but there's going to be a lot of opportunity when we stack up against Wabash. Let's all get together with yell-leader Pittman next Saturday and help the team tie a sinker to Wabash's colors.

Beat Wabash!

ROSE-NORMAL.

We hear that State Normal has named her new tackling dummy "Rosie." According to report they have been punishing Rosie cruelly, battering her much the same as they intend to batter Old Rose herself.

Yea, truly Normal has a hard team; they have hard ideas and daily prove what will happen when they get their chance at Rose. They will get their chance on November 20th for

NOBLE J. JOHNSON

Republican Candidate for

Prosecuting Attorney

I kindly solicit your support

after weeks of delay and evasion Coach Bayh has finally signed a contract for that date.

We cannot help wonder at the delay in arranging a game. Why did Bayh refuse to sign when approached by Coach Gilbert several weeks ago? Perhaps he was afraid to pit his "Jasonville Wonders" against the "Fighting Engineers." Well, we can't blame him very much for that.

As for "Rosie," our advice to Normal is to go: all the satisfaction out of her that they can, for Nov. 20th is going to be Rose Poly's day and revenge will be sweet.

Remember the Elephant.

The importance of supporting our advertisers may be explained by the following statistics. Do you realize that if the Technic had no advertisers, each bi-weekly issue would cost every student 24 cents a copy and that he would pay \$1.30 for each quarterly, providing every student purchased one every issue. Every student who has paid his student fund pays 7 cents for the bi-weekly and 30 cents for the quarterly. In other words, our advertisers save each student \$4.91 a year. Can you overlook this important matter when it comes to your transactions with them?

Imagine yourself stepping into a business house and trying to solicit advertising for the Technic. The first thing the shrewd business man would ask is, "Will the advertisement repay me and if so, how can I know if he be a Rose student?" That is the greatest difficulty in obtaining advertisements for the rates are low enough. We must promise them the co-operation of the student body and it is then up to the student body in turn to back the advertising staff. If the staff has the support of the students, then it would be a cinch to get enough advertising in the Technic, not only to pay for itself but to turn over its profits to Athletics.

The staff has developed a plan this year by which every student and faculty member may know our advertisers. Each advertiser is provided with a display card which he must put in a conspicuous place and to stay there the entire school year. The card has an old rose 'R' in the center and the advertiser's name printed at the top, signifying that he is a supporter of the Technic and Handbook. If you can't find a card in the store where you trade frequently, ask the proprietor about it and try to persuade him to advertise. If he refuses then it is up to you to find a place where there is a card. If your favorite barber is not an advertiser—make him one. The advertising staff is eager to know the names of the prospects and all you have to do is to drop their names in the Technic box and we'll do the rest. If you see a Rose man going to a slacker store tackle him low, for the city will repair the sidewalks.

What do you say? Are you behind us? If so, look for the card. And let them know that your not supporting the Normal Advance.

A CALL FOR VOLUNTEERS.

Long years ago there was a college in Indiana which was known far and wide for its Glee Club. This college had a group of singers who were not equalled any place. When they went anywhere the house was always packed. They made trips to towns which were quite distant and invariably brought the bacon home. Once they filled in the program for a vaudeville house and drew large crowds. This Glee Club was known as the Rose Glee Club in those days and was a great success.

We are going to revive that old Rose Glee Club and put it back where it was years ago. This can be done for we have the talent in the school and an able leader, but the difficulty arises in getting the support of the students in a wholehearted fashion.

Last year under the direction of Prof. Childs it was put back on the map as an actuality. Several trips

and a banquet at the close of the season along with a Hippodrome party were enjoyed by the members. We are going to do bigger things this year. All that is needed to make the club a great success is the support of the student body. Any man who can sing or who shows symptoms of singing will help put old Rose back where she was by coming to the next meeting of the Glee Club. Let's get back of the club and boost so that we can point with pride to Rose and its Glee Club.

Student Council Holds First Meeting.

The first meeting of the Student Council was held Friday night, Oct. 8, at which time officers were elected for the year.

Engelhard was elected president; Clark vice-president and Forsythe Recording Secretary. Claude Grax is Financial Secretary. The minutes of the meeting follow:

Meeting called to order at 8:15 P. M. by Financial Secretary Gray.

Forsythe named Recording Secretary for the year.

Engelhard absent, represented by Ronald.

Gray and Engelhard nominated for President of Student Council.

Engelhard elected president.

Clark and Dix nominated for Vice-President.

Clarke elected Vice-President.

Clarke takes charge of meeting.

Report of Financial Secretary.

Of 230 enrolled in school, 215 have paid student fund. This money to be distributed among the school organizations as follows:

Athletic Association	60%
Technic	12%
Y. M. C. A.	18%
Camera Club	1/2%
Scientific Society	1/2%
General Fund	5 1/2%

Sewell makes a motion that due to increased needs of The Technic, the surplus money of the Y. M. C. A. be turned over to The Technic.

Motion passed allotting \$84.00 of Y. M. C. A. fund to Technic.

Motion made and passed that Freshman Class be instructed to hold a Pep Feast Oct. 21 (two days before Wabash game).

Motion made and passed that Student Council appoint a committee to draw up a petition asking for a Holiday on Armistice Day, (Nov. 11th.)

Sewell and Junker appointed as Committee.

Gilbert makes statement regarding financial standing of the various school organizations, and makes several suggestions for clearing debts.

1. Minstrel show early in January.
2. Returns from Wabash, Butler and Normal games.

3. Raffle of Premier Car.

Motion made and seconded that proposition of raffle be turned down.

Dr. White gives Technic Staff permission to arrange a series of dances for the benefit of The Technic.

Junker excuse, 9:20.

Coach Gilbert asks concerning a two year foot ball contract with Carnegie Tech.

Coach Gilbert advised by Dr. White and Student Council to complete contract.

Motion made and carried that \$250 of student fund be loaned to Athletic Association to cover present needs.

Motion made and carried that advertising manager of The Technic be awarded 10 honor points instead of 5.

Dr. White advises that Student Council investigate class fights and form plans for a better regulation of these fights.

Meeting adjourned 10:15 P. M.

The Junior Banquet

The Junior class will have its annual banquet on the night following Hallowe'en. It has been the custom for the Juniors to have their banquet on Hallowe'en night if possible, but since Hallowe'en comes on Sunday this year it was thought best to hold the affair on the following night. The banquet will take place at the Elks Club and a good feed and a fine time together with some excitement is absolutely guaranteed to every Junior putting in appearance. All assessments cheerfully accepted by the treasurer.

He (to waitress)—When was this pie baked?

She—I don't know. I just started here yesterday.

You tell 'em "Old Rose" You "still" have the "Punch"

We're for you, old school—go out and fight 'em hard in all the games. Then after the big show come down here and see us. Come in and chat with the gang down here. They'll all be glad to greet you and see you. If you show your cards, we have your suit. Don't forget, we have—

FRATERNITY NOTES

KAPPA OF THETA XI.

On Friday evening, October 8th, the members of the Kappa Chapter enjoyed a get-together in the form of a wienie-roast at the farm of Al Woolen, two miles south of the city. Twenty-four couples were in attendance and the good time enjoyed should guarantee other social events to be given this school year.

W. C. Wente, who spent Sunday in the city was a guest of the Chapter.

N. A. Ruston, '20, with the Sears-Roebuck Company, was a visitor of the Chapter last Saturday and Sunday.

H. G. Schlaman, '20, with the General Electric at St. Louis, spent the week-end at the chapter house.

SIGMA NU

The members of Beta Upsilon were entertained at a stag party on Tuesday night, by Brother Dronberger. Smokes and eats were the essentials of the evening.

Brother Reinking left Thursday to take up work with the Westinghouse Company in Wellsville, N. Y.

Brother Brophy, who is with the Corrugated Bar Company of Chicago, visited the chapter a week ago.

Beta Upsilon announces the recent marriage of Brother Tilley.

Brother Floyd and wife entertained the members at a beach party at the Eighth avenue sand bar a month ago.

P. I. E. S.

The P. I. E. S. opened their social activities of this season with a wiener roast, Wednesday, Oct. 13. About twenty couples met at the house and rode out to Loser's farm on a big hay rack. "Hot dogs," marshmallows, cider and the Victrola furnished the main diversions.

ALPHA TAU OMEGA NOTES

Gamma Gamma announces a dance to be given at the chapter house the evening of the Wabash game, Oct. 23.

Louis Bake, '18, was a recent visitor at the chapter house. Lou is connected with the Du Pont Powder Company at Passaic, N. J.

G. Kemper Smith, '22, is attending California University this year. Sid writes that he will be back with us next year.

The Alpha Chi Sigma announce the initiation of Homer A. Clark of the class of '21, Monday, Oct. 11.

With gentle Springtime here, I know
The proper thing to do
Is, oyster plant in beds to sow
And raise some oyster stew.

—Yonkers Statesman.

And when that stuff has sprouted good
Some chickweed I'll plant too,
And with the little plants I should
Soon have some chickens, too.

—Springfield Union.

But, if this chickweed growth not,
Why, in my garden patch
I'll set some egg-plant in a spot
Where it will surely hatch.

—Akron Times.

I know just what I've got to do
To make this plan complete;
If it works right I know that you
Will say it can't be beet.

—Desert News.

And then I have another thought—
A good one as you'll see—
I think that when the boss reads this
He'll raise my celery.

—S. F. Bulletin.

And if he'll raise my celery,
Although 'twould give me pain,
I'll have to lower sugar costs
By raising me some cane.

—Pelican.

And now, if none of these will grow,
I'll try to raise some hops;
Some home brew wouldn't go bad, you
know,
If not quite as good as Schnapps.

UNPRECEDENTED ROAD BUILDING THROUGH FEDERAL AID

Washington, D. C., August 5.—The unprecedented stimulus given highway construction in the United States in the four years that have passed since the Federal Government entered upon its policy of aiding road improvement, is shown by the fact that road operations under the Federal aid road act thus far initiated aggregate in length nine times the distance from New York to San Francisco, according to Thomas H. MacDonald, chief of the Bureau of Public Roads, United States Depart-

tiful flying tackle of Beck that saved a sure touchdown.

Tip to Mr. Ziegfeld: Give the Earlham coeds the once over; they sing, they march, and, oh boy, how good they do look.

Fifteen members of the Royal Order of Box Car Bums of Rose Poly attended the game, coming in their private eight chevaux forty hommes vehicles. If it were not for the shock to the nervous systems of Pullman officials the tale might be told of how the entire order came back from the St. Louis game two weeks ago riding in state and lower berths and all free gratis fer-nuthin.

ment of Agriculture. The Federal Government's share in this stupendous undertaking is greater than the cost of the Panama Canal. The participation of the National Government in highway improvement marked a departure from a policy which had been followed for nearly a century. Federal co-operation with the States on approximately a "50-50" basis has counted more than any other factor, says Mr. MacDonald, in initiating highway construction that is being carried on under adequate supervision, and in accord with a program co-ordinating local, state and national needs.

Highways of Splendid Types.

Second only in importance to the size of the present road-building program is the excellence of the character of the roads being built. Sixty per cent of the total allotment of Federal funds which has been approved to date will be spent for roads of such durable types as bituminous concrete, Portland cement concrete, and vitrified brick. These roads when built will increase by 7,600 miles the total of 14,400 miles of roads of this class which existed in the United States before the Federal aid road law was passed. But these figures by no means represent the total mileage affected.

Mary—I am thoroughly disgusted with Ted.

George—How's that?

Mary—Well, I had 13 dates with him last week, and I've bought only 3 new hair nets!

Junker—Hey, 'Fessor, is W the weight of water?

Tommy (indisposed)—Yep, Yep.

1790 NEW YORK 1870

Most of the famous buildings of the world
are equipped with Otis Elevators

THE WOOLWORTH TOWER—the tallest office building; the Equitable—the largest; the Singer Building—in fact most of the buildings that make up the best known skyline in the world, are equipped with Otis Elevators.

Few people realize the amount of wealth of Manhattan Island that is due to the creation and development of modern vertical transportation by the Otis Elevator Company. New York City could not grow wider hemmed in as it was by the two rivers and the bay. It had to grow skyward.

And now, the Otis Elevators in New York City carry daily more than twice the number of passengers carried by all the traction lines of New York—subway, surface, elevated and railroads. Nothing short of a book would adequately tell the story of Otis in New York alone.

BOOST THE TECHNIC

Differentials

Mae (spreading a heavy line to the Junior Mechanicals)—Yeh, and I got my work, too, when I went to school.
 Watson—Who from, Fessor?

Balance Room Hot Ones.

Young (full of Beechnut)—Open the window—I want to spit.
 Mc—What have you got that desiccator for?

Dedert—Let me have that mortar and pestle.

Voges—What for?

Dedert—Want to mortify this sodium hydroxide.

On the job, men!

Owens—Where did you get all that chalk?

Dedert—Out of 'Fessor Thomas' lunch box.

Rube—Say, what did you give me in that prescription?

Clerk—Pluto water.

Rube—Heck, I've drank four bottles of it already and nothing's happened yet.

Clerk—Here, take this two bits and buy yourself something to eat.

A good speech should be measured the same as a dress: Both should be long enough to cover the subject and short enough to be interesting.—Ext.

When Cramer heard the one from the Hipp about the guy who was so dumb that he thought Easter Sunday was Billy's sister, he wanted to know: "Well, who was she?"

Maud's Mother—Has Maud made up her mind to stay in?

Maud's Sister—No; she's made up her face to go out.—Ext.

Might Have Been from Rose.

Absent-minded Prof. I. Forgetmuch was traveling in the East. When the conductor came to take up his ticket, he could not find it. So the blue-coated individual passed on, saying he would return. The prof continued searching until the conductor returned, but found no ticket.

"That will be all right, sir, just pay me in cash," said the conductor.

"That isn't troubling me, my good sir," replied the absent-minded prof, "I have to have that ticket to know where I am going." —Ext.

Nothing New in This.

A perplexing problem came up at the recent Faculty Meeting. Demanded one Professor, "When roll has been taken and all students have answered as present, how is it possible for three more to come walking in?"

This was referred to the Department of Phenomenal Research.—Chapparral.

Not Much Farther to Go.

But now he is nowhere in sight

Oh where has Oregon?

Diana ate six oranges,

Five pears and ten bananas.

They made her sick, the doctor said,

Too much fruit Indiana.

THE GOBOON

VOLUME II. All Contributions Cheerfully Received NUMBER 1

The Senior Chemists have formally petitioned Dr. White to allow them to replace their "normal solutions" by "Rose solutions" as there seems to be quite an odium attached to the name "Normal."

Football stock at Indiana State Normal took a decided jump last week when Harry Kinkle appeared for practice at Parson's Field. Mr. Kinkle will be remembered as an old Rose man who fell by the wayside and is now studying spelling and penmanship at the North Sixth street institution. Young Kinkle is out for a backfield position and has an excellent chance to make good because of his unique ability to wriggle through the smallest possible crevice in the opposing line. Then if he is tackled he will fall half-way to the goal.

Doubtless everyone has heard of the now famous Rose short course, but probably no one except our old friend Alex Kolinsky has ever hit upon the novel idea of going through Rose backwards. Last year Kolinsky carried several sophomore credits but this year he is a freshman. By diligent study he hopes next fall to enter Garfield High School as a senior.

ECHOS OF ST. LOUIS

The R. B. O. F. E.
 With Sergeant Kearns as chief,
 Invaded old St. Louis
 And never came to grief.

They traveled "a la box car"
 That is when going down,
 But hooked a flock of Pullmans
 And rode them back to town.

They showed some pep while down there
 With lots of yells and cheers,
 And certainly did their duty
 As Fighting Engineers.

And so the ones who got there;
 That is, who got there free,
 Have formed this organization,
 The R. B. O. F. E.

Prof. Thomas has done the impossible! He has taught Watson something. Watson was observed daintily nibbling at a piece of chalk in Electricity recently. It is rumored that Prof. Thomas will receive a doctor's degree in recognition of this stellar piece of work.

It has been heard that Prof. Thomas greatly prefers nine o'clock classes because they enable him to ride his motorcycle from his home to the Institute. For eight o'clock classes he finds it necessary to walk to get to school on time.

Ralph Cramer, '23, experienced considerable trouble on the return trip from St. Louis. He searched through the berths in three different Pullmans trying to find a hammock that was large enough for him to sleep in. He finally had to spend the night on the floor.

There is still some question as to whether the members of the Normal team will be awarded an "N" or a "J" at the end of the present season. However it is thought that some novel combination of the two letters will be devised by some of the brains of the school.

Quite a distressing incident occurred on the Rose campus last Wednesday evening. Mr. Gilbert had ordered secret signal practice, so several of the students immediately busied themselves with chasing the young boys from the campus. One group of particularly zealous freshmen sought to eject Fred Stockmaster from the field as an undesirable onlooker. Of course, young Stockmaster stoutly maintained that he was a Rose student but his size was against him and the freshmen remained firm. Doubtless he would have been forcibly expelled from the field had not Jesse Downen, chief of the impromptu policemen, intervened in his behalf. As it was, Stockmaster was highly indignant and walked off muttering some unkind words about the unsophisticated Frosh.
